MONTANA

ANNUAL COMPREHENSIVE FINANCIAL REPORT FOR THE YEAR ENDING JUNE 30, 2022

REPORT LAYOUT

The Annual Comprehensive Financial Report is presented in three sections: Introductory, Financial and Statistical. The Introductory Section contains the transmittal letter, State organization chart, and a list of principal State officials. The Financial Section includes the independent auditor's report, the management's discussion and analysis, the basic financial statements and the combining statements and schedules. The Statistical Section includes fiscal, economic, and demographic information about the state.

INTERNET ACCESS

STATE OF MONTANA

Introductory Section

State Financial Services Division Greg Gianforte, Governor Misty Ann Giles, Director

March 22, 2023

To the Citizens, Governor, and Members of the Legislature of the State of Montana:

In accordance with Title 17, Chapter 2, Part 110, Montana Code Annotated (MCA), we are pleased to submit the Annual Comprehensive Financial Report (ACFR) of the State of Montana (State) for the fiscal year ended June 30, 2022. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation rests with the Department of Administration. To the best of our knowledge and belief, the enclosed data is accurate, in all material respects, and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the State of Montana. All disclosures necessary to enable the reader to gain an understanding of the State's financial activities are included.

DESCRIPTION OF THE ACFR

This report and the accompanying financial statements and statistical tables were prepared in accordance with standards set forth by the Governmental Accounting Standards Board (GASB).

The State's ACFR is divided into three main sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, an organization chart for the State, and a list of principal state officials. The financial section contains management's discussion and analysis, the independent auditor's report, government-wide financial statements, fund financial statements, notes to the financial statements, combining statements by fund type, and other schedules. The statistical section includes financial, economic, and demographic data.

This report includes all funds of those entities that comprise the State of Montana (the primary government) and its component units. The component units are entities that are legally separate from the State, but for which the State is financially accountable, or whose relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and either (1) the State is able to impose its will on that organization, or (2) there is the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State. The following component units are included in the State's financial reporting entity: Montana Board of Housing, Facility Finance Authority, Montana State Fund, Montana Reinsurance Association, Montana State University, University of Montana, Public Employees' Retirement Board, and Teachers' Retirement System.

PROFILE OF THE GOVERNMENT

After 25 years as a territory, Montana became the 41st state when it was admitted to the Union in 1889. While Montana has a total area of 147,040 square miles (including water area), and is the nation's fourth-largest state, it is also one of the most sparsely populated, with an estimated population of slightly over one million. Montana is vast, including rolling plains, the Northern Rocky Mountains, all of Glacier National Park, three of the five entrances to Yellowstone National Park, wheat farms, cattle ranches, tribal lands, and extensive natural resources.

In 1972, a constitutional convention convened, rewriting the State's Constitution and establishing the current governmental structure. As shown in the organization chart attached within this report, State government is divided into three separate branches: legislative, executive, and judicial. Montana's Legislature consists of 50 senators and 100 representatives elected from single-member districts. The Legislature meets in regular biennial sessions for 90 days in odd-numbered years. Montana is governed by its Constitution, and its laws are administered by its executive branch officers and various boards and commissions. State government services provided to citizens include building and maintaining roads; providing public safety, health, and environmental protection services to protect the general welfare of the State's citizens; helping adults, children, and families through difficult times such as abuse, divorce, illness, death, and, unemployment; fostering an attractive business climate to encourage economic growth; and protecting public lands and natural resources for conservation and recreational activities. The State also provides significant financial support to its higher education institutions, local governments, and school districts to help those entities meet the specific needs of their constituents.

ECONOMIC CONDITION AND OUTLOOK

Montana's economic output, measured by real gross state product (GSP), advanced 4.8% in 2021 from its 2020 level. Growth is on track to finish 2022 in positive territory, but the pace is slowing. Production is sourced primarily from service-providing industries (e.g., healthcare, trade/transportation/utilities, financial services, professional and business services). In 2021, service-providing industries accounted for over 80% of the state's real GSP, with goods industries accounting for the remaining. Montana's four largest industries by share of real GSP are trade/transportation/utilities services, financial activity services, education and health services, and professional and business services. Other important industries for Montana include manufacturing, construction, and leisure/hospitality (driven by nonresident travel). These three industries each account for between 4% to 7% of real GSP. Montana's industry mix remains roughly the same through 2022.

Montana nonfarm (payroll) employment reached new territory in 2021, eclipsing 500,000 jobs for the first time. From December 2020 to December 2021, Montana added 21,900 payroll jobs, an increase of 4.5%. Employment gains continued into 2022. Montana achieved record nonfarm employment in June 2022 of 508,000. This high-water mark is an increase of 18,800 jobs (3.8%) from the pre-pandemic employment peak of 489,300 in February 2020. Since June 2022 nonfarm employment has declined slightly, a trend that is projected to continue through 2023 as weak economic growth puts pressure on employers. The statewide unemployment rate averaged 3.4% in 2021, down from 5.8% in 2020. It fell to a record low of 2.3% in March and April of 2022 amid an incredible imbalance between labor demand and labor supply. This demand-supply gap retracts in 2023 and the unemployment rate rises toward more normal levels. Like GSP, Montana's employment is concentrated in the service-providing sector. Industries in this sector account for about 88% of total nonfarm (payroll) employment in the state.

Montana's tight labor market has pushed nominal wage growth higher over the past few years as firms compete for qualified workers. Per the 2022 Labor Day Report issued by the Montana Department of Labor and Industry, Montana had nominal wage gains of 5.9% in 2021. Montana's average annual wage was \$51,331 in 2021, ranking 45th among states. Rising inflation in 2021 resulted in real wage growth of 1.3%. Real wage growth was widespread across industries in Montana. The three industries with the fastest real wage growth in 2021 were leisure and hospitality, finance, and real estate. A large uptick in nonresident travel and a strong housing market in 2021 contributed to the robust real wage gain for these industries. Montana total personal income advanced at the 12th fastest pace in the nation in 2021.

For a more in-depth analysis of the State's overall financial position, the reader should refer to the Management's Discussion and Analysis and the financial statements contained in the ACFR.

Service-Providing Industries

Healthcare is one of Montana's largest employing private industries. When reviewing the top ten principal employers in Montana, four of them are related to healthcare (see the statistics section, Schedule D-2, Principal Employers for further information). Using nonfarm data from the Montana Department of Labor and Industry, employment in Montana's healthcare and social assistance industry increased by over 1,800 jobs from June of 2021 to June of 2022. Total jobs in the industry increased 2.6% from 69,500 to 71,300. Over the previous five years, healthcare added an average of 850 jobs per year.

The trade, transportation, and utilities industry are part of the service-providing sector. The professions consist of wholesale trade, retail trade, transportation and warehousing, and utilities. Data from the Montana Department of Labor and Industry indicate Montana's trade, transportation, and utilities industry increased 5.2% to 100,100 jobs in June of 2022 compared to 95,200 jobs in 2021.

The professional and business services industry is part of the service-providing sector. The professions consist of professional scientific and technical services, management of companies and enterprises, administrative/support, and waste management/remediation services. Data from the Montana Department of Labor and Industry indicate Montana's professional and business services industry increased by 4,700 jobs from June 2021 to June 2022. This was an increase of 10.4% from 45,400 to 50,100.

The financial activities sector is also a service-providing industry that encompasses employment in financing, insurance, real estate, and rental leasing. Data from the Montana Department of Labor and Industry show employment in Montana's financial activities sector increased to 27,800 jobs from June 2021 to June 2022. This was in increase of 7.8% from 25,800.

Nonresident Travel

Nonresident travel to Montana in 2021 was approximately 12.5 million visitors, up 12.5% from 2020, but down 1% from the pre-pandemic year of 2019. This information was provided by the University of Montana's Institute for Tourism & Recreation Research. Despite a decrease in travel and travel spending during 2020 due to the COVID-19 pandemic, both traveler numbers and the associated spending recovered during 2021. In fact, spending surpassed that of 2019, while the number of travelers to Montana during the year were just below pre-pandemic levels.

Glacier National Park was closed to visitors from March 27, 2020, to June 8, 2020, when a phased reopening was initiated. Visitor numbers for Glacier National Park were 44.3% lower in 2020 than in 2019, with an estimated 1.7 million visitors. Visitation rebounded strongly in 2021 to nearly 3.1 million, eclipsing the 2019 pre-pandemic level of 3.0 million by 1.0%.

Yellowstone National Park closed March 24, 2020, with Montana entrances reopened on June 1, 2020. Visitation to Yellowstone National Park was 3.8 million in 2020, down 5% from 2019. Resurgent travel in 2021 resulted in 4.9 million visits to Yellowstone, up 28% from 2020 and 21% from 2019.

Nonresident travelers contribute directly to the tax base by paying the lodging tax and excise taxes, such as those on gasoline, and indirectly by supporting employment in industries that pay corporate taxes and whose employees pay income, property, and other taxes. Estimated nonresident direct travel expenditures in Montana totaled nearly \$5.2 billion in 2021, representing an increase of \$1.8 billion from 2020 (53.3%) and \$1.1 billion (26.3%) from 2019.

Agriculture

Montana's wheat crop utilized 5.5 million acres in 2021, an insignificant change from 2020. Wheat production fell sharply in 2021, declining over 126.7 million bushels to 100.6 million bushels from 227.3 million bushels in 2020. Winter wheat production decreased to 53.6 million bushels compared to the 2020 level of 75.9 million bushels, representing a 29.4% decrease. Spring wheat production cratered 70.3% from 2020 to 2021, falling from 124.6 million bushels to 37.1 million bushels. Durum production declined from 26.7 million bushels in 2020 to 9.9 million bushels in 2021.

Montana's other major agricultural commodities include oats, barley, and cattle. Oat production in Montana decreased to 560 thousand bushels in 2021 from 1.7 million bushels in 2020. Barley production fell by nearly half in 2021, falling from 45.7 million bushels to 24.7 million bushels. Montana ranked 13th in the U.S. cattle and calf industry with production of 2.5 million head in 2021. Montana's 2021 receipts from cattle sales were \$1.6 billion.

Natural Resources/Mining

Montana's natural resources and mining industry employed 7,200 workers at the end of June 2022, a 1% increase from 6,700 workers at the end of 2021.

As of the end of calendar year 2020, Montana's total crude oil proved reserves stood at 256 million barrels. Total crude oil production in the state was 19.1 million barrels in 2020 and remained essentially flat at 19.0 million barrels in 2021, according to data from the U.S. Energy Information Administration (EIA).

Montana's total coal reserves were estimated at 118.4 billion short tons, with recoverable reserves of 74.3 billion short tons in 2021. This represents 25.1% of the total U.S. reserves and 29.6% of the recoverable U.S. reserves. Montana's recoverable coal reserves at producing mine sites stood at 559 million short tons in 2021, 4.6% of the U.S. total. This is a decline from the 2020 level of 707 million short tons. During 2021, resurgent demand led to higher production of 28.6 million short tons, an increase of 8.7% from 26.4 million short tons in 2020.

Historically, minerals mining has been a part of Montana's economy. While there is no published data on proven reserves for metals mining, Montana's mines continue to produce copper, molybdenum, lead, zinc, palladium, gold, silver, cobalt, nickel, chromate, platinum, and other metals. Montana also produces non-metal minerals such as talc, limestone, bentonite, garnets, and sapphires. The "rare earth" metals, now in demand in many new products, are also known to exist within the state.

Long-Term Financial Planning

The State, as part of its biennial budget, determines how to enact the next few years of long-range planning as required by various MCA statutes. As part of the budgeting process, the Office of Budget and Program Planning forecasts revenue for six years and conducts financial and budgetary stress tests over the same period. For the 2023 Biennium, the Legislature passed legislation that continues a macrostatewide financial analysis that looks forward ten years as part of the budgeting process. Capital improvement programs focus work on construction and maintenance of state buildings, energy efficiency improvements in state facilities, and investments in state services. The loan and grant programs focus on helping local governments fund infrastructure projects, funding projects that benefit the State's natural heritage, reclaiming land impacted by mineral development, funding regional water systems, protecting works of art in the state capitol, and other cultural and aesthetic projects. The activity is reported in the debt service, capital projects, and permanent funds and the financial information can be found in the Supplemental Information for nonmajor governmental funds.

Title 17, Chapter 7, Part 2, Montana Code Annotated (MCA), provides a statutory structure for financing new capital projects and deferred maintenance. Capital project funds are used to fund building projects, with 1.0% of General Fund revenue less any existing general obligation bond debt service. Deferred maintenance is funded at 0.6% of current replacement value of existing Long Range Building Program through coal and cigarette taxes, with any difference being made up by the General Fund.

There is an inflation-adjusted general obligation debt service cap, as well as a separate inflation-adjusted total state debt cap that will curtail appropriations for new building projects moving forward in the event the caps are surpassed.

MAJOR INITIATIVES AND LONG TERM OUTLOOK

The 2021 Legislature completed work and adjourned in late April 2021. Upon adjournment, it was anticipated that 2023 biennium General Fund revenue collections would be approximately \$5.4 billion and General Fund expenditures would be approximately \$5.3 billion. At the end of the Legislative session, the estimated General Fund balance for fiscal year 2023 was estimated to be approximately \$380.0 million.

In fiscal year 2022, the General Fund unassigned ending fund balance was 1.8 billion as compared to \$641.5 million in fiscal year 2021. The increase in fund balance, when compared to fiscal year 2021, was the result of strong economic growth and one time only revenues that were greater than estimated and expenditures that were less than estimated.

The following are the major financial highlights of the 2023 biennium budget:

- 1. The Governor signed House Bill (HB) 632, which created a structure for funding and implementation of the American Rescue Plan Act. There is appropriated \$906.4 million in State Fiscal Recovery Funds, \$81.8 million in Local Fiscal Recovery Funds, \$119.3 million in capital project funds, and \$1.1 billion in other federal programs administered by the State. Advisory Commissions were created that are made up of legislators and members appointed by the Governor. These Advisory Commissions review recommendations for funding projects in the interim and make their recommendations for the consideration of the Governor.
- 2. HB 3 and HB 630 appropriated \$750.0 million of federal funding from the Consolidated Appropriations Act. This Federal COVID-19 funding focused on vaccines, education, transportation infrastructure, and emergency rental assistance.
- 3. HB 14 and Senate Bill (SB) 191 transferred \$223.6 million from the General Fund into the capital project funds, which was created in HB 553 in the 66th legislative session in 2021. Capital projects that were appropriated in state legislation that are later determined to be ineligible for COVID-19 federal funding will be paid out of the capital development fund. Any balance remaining will be carried forward into next legislative session.
- 4. The base budget for the Department of Public Health and Human Services increased by \$42.3 million in the General Fund due to provider rate increases in foster care and Medicaid programs, investments in the recruitment and retention of direct care workers, and increased authority for the Children's Health Insurance Program (CHIP).
- 5. Funding for K-12 education increases totaled \$104.5 million in the General Fund and included inflationary increases for base amount for school equity (BASE) Aid and the Montana Digital Academy, and funding for the Advanced Opportunities and Transformational Learning Grant Program. The Montana Indian Language Preservation Program moved from the Department of Commerce to the Office of Public Instruction.
- 6. SBs 159 and 399 make changes to the structure of Montana's individual income tax. The sole effect of SB 159 is a reduction in Montana's top marginal income tax rate from 6.9% to 6.75% beginning in calendar year 2022. SB 399 provides for a broad restructuring of Montana's income tax. The bill consolidates the current seven marginal rates down to two (6.5% and 4.7%), eliminates numerous individual and corporate income tax credits, and changes the starting point on the Montana individual income tax return to federal taxable income. Income tax credits (except for the capital gains tax credit) are eliminated starting in calendar year 2022, but the tax rate reductions don't take effect until calendar year 2024. The estimated net effect of SBs 159 and 399 is to reduce General Fund revenue by \$6.0 million in fiscal year 2022 and \$26.4 million in fiscal year 2023.

- 7. HB 303 increases the market value exemption of class 8 business equipment property from \$100.0 to \$300.0 thousand. This change lowers the taxable value of class 8 property. To avoid a tax burden shift to other classes of property, local governments and school districts are reimbursed for the reduction in class 8 tax revenue via increased entitlement share transfers and guaranteed tax base payments, respectively.
- 8. HB 252 created a 50% non-refundable tax credit for qualified training expenses for vocational, technical, and trade professions.
- The corporate income tax apportionment formula is changed by SB 376 to a three-factor method
 that uses a double weight on sales. General Fund revenue is estimated to increase from this new
 corporate income tax formula equal to \$2.4 million in fiscal year 2022 and \$3.4 million in fiscal
 year 2023.
- 10. Other tax bills that were passed include: HB 191 (increase in the residential property tax credit for elderly), HB 340 (increases the cap on MEDIA film tax credits by \$2.0 million), HB 661 (lowers tax rate on certain oil production from stripper wells), and HB 629 (creates a nonrefundable tax credit for employers that hire a certain number of qualifying employees).
- 11. Montana voters passed Initiative 191 legalizing adult-use marijuana. HB 701 created the regulatory framework for marijuana regulation inclusive of a sales tax for adult-use (20%) and a reduction to the medical marijuana tax from 4% to 2%. As part of that regulatory and tax structure an additional opt-in/opt-out local (3%) sales tax was created.

FINANCIAL INFORMATION

Montana's Statewide Accounting, Budgeting, and Human Resource System (SABHRS) is a centrally maintained, fully computerized, double-entry accounting system. SABHRS records are system edited and budget checked before being posted.

Management of the State is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the State are protected from loss or misuse, and that adequate accounting data are compiled to allow for the preparation of financial statements in accordance with generally accepted accounting principles. In developing and evaluating the State's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance that the above objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and that the evaluation of costs and benefits requires estimates and judgments by management.

Budgetary restrictions are imposed through appropriations approved by the Legislature or established administratively as provided for by state law. Appropriations are required by state law for the General, State and Federal Special Revenue, and capital projects funds. The level of budgetary control is generally established by fund. SABHRS is designed to provide budgetary control by preventing spending in excess of legislative and administrative authority. SABHRS also provides for encumbrance accounting as a technique for accomplishing budgetary control.

General Fund Balance

For fiscal year 2022, the total fund balance of the General Fund was reported at approximately \$2.0 billion. Of this balance, \$9.5 million is non-spendable. The remaining balance is spendable with \$118.9 million committed, \$94.6 million assigned, and \$1.8 billion unassigned. The committed fund balance of \$118.9 million is the balance from the Budget Stabilization Reserve Fund, which is combined with the General Fund for financial statement presentation purposes. Of the assigned fund balance, \$19.6 million relates to outstanding encumbrances at the end of the fiscal year and \$75.0 million relates to an anticipated spend down for fiscal year 2023. The increase in ending fund balance, when compared to fiscal year 2021, was the result of higher revenue and lower expenditures. Further detail on the

breakdown of fund balance for the General Fund can be found in Note 14 – Major Purpose Presentation of this report.

For fiscal year 2021, the total fund balance of the General Fund was reported at approximately \$856.3 million. Of this balance, \$5.2 million was non-spendable. The remaining \$851.1 million was spendable with \$95.4 million assigned and \$641.5 million unassigned. The assigned fund balances was comprised of outstanding encumbrances and an anticipated spend down at the end of the fiscal year.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United State and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Montana for its annual comprehensive financial report for the fiscal year ended June 30, 2021. In order to be awarded a Certificate of Achievement, a government must publish an easily readable ad efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated service of the entire staff of the Statewide Accounting Bureau – Statewide Accounting and Financial Reporting Section (SAFRS), the cooperation of accounting personnel at the individual state agencies, and staff in the Governor's Office of Budget and Program Planning. We would like to express our appreciation to all personnel who participated in the preparation of this document. We would also like to thank the Legislature and all state agencies for their interest and support in planning and conducting the financial operations of the State in a professional, fiscally responsible, and progressive manner.

Respectfully submitted,

/s/ Jennifer Thompson

INDEPENDENT AUDITOR'S REPORT

The Legislative Audit Committee of the Montana State Legislature:

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Montana, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the state of Montana's basic financial statements as follows:

- Statement of Net Position
- Statement of Activities
- Balance Sheet-Governmental Funds
- Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position
- Statement of Revenues, Expenditures, and Changes in Fund Balances—Governmental Funds
- Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities
- Statement of Fund Net Position—Proprietary Funds
- Statement of Revenues, Expenses, and Changes in Fund Net Position—Proprietary Funds
- Statement of Cash Flows—Proprietary Funds
- Statement of Fiduciary Net Position—Fiduciary Funds
- Statement of Changes in Fiduciary Net Position—Fiduciary Funds.

In our opinion, based on our audit and the report of the other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Montana, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Montana State University (MSU) component units, the University of Montana (UM) component units, or the Montana Reinsurance Association

(MRA) which represent 16.78 percent, 30.46 percent, and 2.91 percent, respectively of the assets, net position, and revenues of the aggregate discretely presented component units as of June 30, 2022. Those statements were audited by other auditors, whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts for the component units of UM and MSU and the MRA component unit is based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the state of Montana and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of MSU's component units and UM's component units were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matters

As discussed in Note 2A with further details in Note 1M and a variety of other note disclosures, the state of Montana implemented the Governmental Accounting Standards Board (GASB) Statement No. 87, Leases. GASB 87 requires the state to recognize a lease liability and an intangible right-to-use lease asset for lessee activity and a lease receivable and deferred inflow of resources for lessor activity. Our opinions are not modified with respect to this matter.

As discussed in Note 2B, MRA is a new discretely presented component unit for the State. Condensed financial statements for MRA can be found at Note 18. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the state of Montana's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting

a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the state of Montana's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the
 aggregate, that raise substantial doubt about the state of Montana's ability to continue as a
 going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedule, the Pension Plan Information, the Other Postemployment Benefits Plan Information (OPEB), and the Risk Management Trend Information, and the related notes, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consists of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Montana's basic financial statements as a whole. The combining statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 22, 2023, on our consideration of the state of Montana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of Montana's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of Montana's internal control over financial reporting and compliance. It is included in the Legislative Auditor's separately issued report (22-01).

Respectfully submitted,

Is/ Cindy Jorgenson

Cindy Jorgenson, CPA Deputy Legislative Auditor Helena, MT

MANAGEMENT'S DISCUSSION AND ANALYSIS

INTRODUCTION

Management of the State of Montana (State) provides this *Management's Discussion and Analysis* of the State of Montana's basic financial statements included in the Annual Comprehensive Financial Report (ACFR). This is a narrative overview and analysis of the financial activities of the State of Montana for the fiscal year ended June 30, 2022. We encourage readers to consider this information in conjunction with the additional information that is furnished in the State's financial statements, which follow.

FINANCIAL HIGHLIGHTS

Government-wide

The assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at the end of fiscal year 2022 by \$12.7 billion compared with \$11.0 billion at the end of fiscal year 2021, representing a 15.1% increase in net position. Component units reported net position of \$2.51 billion at the end of fiscal year 2022 compared to \$2.47 billion at the end of fiscal year 2021, representing a 1.7% increase in net position. More detail is provided in the financial statement overview below.

Fund Level

As of the close of fiscal year 2022, the State's governmental funds reported combined ending fund balances of \$7.0 billion compared with \$5.7 billion at fiscal year 2021. This represents a \$1.3 billion (23.3%) increase in total fund balance. Of the 2022 balance, \$2.0 billion is not in spendable form, primarily as permanent fund principal. Thus, \$5.0 billion is available for spending. The fund balance in spendable form is segregated by constraint as follows: \$1.2 billion restricted, \$1.9 billion committed, \$95.3 million assigned, and \$1.7 billion unassigned. These changes are discussed in more detail in the financial analysis of the State's major funds presented below.

The State's business-type activity funds reported net position at the close of fiscal year 2022 in the amount of \$683.6 million compared with fiscal year 2021 net position of \$566.7 million. Of the 2022 business-type activity net position, \$21.3 million was reported as net investment in capital assets. Net position of \$662.3 million was in spendable form with \$18.3 million unrestricted and \$644.0 million restricted to expenditure for a specific purpose. This represents a \$117.0 million (21.5%) increase in spendable net position from the fiscal year 2021 balance of \$545.3 million. These changes are discussed in more detail in the financial analysis of the State's major funds presented below.

Long-term Debt

The State's total governmental activity bonds and notes payable for governmental activities decreased by \$8.1 million, from \$171.3 million in fiscal year 2021 to \$163.2 million, a (4.7)% decrease in fiscal year 2022. Further detail relating to the State's long-term debt is provided in notes to the financial statement's Note 11.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the State of Montana's basic financial statements. The State's basic financial statements include three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The report also contains additional required supplementary information, which includes budgetary schedules, pension and other post employment benefits plan information, and risk management trends. These components are described below:

Basic Financial Statements

The basic financial statements include two types of financial statements that present different views of the State – the government-wide financial statements and the fund financial statements. These financial statements also include the notes to the financial statements, which provide further detail and information related to the balances of the financial statements.

Government-wide Financial Statements

The government-wide financial statements provide a broad view of the State's operations in a manner similar to a private-sector business. The statements provide both short-term and long-term information about the State's financial position, which assists in assessing the State's economic condition at the end of the fiscal year. These are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. In other words, they follow methods that are similar to those used by most businesses, including all revenues and expenses connected with the fiscal year, even if cash involved has not been received or paid. The government-wide financial statements include two statements: The Statement of Net Position and the Statement of Activities, as defined below.

The Statement of Net Position presents all of the government's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Over time, increases or decreases in the State's net position may serve as a useful indicator of whether the financial position of the State is improving or deteriorating.

The Statement of Activities presents information related to the government's net position changes during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods. This statement also presents a comparison between direct expenses and program revenues for each function of the State.

Both of the above financial statements have separate sections for three different types of state activities. These three types of activities are as follows:

Governmental Activities – Activities mostly supported by taxes and intergovernmental revenues, including federal grants. Most services normally associated with state government fall into this category, including education (support for both K-12 public schools and higher education), general government, health and human services, natural resources, public safety, and transportation.

Business-type Activities – Functions normally intended to recover all or a significant portion of their costs through user fees and charges to external users of goods and services. The major business-type activities of the State include the Unemployment Insurance Fund and the Municipal Finance Programs, which assists Montana's small businesses and local governments in obtaining long-term, fixed-rate financing through private Montana lending institutions.

Discretely Presented Component Units – Operations for which the State has financial accountability, but have certain independent qualities as well. In order to be considered component units, these entities must be legally separate to the extent that they may sue, or be sued, in their own right. For the most part, these entities operate similarly to private sector businesses and the business-type activities described above. The State's component units consist of one financing authority, one housing board, one nonprofit independent public corporation, one nonprofit association, and two universities.

Fund Financial Statements - Reporting the State's Major Funds

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements focus on individual parts of the state government, reporting the State's operations in more detail than the government-wide statements. All of the funds can be divided into three categories. It is important to note that these fund categories use different accounting approaches and should be interpreted individually. The three categories of funds are as follows:

Governmental Funds – Most of the basic services provided by the State are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-

wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting. These statements provide a detailed short-term view of the State's finances that assists in determining whether there will be adequate financial resources available to meet the current needs of the State.

The State has five governmental funds that are considered major funds for presentation purposes. Each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The State's five major governmental funds are the General Fund, the State Special Revenue Fund, the Federal Special Revenue Fund, the Coal Severance Tax Fund, and the Land Grant Fund.

Proprietary Funds – When the State charges customers for the service it provides, whether to outside customers or to other agencies within the State, these services are generally reported in proprietary funds. Like the government-wide statements, proprietary fund statements utilize full accrual accounting, the same method used by private sector businesses. Enterprise funds report activities that provide supplies and services to the general public. Whereas internal service funds report activities that provide supplies and services to the State's other programs and activities.

Fiduciary Funds – Resources held for the benefit of parties outside state government are accounted for in fiduciary funds. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the State's own programs. Fiduciary fund statements use the full accrual basis of accounting.

Notes to the Financial Statements

The *notes to the financial statements* provide additional information that is essential for a full understanding of the *government-wide* and the *fund financial statements*. The *notes to the financial statements* can be found immediately following the fiduciary fund financial statements.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information. This section contains a budgetary comparison schedule, which includes the reconciliation between the statutory fund balance for budgetary purposes and the fund balance for the General Fund and major special revenue funds as presented in the governmental *fund financial statements*. Required supplementary information also includes pension and other post employment benefits plan information, as well as additional risk management trend data.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Montana's overall financial position increased from the last fiscal year, as reflected in the \$1.7 billion increase (15.1%) in net position. This improvement resulted from the continued growth, particularly in tax revenue. However, growth is not expected to persevere in fiscal year 2023, as the associated financial and economical affects of the pandemic continue to be realized.

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The State's combined net position (government and business-type activities) totaled \$12.7 billion at the end of fiscal year 2022. Net position of both governmental and business-type activities increased by \$1.5 billion (14.8%) and increased by \$116.9 million (20.6%), respectively. These changes are explained in detail in the Financial Analysis of the State's Major Funds section.

A portion of the State's net position reflects its investment in capital assets such as land, buildings, equipment, right to use lease assets, and infrastructure (roads, bridges, and other immovable assets) less any related debt used to acquire those assets that is still outstanding. The State uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although

the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the State's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net position.

At the end of the current fiscal year, the State reported positive balances in all three categories of Net position, both for the primary government as a whole, and for its separate governmental and business-type activities.

Business-type Activities

The following chart depicts revenues of the business-type activities for the fiscal year:

The following chart depicts expenses of the business-type activities for the fiscal year:

FINANCIAL ANALYSIS OF THE STATE'S MAJOR FUNDS

As the State completed the year, its governmental funds reported fund balances of \$7.0 billion. Of this total, \$5.0 billion (71.7%) constitutes spendable fund balance and \$2.0 billion (28.3%) is classified as non-spendable. The analysis of the following major funds, providing the majority of the fund balance for the government, follows.

General Fund Revenues and Expenditures

The General Fund is the chief operating fund of the State. For fiscal year 2022, the total fund balance of the General Fund was reported at approximately \$2.0 billion. Of this balance, \$9.5 million is non-spendable. The remaining balance is spendable with \$118.9 million committed, \$94.6 million assigned, and \$1.8 billion unassigned. This spendable fund balance of the General Fund represents 39.7% of the \$5.0 billion spendable governmental fund balances for all governmental funds. Of the assigned fund balance, \$75.0 million pertains to the projected general fund spend down of fund balance in fiscal year 2023 and \$19.6 million relates to outstanding encumbrances at the end of the fiscal year. The committed fund balance of \$118.9 million relates to the balance of the Budget Stabilization Reserve Fund, which is combined with the General Fund for financial statement presentation. Further detail on the breakdown of fund balance for the General Fund is provided in Note 14 – Major Purpose Presentation.

Total fund balance increased by \$1.1 billion when compared to the previously reported fund balance of \$856.3 million. Changes in both expenditures and revenues are discussed in detail below. The 2021 legislative session projected \$357.1 million of unassigned fund balance for fiscal year 2022, without regard to a fund balance spend down. The difference was primarily the result of a larger than anticipated beginning fund balance, larger than anticipated revenues, and smaller than anticipated expenditures.

General Fund Revenues – Total General Fund revenues were \$3.7 billion for fiscal year 2022 (higher than legislative estimation), a 28.6% increase from the \$2.8 billion reported in 2021 (which were higher than legislative estimation). Fiscal year 2022 tax revenue increased by 30.2% in total over 2021, with corporate income tax collections up 11.1% and individual income tax collections increased by 37.2%. The large tax revenue gains were the result of the strong economic conditions of the state coming out of the COVID-19 restrictions. In addition, the large federal spending provisions implemented during fiscal year 2021 increased disposable incomes for individuals, state governments, and businesses. Other noted increases in revenues included licenses/permits and charges for services/fines/forfeits/settlements.

<u>General Fund Expenditures</u> – Total General Fund expenditures for fiscal year 2022 increased by \$49.3 million (2.1%). This increase in expenditures occurred in the health and human services, education, natural resource, and public safety functions; and the decrease in expenditures occurred in the general government and transportation function as follows:

- General government expenditures decreased by \$2.2 million (0.6%)
- Transportation expenditures decreased by \$173.0 thousand
- Health and human services expenditures increased by \$13.3 million (2.7%)
- Education expenditures increased by \$20.8 million (1.9%)
- Natural resources expenditure increased by \$295.0 thousand (0.8%)
- Public safety expenditures increased by \$10.8 million (3.5%)

The expenditures in the education function increased partially due to OPI K-12 Base Aid increase.

The General Fund's actual revenues and expenditures in comparison to budgeted revenues and expenditures is provided in more depth on the Budgetary Comparison Schedule within the Required Supplementary Information section of this report. The same level of detail used to report the actual revenues and expenditures is not readily available for all budgetary revenues and expenditures, which may cause some variances.

General Fund Expenditure Budget Reversions

Fund balances are not reserved for reverted appropriations. For fiscal year 2022, General Fund appropriations that reverted to 2023 were \$14.2 million, detailed as follows:

- The Department of Public Health and Human Services had unspent appropriations of \$2.4 million related to the costs reimbursed by federal funding associated with COVID-19 and other operational costs.
- The Department of Corrections had unspent appropriations of \$1.0 million related to restricted funds as a contingency for the county jail bed holds, information technology and for an adjustment for worker's comp reverted back to the general fund.
- The Judicial Branch had unspent appropriations of \$3.4 million related to vacancy savings, operational costs, and benefits and claims.
- The Department of Revenue had unspent appropriations of \$2.2 million related to funds available to local governing bodies pursuant to Section 15-1-402 (6)(d), MCA, regarding protested property taxes, Section 15-1-120, MCA, regarding entitlement share payments, and other operational costs.
- The Office of the Governor had unspent appropriations of \$1.1 million related to vacancy savings and operational cost savings.
- The Department of Natural Resources and Conservation had unspent appropriations of \$1.2 million related to unspent operation costs associated with vacancy savings and personal services costs.
- The remaining unspent appropriation of \$2.9 million was attributable to miscellaneous reversions across other agencies.

State Special Revenue Fund

The fund balance of the State Special Revenue Fund increased by \$92.7 million to \$2.1 billion. Revenues increased by \$88.7 million (7.9%) and expenditures increased \$116.8 million (9.8%), for fiscal year 2022. The largest increases in revenues are attributable to an increase in natural resource and other taxes, and licenses and permits. The largest increases in expenditures are attributable to general government and natural resources expenditures. Other financing sources increases included increased energy conservation loans, and more excess lands were sold by Montana Department of Transportation due to legislative action making it easier to make purchases through an online portal. Other financing sources, such as bond issued, decreased due to a decrease in new bonds issued. Other financing uses, such as transfers out of the State Special Revenue Fund to other governmental funds decreased. The effect of transfers into the State Special Revenue Fund from other governmental funds resulted in an increase in fund balance.

Federal Special Revenue Fund

The fund balance of the Federal Special Revenue Fund decreased by \$14.0 million (123.3%) to the balance of negative \$25.3 million. Revenues and expenditures decreased by \$822.7 million (17.1%) and \$611.8 million (13.4%) respectively, for the fiscal year 2022. Revenue decreases are attributable to decreases in federal program revenue, including COVID-19 related federal funding. Expenditure decreases are attributable to decreases in general government, health and human services, public safety, transportation, and natural resources related expenditures. The education related expenditure increases are attributable to COVID-19.

Coal Severance Tax Permanent Fund

The fund balance of the Coal Severance Tax Permanent Fund decreased by \$12.8 million (1.0%) to \$1.2 billion. Revenue decreased by \$23.3 million (58.4%) to \$16.6 million, primarily due to a decrease of investment earnings.

Land Grant Permanent Fund

The fund balance of the Land Grant Permanent Fund increased by \$2.3 million (0.3%) to \$873.9 million. Revenue decreased by \$22.9 million to a total of \$70.7 million, and the investment earnings were attributable to the decrease. Primarily, income generated by the State's trust lands resulted in an increase in fund balance.

The State's proprietary funds financial statements provided the same type of information founded in the government-wide financial statements, but in more detail. As the State completed the year, the enterprise funds reported fund balances of \$683.6 million. Of this total, \$662.3 million (96.9%) constitutes spendable

net position and \$21.3 million (3.1%) is classified as net investment in capital assets. The analysis of the following major enterprise funds, providing the majority of the net position for the business-type activities, follows.

Unemployment Insurance Enterprise Fund

Net position restricted for unemployment compensation increased by \$123.0 million (30.7%). The increase in net position is attributable to lower unemployment claims and CARES Act funding from the Governor's Office to help maintain trust fund balances in an effort to keep rates from raising and placing an undue burden on employers in fiscal year 2022.

Municipal Finance Programs Fund

Net position increased by 5.9% to \$5.2 million in fiscal year 2022. Financing income revenue increased \$8.0 thousand, and investment earnings increased \$13.0 thousand, while expenses from interest expense decreased \$432.0 thousand. Overall revenues and expenditures decreased 1.6% and 46.8%, respectively, which resulted in an increase of \$292.0 thousand to net position.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The State's investment in capital assets for its governmental and business-type activities, as of June 30, 2022, amounted to \$10.0 billion, with related accumulated depreciation of \$2.6 billion, leaving a net book value of \$7.4 billion. This investment in capital assets includes land, buildings, improvements, equipment, right to use lease assets, infrastructure, intangible assets, and construction in progress. Infrastructure assets are items that are normally immovable and of value only to the State, such as roads, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items.

The total increase in the State's investment in capital assets for the current fiscal year was \$292.7 million or 4.1% in terms of net book value. Most increases in capital expenditures were seen in construction, or reconstruction, of roads and bridges. Additional information relating to the State's capital assets can be found in Note 5 of the notes to the financial statements.

Debt Administration

Montana continues to receive excellent general obligation bond ratings from Moody's Investor Service (Aa1), Standard and Poor's Corporation (AA), and Fitch Ratings (AA+), which remain unchanged from 2021.

State debt may be authorized either by a two-thirds vote of the members of each house of the Legislature or by a favorable vote of a majority of the State's electors voting thereon. There is no constitutional limit on the amount of debt that may be incurred by the State. The Montana Constitution does, however, prohibit the incurring of debt to cover deficits caused by appropriations exceeding anticipated revenue.

The State of Montana's general obligation debt increased from \$127.6 million at June 30, 2021, to \$130.8 million at June 30, 2022. There is cash available, of \$8.2 million at the end of fiscal year 2022, in debt service funds to service general obligation debt.

The below table contains the ratio of general obligation debt and total State debt to personal income and to the amount of debt per capita:

| | | Amount (in thousands) | Percentage of Personal Income (1) | State Debt Per Capita ⁽²⁾ | |
|-------------------------|----|-----------------------|-----------------------------------|-----------------------------------------|--|
| General obligation debt | \$ | 130,772 | 0.21% \$ | 118 | |
| Total State debt (3) | \$ | 394,833 | 0.60% \$ | 345 | |

Based on personal income for calendar year 2021.

⁽²⁾ Based on estimated 2021 Montana population.

⁽³⁾ Based on total of general obligation bonds, special revenue bonds, notes payable, and lease/financed purchase payable for the percentage and state debt per capita.

More detailed information regarding the State's long-term obligations is provided in Note 11 of the notes to the financial statements and in the statistical tables.

ECONOMIC CONDITION AND OUTLOOK

The State was allocated \$2.0 billion from the American Rescue Plan Act (ARPA) during fiscal year 2021. The legislature has appropriated approximately \$1.8 billion and enacted laws to allow appropriations to continue into the 2025 bienniums. The programs designated by the legislature for ARPA funding are infrastructure, communications, broadband, economic transformation and stabilization, workforce development, housing, and health. ARPA funds spent before June 30, 2022, totaled \$287.0 million. Since June 30, 2022, another \$203.0 million has been spent. The State plans to spend all funds received by June 30, 2026.

Montana's primary economic base remains concentrated in service-providing industries. By share of real gross state product (GSP), the financial activities sector (18%), the trade, transportation, and utilities sector (18%), and the education and health services sector (11%) were Montana's largest in 2021. Manufacturing in Montana accounted for 6.5% of 2021 real GSP and is the state's largest goods-providing industry. Per the 2022 Labor Day Report issued by the Montana Department of Labor and Industry, Montana is experiencing a booming economy, with more Montanans working than ever. Businesses have continued to thrive, grow, and increase production in the face of worker shortages by increasing productivity and raising wages to attract workers. Montana's average annual wage recorded nominal growth of 5.9% in 2021, ranking the 10th fastest among states. Montana's unemployment rate dropped quickly after the pandemic recession, reaching a historic low of 2.3% in March and April of 2022 while the national rate stood at 3.6%. Rapid economic expansion has brought prosperity, but fast growth creates additional pressure on an already constrained labor market. Tight labor markets will continue to challenge Montana's economic growth.

Montana had an estimated 1,106,227 population as of July 1, 2021. The Montana labor market had total nonfarm workers of 514,400 in August 2022 compared to 481,800 in August 2021. A more in-depth analysis of the State's overall financial position can be found in the transmittal letter of this report.

The Montana Constitution, Article VIII, Section 15, states that public retirement systems shall be funded on an actuarially sound basis. Public pension plans are considered actuarially sound if the unfunded accrued actuarial liability amortization period is within 30 years. As of June 30, 2022, the Public Employees Retirement System-Defined Benefit Retirement Plan (PERS-DBRP), the Highway Patrol Officers' Retirement System (HPORS), the Sheriffs' Retirement System (SRS), and the Game Warden & Peace Officers' Retirement System (GWPORS) were not in compliance and did not amortize within 30 years. The unfunded liabilities in the other state retirement systems amortized in 30 years or less as of the fiscal year ended June 30, 2022.

The actuarial condition of these retirement plans is disclosed in greater detail in Note 6 of the financial statements. The unfunded actuarial liability of these plans is long-term in nature and does not translate into an inability of the plans to meet their current obligations in the near future.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State of Montana's finances for all of Montana's citizens, taxpayers, customers, investors, and creditors. The financial report seeks to demonstrate the State's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the State of Montana, Statewide Accounting Bureau, Room 255 Mitchell Building, PO Box 200102, Helena, MT 59620.

Governmental Fund Financial Statements

General Fund — the principal operating fund of the State. It accounts for all governmental financial resources, except those accounted for in another fund.

State Special Revenue Fund — accounts for all activities funded from state sources, which are restricted either legally or administratively for particular costs of an agency, program, or function.

Federal Special Revenue Fund — accounts for all activities funded from federal sources, which are used in the operation of the state government.

Coal Severance Tax Fund — created by Article IX, Section 5, of the Montana Constitution and administered by the Department of Revenue. This fund receives 50% of all coal tax collections. The principal can by expended only upon affirmation vote by three-fourths of each house of the Legislature.

Land Grant Fund — used by the Department of Natural Resources and Conservation to account for lands granted to the State for support of public schools and state institutions.

Nonmajor Governmental Funds — presented in more detail, by fund type, within the Supplementary Information section.

(amounts expressed in thousands)

| Total fund balances - governmental funds | \$ | 6,988,929 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|-------------|
| Amounts reported for governmental activities in the Statement of Net Position are different due to: | | |
| Capital assets used in governmental activities are not current financial resources and therefore not reported in the governmental funds (Note 5): | | |
| Depreciable capital assets and infrastructure, net | \$ 4,862,426 | |
| Land and nondepreciable capital assets | 2,493,303 | 7,355,729 |
| Deferred outflows of resources represent a consumption of net assets that will be reported as an outflow of resources in a future period and therefore are not reported in the governmental funds. | | 763,888 |
| Other assets not available in the current period and therefore are not reported in the governmental funds: | | |
| Net pension asset | | 59,202 |
| Long-term receivables | | (303) |
| Internal service funds are used by management to charge the costs of certain activities, such as insurance and central computer services, to individual governmental funds. The assets and liabilities of the internal service funds are included in the governmental activities in the Statement of Net Position, excluding internal service funds' capital assets, deferred outflows of resources, deferred inflows of resources and long-term liabilities reported in specific areas. | | 335,018 |
| Other liabilities that are not due and payable in the current period and are not reported in the governmental funds. | | (16,598) |
| A portion of deferred inflows of resources represents an acquisition of net assets that will be recognized as an inflow of resources in a future period, which differs than that reported in the governmental funds. | | (790,850) |
| Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported in the governmental funds (Note 11): | | |
| Other long-term liabilities | (693,238) | |
| Net pension liability | (1,915,996) | |
| Total OPEB liability | (118,518) | (2,727,752) |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE FISCAL YEAR ENDED JUNE 30, 2022

(amounts expressed in thousands)

| Net change in fund balances - total governmental funds | | \$ 1,353,833 |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------------|
| Amounts reported for governmental activities in the Statement of Activities are different due to: | | |
| Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, these costs are allocated as depreciation expense over the useful life of the capital asset. Capital outlays exceeded depreciation expense in the current year by the following amount (Note 5): | | |
| Capital outlay | \$ 493,477 | |
| Depreciation expense and amortization | (291,100) | 202,377 |
| Miscellaneous transactions involving capital assets such as sales (gain/loss) and donations are reported in the Statement of Activities, but only proceeds from sales are reported in the governmental funds. | | 12,187 |
| Revenues reported in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds. | | 33,119 |
| Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. | | (16,035) |
| Internal service funds are used by management to charge the costs of certain activities, such as insurance and central computer services, to individual governmental funds. Internal service funds are reported separately from governmental funds in the fund financial statements. In the government-wide statements, internal service funds are included with governmental activities. | | 84,383 |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. Some expenditures reported in the governmental funds either increase or decrease items reported in the Statement of Net Position. | | (110,633) |
| Change in net position - governmental activities | ; | \$ 1,559,231 |

Proprietary Fund Financial Statements

Unemployment Insurance Fund — accounts for employer contributions deposited with the Secretary of the Treasury of the United States to the credit of the State's unemployment trust fund and federal COVID-19 relief funds. Unemployment benefits are paid from this fund to eligible recipients.

Municipal Finance Programs Fund — accounts for the programs created under the Municipal Finance Consolidation Act and the Economic Development Act, both managed by the Montana Board of Investments. These are primarily revolving loan programs that provides variable low interest rate loans to eligible Montana State agencies, universities, and local governments for a variety of projects statutorily defined. The funding for the revolving loans is from the issuance of put bonds.

Nonmajor Enterprise Funds — account for operations that provide goods or services to the general public in a manner similar to private business enterprises. These funds are presented in more detail within the Supplementary Information section.

Governmental Activities - Internal Service Funds — account for operations that provide goods or services to other agencies or programs of state government on a cost-reimbursement basis. These funds are presented in more detail within the Supplementary Information section.

Fiduciary Fund Financial Statements

Pension (and Other Employee Benefit) Trust Funds — account for provided retirement, disability, death, and lump-sum payments to public employee retirement system members, in a trustee capacity.

Private-Purpose Trust Funds — account for assets held by the State, in a trustee capacity and are not required to be reported in the Pension (and Other Employee Benefit) Trust Funds or Investment Trust Funds, where both the principal and earnings benefit individuals, private organizations, or other governments.

Investment Trust Funds — account for the receipt of monies held by Montana Board of Investments for investment in external investment pools, and the distribution of related investment earnings, for local government agencies, in a trustee capacity.

Custodial Funds — account for assets held by the State as an agent that is not in a trust or equivalent arrangement, for individuals, private organizations, and other governments.

Individual funds are presented in more detail, by fund type, within the Supplementary Information section.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements for the State of Montana (State) have been prepared in accordance with Generally Accepted Accounting Principles (GAAP), as prescribed by the Governmental Accounting Standards Board (GASB).

A. Reporting Entity

For financial reporting purposes, the State includes funds that comprise the primary government and its component units. The component units are entities that the State is financially accountable for, or whose relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. GASB has set forth criteria to be considered in determining financial accountability. This criteria includes appointing a voting majority of an organization's governing body, and (1) the ability of the State to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the State.

Discretely Presented Component Units

These component units are entities that are legally separate from the State because they possess corporate powers, but are financially accountable to the State, or whose relationships with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete. The condensed financial statements, presented in Note 18, include the financial data of the entities listed below.

Complete financial statements for each of the individual discretely presented component units, which are separately issued and audited, may be obtained at the following addresses:

Montana Board of Housing 301 South Park, Room 240 PO Box 200528 Helena, MT 59620-0528

Facility Finance Authority 2401 Colonial Drive, 3rd Floor PO Box 200506 Helena, MT 59620-0506

Montana Reinsurance Association Montana Commissioner of Securities and Insurance 840 Helena Avenue Helena, MT 59601 Montana State Fund 855 Front Street PO Box 4759 Helena, MT 59604-4759

Universities and Colleges Commissioner of Higher Education 560 North Park Ave, 4th Floor PO Box 203201 Helena, MT 59620-3201

Montana Board of Housing (MBOH) – MBOH, which is a legally separate entity, is governed by a quasi-judicial board appointed by the Governor with the advice and consent of the Senate. The State of Montana has the ability to modify or approve: the budget, the rate or fee changes affecting revenues, and the ability to appoint, hire, reassign, or dismiss those responsible for the day-to-day operations of MBOH. The board was created in 1975 to facilitate the availability of safe and affordable housing to persons and families of lower-income. MBOH issues negotiable notes and bonds to fulfill its purposes. The total amount of notes and bonds outstanding at any time may not exceed \$1.5 billion. The discount price of bonds sold, not the face amount of the bonds, counts against this statutory ceiling. Neither the faith and credit nor taxing power of the State of Montana may be pledged for the amounts so issued. MBOH is attached to the Department of Commerce for administrative purposes only. MBOH is audited annually by the State's Legislative Audit Division.

Facility Finance Authority (FFA) – FFA, which is a legally separate entity, is governed by a quasi-judicial board appointed by the Governor with the advice and consent of the Senate. The State of Montana has the ability to modify or approve: the budget, the rate or fee changes affecting revenues, and the ability to appoint, hire, reassign, or dismiss those responsible for the day-to-day operations of FFA. FFA assists eligible, nonprofit Montana health care and other community-based service providers to obtain and maintain access to the broadest range of low-cost capital financing as possible. FFA issues revenue bonds to fulfill its purposes. Neither the faith and credit or taxing power of the State of Montana may be pledged for the amounts so issued. FFA is also the administrator for Montana's Commercial Property Assessed Capital Enhancement Program (C-PACE) which provides Montana businesses with access to private capital to finance energy and water efficiency and renewable energy improvements. FFA is attached to the Department of Commerce for administrative purposes only. Individual financial reports are issued every two years and are audited by the State's Legislative Audit Division.

Montana State Fund (MSF) – MSF is a nonprofit, independent public corporation established under Title 39, Chapter 71 of the Montana Code Annotated (MCA). MSF provides Montana employers with an option for workers' compensation and occupational disease insurance and guarantees available coverage for all employers in Montana. MSF is governed by a seven-member Board of Directors appointed by the Governor with the advice and consent of the Senate. This Board has full power, authority, and jurisdiction in the administration of MSF. MSF's results are included in the State's Annual Comprehensive Financial Report because of the significance of MSF's financial relationship with the State. MSF's board is allocated to the Department of Administration for administrative purposes only. MSF is reported on a calendar year basis and is audited annually by the State's Legislative Audit Division and is also regulated by the Montana State Auditor's Office as an authorized insurer that is subject to the provisions of Title 33, Montana Insurance Code.

MSF functions as an autonomous insurance entity supported solely from its own revenues. All assets, debts, and obligations of MSF are separate and distinct from assets, debts, and obligations of the State of Montana. If MSF is dissolved by an act of law, the assets held by MSF are subject to the disposition provided by the Legislature enacting the dissolution with due regard given to obligations incurred and existing (Section 39-71-2322, MCA).

MSF administers the claims of Montana State Fund and State of Montana (Old Fund), including determining who a claimant is; what, if any, claims will be paid; and the amount of claims allowed to be paid. Old Fund covers workers' compensation claims that were incurred before July 1, 1990, and is reported within the governmental activities of the primary government, on the government-wide financial statements.

<u>Universities and Colleges</u> – The Montana Constitution, Article X, Section 9, grants governance authority over the Montana University System (MUS) to the Board of Regents (Board), with seven members appointed by the Governor and confirmed by the Senate. All state funds appropriated by the Legislature to the Board for the support of the MUS are channeled through the Office of the Commissioner of Higher Education (OCHE). The Constitution charges the Board with hiring a Commissioner of Higher Education who serves as its executive staff. OCHE is the state-level administrative organization of the MUS.

The Board has responsibility for the following institutions: Montana State University - Bozeman and the units under it including Montana State University - Billings, Montana State University - Northern, and Great Falls College Montana State University; and University of Montana - Missoula and the units under it including Montana Technological University, University of Montana - Western, and Helena College University of Montana. All units are funded through state appropriations, tuition, federal grants, and private donations and grants. The universities are audited annually by the State's Legislative Audit Division.

Though the following organizations perform functions related to the MUS, they are not considered part of Montana's reporting entity: (1) Community Colleges which are considered part of local units of government; (2) the Montana Higher Education Student Assistance Corporation, a private nonprofit

corporation; and (3) the Student Assistance Foundation of Montana, a private nonprofit corporation. Entities such as local school districts and local authorities of various kinds are considered part of local units of government and have not been included. The state and federal support of local public education systems is reported in the General Fund, the State Special Revenue Fund, and the Federal Special Revenue Fund.

Montana Reinsurance Association (MRA) – In April 2019, the State of Montana enacted the Montana Reinsurance Association Act (Act) establishing MRA as a nonprofit, legal entity and creating a reinsurance program to stabilize the individual health insurance market. The Act authorized the State to apply for a State Innovation Waiver under Section 1332 of the Patient Protection and Affordable Care Act (ACA). The Act is established under Title 33, Chapter 22, Part 13 of the Montana Code Annotated (MCA).

On June 19, 2019, the State applied for an Innovation Waiver under Section 1332 seeking to implement a reinsurance program. On August 16, 2019, the United States Departments of Health and Human Services and Treasury approved Montana's State Innovation Waiver, effective from January 1, 2020, through December 31, 2024.

The Reinsurance Program is funded through federal pass-through funding (awarded on an annual basis) and annual association member assessments (1.2% of a member insurer's total premium volume covering Montana residents from the prior calendar year, as defined in Section 33-22-1313, MCA).

MRA is governed by a five-member board consisting of three directors, one each from the eligible health insurers with the largest enrollment in the individual market, one insurer director appointed by the Commissioner of Insurance, and one director appointed by the Governor.

MRA's financial results are included in the State's Annual Comprehensive Financial Report because of the significance of MRA's financial relationship with the State. The Commissioner of Insurance is responsible for overseeing the activities of the MRA and the board. MRA reports on a calendar year basis, must be audited by an independent certified public accountant annually, and may be audited by the State's Legislative Audit Division.

Fiduciary Fund Component Units

Complete financial statements for each of the individual fiduciary fund component units may be obtained at the following addresses:

Teachers' Retirement System 100 North Park Avenue, Suite 110 PO Box 200139 Helena, MT 59620-0139 Public Employees' Retirement Board 100 North Park Avenue, Suite 200 PO Box 200131 Helena, MT 59620-0131

<u>Teachers' Retirement System</u> (Pension Trust Fund) – This retirement plan is a legally separate entity with a board appointed by the Governor. Its purpose is to provide retirement, disability, death, and lump-sum payments to benefit recipients of Montana's public teaching profession. The plan is funded from employer and employee contributions, investment earnings, and the State's General Fund. The benefit payments and administrative costs of the Teachers' Retirement System are paid from the same funding sources. The system is audited annually by the State's Legislative Audit Division. Further detail related to the Teachers' Retirement System is provided in Note 6.

<u>Public Employees' Retirement Board</u> (Pension and Other Employee Benefit Trust Funds) – The Public Employees' Retirement Board (PERB) is appointed by the Governor and administers nine retirement plans for the purpose of providing retirement, disability, death, and lump-sum payments to plan members. These legally separate plans include the Public Employees' Retirement Plan – Defined Benefit and Defined Contribution and the associated education funds; the Judges'; the Highway Patrol Officers'; the Sheriffs'; the Game Wardens' and Peace Officers'; the Municipal Police Officers'; the Firefighters' Unified Retirement Systems; and the Volunteer Firefighters' Compensation Act retirement plans. The board also administers one Other Post-Employment Benefit (PERS-DCRP Disability OPEB) disability plan on behalf

of Public Employees' Retirement Plan-Defined Contribution members, and one other employee benefit plan (457(b) Plan). The board is audited annually by the State's Legislative Audit Division. Further detail related to PERB is provided in Note 6 and its OPEB plan information in Section F of Note 7.

B. Government-wide and Fund Financial Statements

The government-wide financial statements, Statement of Net Position and Statement of Activities, report information on all of the non-fiduciary activities of the State of Montana and its component units. For the most part, the impact of interfund activity has been removed from these statements. Governmental activities, which are normally supported by fees, taxes, and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the State of Montana is reported separately from certain legally separate component units for which the State is financially accountable.

The Statement of Activities demonstrates the degree to which program revenues offset the direct expenses of a function. Direct expenses are those that are clearly identifiable with a specific function. Certain indirect costs are included in the program expense reported for the individual functions and activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and (2) grants and contributions restricted to meeting the operational or capital requirements of a particular function. Taxes and other revenues not meeting the definition of program revenues are reported as general revenues. The State does not allocate indirect expenses to functions in the Statement of Activities.

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements. Fiduciary fund statements are reported only in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide, Proprietary, and Fiduciary Fund Financial Statements

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are reported when earned; expenses are recorded when a liability is incurred regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all of the eligibility requirements imposed by the provider are met.

As a general rule, material interfund revenues and expenses have been eliminated from the government-wide financial statements. These have not been eliminated where their elimination would distort the direct costs and program revenues of the functions involved.

Governmental Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are realizable, measurable, earned, and available. Revenue is considered realizable when it is probable the amount will be collected. Revenue is considered measurable and realizable if the precise amount is known because the transaction is completed, or if there is enough information to provide a reasonable estimate of the net realizable revenue to be received. Revenue is considered to have been earned when the exchange of goods or services has taken place. Revenue is considered to be available if it is collectible within the current period or soon enough thereafter, to pay liabilities of the current period. For this purpose, the State considers revenue available if it is expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures relating to compensated absences, claims, and judgments are recorded only when payment is due.

The major revenue sources considered susceptible to accrual are licenses and permits, natural resource taxes, individual income taxes, corporate income taxes, property taxes, fuel taxes, and certain federal revenues (reimbursable grants and U.S. mineral royalties). All other revenue is considered to be measurable and available when the cash is received.

Fund Financial Statements

The State uses funds to report on its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

The financial activities of the State of Montana are classified into fund categories as described below:

Governmental Funds

<u>General Fund</u> – To account for all governmental financial resources, except those required to be accounted for in another fund.

<u>Special Revenue Funds</u> — To account for the proceeds of specific revenue sources restricted to expenditure for specified purposes other than major capital projects. (1) The State Special Revenue Fund accounts for activities funded from state resources used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Several funds are defined in statute as Permanent Funds, however per GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54), these funds should be reported within the State Special Revenue Fund. The respective effect on fund balance is approximately a \$94.6 million increase. One specific fund is defined in statute as a Federal Special Revenue Fund; however, per GASB 54, this fund should be reported within the State Special Revenue Fund. The respective effect on fund balance is approximately a \$27.1 million increase. (2) The Federal Special Revenue Fund accounts for activities funded from federal sources used in the operation of state government.

<u>Debt Service Funds</u> – To account for resources accumulated for payment of principal and interest on general long-term obligation debt.

<u>Capital Projects Funds</u> – To account for resources used for the acquisition or construction of major capital facilities, other than those financed by proprietary or trust funds.

<u>Permanent Funds</u> – To account for resources that are permanently restricted to the extent that only earnings, not principal, may be used to support the government's programs. Several funds are defined in statute as Permanent Funds, however per GASB 54 these funds should be reported within the State Special Revenue Fund as noted above.

Proprietary Funds

<u>Enterprise Funds</u> – To account for operations: (1) financed and operated similar to private business enterprises, where the intent of the Legislature is to finance or recover costs primarily through user charges; (2) where the Legislature has decided periodic determination of revenue earned, expenses incurred, or net income is appropriate; (3) where the activity is financed solely by a pledge of the net revenues from fees and charges of the activity; or (4) when laws or regulations require that the activities' costs of providing services, including capital costs, be recovered with fees and charges rather than with taxes or similar revenues. The primary focus of fee revenues charged by enterprise funds is users outside of the primary government. One specific fund is defined in statute as an Enterprise Fund, however, per GASB 34, this fund should be reported within Internal Service Funds. The respective effect on net position is approximately a \$6.0 million increase.

<u>Internal Service Funds</u> – To account for the financing of goods and services provided by one department or agency to other departments, agencies, or other governmental entities on a cost-reimbursement basis.

The State of Montana reports two employee group benefits funds. The MUS Group Insurance Fund primarily charges its fees to Montana State University and the University of Montana. The universities are reported as discretely presented component units, which the State considers to be external users, and as such, reports the MUS Group Insurance Fund as an enterprise fund. The Employee Group Benefits Fund charges its fees to funds of the primary government, and as such, is reported as an internal service fund.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, or other governments. These assets cannot be used to support the government's own programs.

<u>Pension (and Other Employee Benefit) Trust Funds</u> – To account for resources that are required to be held in trust for the members and beneficiaries of the State's defined benefit retirement plans, defined contribution retirement plans, other employee benefit plans, and other post-employment benefit plan. Plan members receive retirement, disability, death, and lump-sum payments from the fund. Further detail related to the individual plans is provided in Note 6 and Section F of Note 7.

<u>Private-Purpose Trust Funds</u> –To account for assets held by the State in a trustee capacity, where both the principal and earnings benefit individuals, private organizations, or other governments. For example, unliquidated security bonds held on deposit from self-insured employers.

<u>Investment Trust Fund</u> – To account for the receipt of monies and the distribution of related investment earnings to local government agencies by the Montana Board of Investments for investment in the Short Term Investment Pool (STIP) and Trust Fund Investment Pool (TFIP).

<u>Custodial Funds</u> – To account for transactions related to assets held by the State as an agent for individuals, private organizations, and other governments. For example, monies belonging to one parent submitted by another, as is the case with child support payments.

Major Governmental Funds

The General Fund is the State's primary operating fund, as previously defined.

The <u>State Special Revenue Fund</u> accounts for activities funded from state sources, which are restricted either legally or administratively for particular costs of an agency, program, or function.

The <u>Federal Special Revenue Fund</u> accounts for activities funded from federal sources used in the operation of state government.

The <u>Coal Severance Tax Fund</u>, created by Article IX, Section 5 of the Montana State Constitution, receives 50% of all coal tax collections. The principal in this fund can be expended only upon an affirmative vote of three-fourths of each house of the Legislature.

The <u>Land Grant Permanent Fund</u> accounts for lands granted to the State for support of public schools and state institutions.

Major Enterprise Funds

The <u>Unemployment Insurance Fund</u> accounts for employer contributions deposited with the Secretary of the Treasury of the United States to the credit of the State's unemployment trust fund. Unemployment benefits are paid from this fund to eligible recipients. Due to unprecedented claim costs during the pandemic, additional federal contributions were made in fiscal year 2022 to help keep employer unemployment insurance contribution rates stable.

The <u>Board of Investments (BOI) Municipal Finance Programs Fund</u> accounts for the programs created under the Municipal Finance Consolidation Act (MFCA) and the Economic Development Act. Primarily, this involves a MFCA revolving loan program that provides variable low interest rate loans to eligible Montana State agencies, universities, and local governments for a variety of projects statutorily defined.

The funding for the revolving loan program is from the issuance of put bonds. The MFCA program also provides local government entities access to tax-exempt funds through the issuance of conduit (no-commitment) debt. Separately issued financial statements may be obtained by contacting the Montana Board of Investments, 2401 Colonial Drive, 3rd Floor, PO Box 200126, Helena, MT 59620-0126.

D. Proprietary Activity Accounting and Financial Reporting

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as non-operating.

E. Cash/Cash Equivalents

For all funds, cash and cash equivalents consist of amounts deposited in the State Treasurer's pooled cash account, cash deposits in checking accounts, cash invested in the Short Term Investment Pool (STIP), cash held by trustees, undeposited cash held by individual state agencies, and investments categorized as cash equivalents, which are short-term, highly liquid investments with original maturities of three months or less. Further detail related to cash and cash equivalents is provided in Note 3.

F. Receivables

This classification, net of estimated uncollectibles, consists primarily of receivables for goods sold and services provided; short-term loans and notes; interest and dividends; taxes due within 60 days of fiscal year-end; and income, withholding, and inheritance taxes that are past due. An allowance for uncollectible taxes is provided based upon historical analysis. Further detail related to receivables is provided in Note 4

G. Inventories

Inventories of materials and supplies are reported at cost. The State allows agencies to use any generally accepted inventory pricing method but specifies the first-in, first-out method generally to be appropriate for most agencies. Governmental funds use the "purchase method," meaning inventory purchases are recorded as expenditures. At fiscal year-end, inventory balances are shown as nonspendable, indicating they do not constitute available expendable resources. Proprietary and fiduciary funds report using the "consumption method," meaning inventories are expensed as used.

H. Equity in Pooled Investments

To account for equity in pooled investments, BOI uses one internal investment pool and one external investment pool. The internal investment pool is the Consolidated Asset Pension Pool (CAPP). The State's nine defined benefit pension trust funds are the only participants in CAPP. The external investment pool is the Trust Funds Investment Pool (TFIP). State agencies and qualifying local governments can participate in TFIP. Current State agency TFIP participation is within the enterprise funds, internal service funds, permanent funds, investment trust funds, Montana University System Units, and specific accounts established within the State and Federal Special Revenue Funds. The participant investments in the pools are reported at fair value in the assets within the individual funds. Further detail related to cash and cash equivalents and investments is provided in Note 3.

I. Investments

For agencies whose investment needs are not met by BOI's established investment pools, BOI provides separate investments, which are combined and reported as Separately Managed Accounts (SMA). SMA participants have direct fixed income, equity, and Montana mortgage and loan investments. SMA investments are reported at fair value. Certain securities including asset-backed securities, variable-rate instruments, zero-coupon bonds, preferred stocks, and mortgage-backed securities are purchased for

portfolio diversification and a competitive rate of return. Other State agencies, on a limited basis by statute, may administer other long-term investments. Most investments are reported at fair value on the Statement of Net Position. Further detail related to investments is provided in Note 3.

J. Capital Assets

Capital asset valuation is based on actual historical cost or, in the case of donations, acquisition value. General government infrastructure capital assets are capitalized and reported on the government-wide financial statements. Interest incurred during the construction of capital assets is expensed. Infrastructure assets of proprietary funds are capitalized on the fund financial statements. The State has chosen to use the depreciation approach for infrastructure assets. The State reports accumulated depreciation on the Statement of Net Position and depreciation expense on the Statement of Activities for these assets. Further detail relating to capital assets is provided in Note 5.

Capital assets in proprietary, private-purpose trust, and pension trust funds are accounted for within their respective funds and are depreciated or amortized on their fund financial statements. Capital assets in governmental funds are accounted for in the governmental activities of the government-wide financial statements, as are the associated depreciation and amortization. Depreciation is on a straight-line basis, with estimated useful lives of 25 to 60 years for buildings, 10 to 50 years for infrastructure, 7 to 20 years for building improvements, and 3 to 10 years for equipment. State agencies are also required to extend or shorten the useful lives of capital assets to reflect their actual experience or industry standards when appropriate. Amortization is on a straight-line basis with estimated useful lives of 4 years for software (internally and externally generated), 30 years for land use rights, and 20 years for other intangibles.

The capitalization limit for buildings and building/land improvements is \$25.0 thousand. The capitalization threshold for infrastructure and internally-generated software is \$500.0 thousand. The capitalization threshold for intangible and right-to-use lease assets is \$100.0 thousand. The capitalization limit for other capital assets is \$5.0 thousand. Agencies are allowed to capitalize additions to collections and land acquisitions at any cost. Purchases below these thresholds are recorded as expenditures/expenses in the current period.

K. Deferred Outflows, Deferred Inflows, and Unearned Revenue

A deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period. A deferred inflow of resources is an acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows and inflows of resources may include financial transactions related to refunding debt, non-exchange transactions, derivative investments, and OPEB, and pension related components; and are reported on the government-wide, proprietary fund, and fiduciary fund financial statements. Additionally, deferred inflows of resources may include financial transactions related to unavailable revenue on the governmental fund financial statements. Unavailable revenue is reported when assets are recognized, but those assets are not considered available to pay liabilities of the current period. Unearned revenue, which is neither a deferred outflow of resources nor a deferred inflow of resources; is recognized as a liability on government-wide, governmental, and proprietary fund financial statements. Further detail related to deferred outflows of resources and deferred inflows of resources is provided in Note 4.

L. Long-term Obligations

Long-term obligations expected to be financed from governmental funds are reported on the government-wide financial statements. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from current expendable available financial resources is reported as a fund liability of a governmental fund on the fund financial statements. The remaining portion of such obligations is reported on the government-wide financial statements. Long-term liabilities expected to be financed from proprietary and fiduciary fund operations

are accounted for in those funds. Further detail related to leases/financed purchases payable and long-term liabilities is provided in Note 10 and Note 11, respectively.

M. GASB 87 Leases

According to GASB Statement No. 87 *Leases* (GASB 87), a lease is a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction.

For the State as lessee at the commencement of the lease term, on the government-wide, proprietary fund, and fiduciary fund financial statements, a lease liability is recorded at the present value of payments expected during the lease term; and an intangible right-to-use lease asset is recorded at the sum of the lease liability, certain direct costs, and lease payments made to the lessor at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term.

The intangible right-to-use lease asset is amortized on a straight-line basis over the shorter of the asset useful life or the lease term, unless a purchase option is reasonably certain to be exercise. In such cases, amortization will be straight-line for the asset's useful life; however, if the underlying asset is nondepreciable, no amortization will be recorded. On the governmental fund financial statements, no intangible right-to-use lease asset or lease liability is recorded. Governmental funds instead record capital outlay expenditures and other financing sources, at the commencement of a lease, at net present value of the expected payments during the lease term. If the undiscounted value of payments plus certain direct costs and lease payments made to the lessor at or before the commencement of the lease term are less that \$100.0 thousand, lease accounting is not required and payments are treated as outflows of resources.

The State uses an estimated incremental borrowing rate as the discount rate for leases unless the rate is explicitly stated in the contract or known. The incremental borrowing rate is the rate for the Montana Board of Investments INTERCAP loan program in effect on July 1 of the fiscal year the lease commences. Many lease contracts include increases to rent payments related to the consumer price index (CPI) or similar indices, and the available index increase is included in the present value at the commencement of the lease or upon remeasurement.

For the State as lessor at the commencement of the lease term, on the government-wide and fund financial statements, a lease receivable is recorded at the present value of lease payments expected to be received during the lease term; and a deferred inflow of resources is recorded at the sum of the value of the lease receivable and any payments received at or before the commencement of the lease term that relate to future periods. If the undiscounted value of payments that may be received from the lessee are less than \$100.0 thousand, lease accounting is not required and payments are treated as inflows of resources.

Payments based on future performance are not included in the measurement of the lease liability or lease receivable but recognized as revenue or expense in the period performed. Residual value guarantees and exercise options will be included in the measurement if they are reasonably certain to be paid or exercised. Further detail related to GASB 87 leases is provided in Note 10.

N. Non-GASB 87 Leases

According to GASB 87, the statement does not apply to leases of intangible assets, leases of biological assets, contracts that meet the definition of a service concession arrangement (GASB Statement No. 60 Accounting and Financial Reporting for Service Concession Arrangements (GASB 60)), leases defined as short-term leases (under a year), leases that are under the threshold for GASB 87 recognition (see M), and transfer of ownership contracts. In addition to those exclusions, for leases when the State is a lessor, GASB 87 lease recognition and measurement provisions do no apply to certain regulated leases or when the underlying asset of the lease meets the requirements in GASB Statement No. 72, Fair Value Measurement and Application (GASB 72) to be reported as an investment measured at fair value. For the State as both a lessee and lessor, short-term lease payments and those under the threshold identified in M. above, are recognized as payments of outflows of resources or receipts of inflows of resources.

O. Financed Purchases

A financed purchase is a contract that transfers ownership of an underlying asset to the purchaser by the end of the contract and does not contain termination options. Provisions that end a contract for the following reasons are not considered termination options: Payment of all sums due, Default on payments, or a fiscal funding or cancellation clause that is not reasonably certain of being exercised. If the contract does contain a termination option, it should be considered a lease and should be accounted for in accordance with the State's lease policies. The threshold for recording a financed purchase is the threshold for recording the asset type associated with a financed purchase. Further detail related to financed purchases is provided in Note 10.

P. Bond Discounts/Premiums/Issuance Costs

Bond premiums and discounts, as well as issuance costs, are recognized in the period they are incurred. Bond issued and bond premiums are reported as other financing sources, and bond discounts are reported as an other financing use. Issuance costs are reported as debt service expenditures whether or not they are withheld from the bond proceeds. Bonds payable are recorded net of any applicable premium or discount. Further detail related to long-term debt is provided in Note 11.

Q. Compensated Absences

Full-time state employees earn vacation leave ranging from 15 to 24 days per year depending on the individual's years of service. Teachers employed by the State do not receive vacation leave. Vacation leave may be accumulated and carried over from one year to the next. The carryover is limited to two times the maximum number of days earned annually. Sick leave is earned at the rate of 12 days per year with no limit on accumulation. Each contribution year, an employee may contribute a maximum of 80 hours of sick or annual leave to a nonrefundable sick leave pool. Excess annual leave that is being forfeited can also be contributed, with no maximum contribution. For fiscal year 2022, 1,406 sick leave hours, 169 annual leave hours, and 2,742 excess annual leave hours were contributed to the sick leave pool, and 3,531 hours were withdrawn, leaving a balance of 18,984 hours in the pool. The liability associated with the pool is not reported in the accompanying financial statements because these hours are nonrefundable to contributors, except by grants approved through an application process.

Vested or accumulated leave for proprietary and fiduciary funds is recorded as an expense and liability of those funds in the fund financial statements. For governmental funds, the liability is not expected to be liquidated with expendable financial resources. The expenditure and liability for the governmental funds is reported only on the government-wide financial statements. Upon retirement or termination, an employee is paid for 100% of unused vacation leave and 25% of unused sick leave. Further detail related to compensated absences is provided in Note 11.

R. Nonexchange Financial Guarantee

According to GASB Statement No. 70 Accounting and Financial Reporting For Nonexchange Financial Guarantees (GASB 70), governments may extend financial guarantees for the obligations of another government, a not-for profit entity, or a private entity without directly receiving equal or approximately equal value in exchange (a nonexchange transaction). As a part of this nonexchange financial guarantee, a government commits to indemnify the holder of the obligation if the entity that issued the obligation does not fulfill its payment requirements. Further detail related to nonexchange financial guarantees is provided in Note 11.

S. Fund Balance/Net Position

Fund Balance

The classifications for fund balance used for governmental funds are reported in two general classifications, nonspendable and spendable. Nonspendable represents the portion of fund balance that is legally or contractually required to remain intact or is not in spendable form such as inventories, and, in

the General Fund, long-term notes and loans receivable. Spendable fund balance is further categorized as restricted, committed, assigned, and unassigned.

The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by the State Constitution or external parties, such as the federal government, or through enabling legislation. For the purpose of determining restricted amounts, enabling legislation does not include commitments resulting from State legislation if these constraints can be removed or changed by a similar legislative action.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority, the State's Legislature, through legislation passed into law.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes. Still they do not meet the criteria to be classified as restricted or committed. Assignments of fund balance are created by the executive branch. In governmental funds other than the General Fund, assigned fund balance also represents the remaining amount that is not restricted or committed. The assigned fund balance for the General Fund are encumbrances and assignments for the portion of current General Fund balance that is projected to be used to fund expenditures and other cash outflows in excess of the expected revenues and other cash inflows in fiscal years as needed. The projected spend down for fiscal year 2023 is \$75.0 million; thus, a related assignment of fund balance is reported at 2022 fiscal year-end.

Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The State generally segregates restricted, committed, and assigned resources by account (sub-fund) within the governmental funds other than the General Fund. When resources meeting more than one of these spendable classifications are commingled in an account on the State's accounting system, the assumed order of spending is restricted first, committed second, and finally assigned. State statute requires non-General Fund money be spent first whenever possible so any related available unassigned balance would be spent last.

General Fund - Fund Balance

As of June 30, 2022, the State maintains a Budget Stabilization Reserve Fund as required by statute. For financial reporting purposes, this fund is combined with the General Fund as it does not meet the GASB 54 requirements to be a special revenue fund as the Legislature prescribed. The June 30, 2022, committed fund balance in the General Fund of \$118.9 million, represents the Budget Stabilization Reserve Fund balance.

Additionally, statute provides a minimum fund balance amount as follows: Section 17-7-140, MCA, defines minimum ending fund balance and specifies the procedures that must be followed to make expenditure reductions or allow transfers from the Budget Stabilization Reserve Fund if a projected ending fund balance drops below minimum statutory requirements.

If the Budget Director determines that a deficit exists, statute requires reductions that must be made to assure that the projected ending fund balance complies with the minimum ending fund balance of General Fund appropriations for the biennium. Under circumstances when a deficit of this level is projected during a biennium, the Governor may direct reductions from any General Fund expenditure not exempted by Section 17-7-140, MCA, including House Bill (HB) 2 (the State's main appropriation bill), any other appropriation bills, statutory appropriations, or language appropriations. Reductions may not exceed 10% of General Fund appropriations for any single "program," as defined in HB 2. If a program has more than one appropriation, the reduction for one or more of the appropriations may exceed 10% as long as the reduction for the program as a whole does not exceed 10%.

The Legislative and Judicial branches, the Montana School for the Deaf and Blind, principal and interest on State debt, salaries of elected officials, and public school BASE funding are exempt, statutorily, from reductions. These exemptions shield approximately one-third of General Fund appropriations from reduction. Of the remaining expenditures, the Governor may not direct executive agencies headed by elected officials or the Board of Regents to reduce their expenditures by more than the average reduction percentage imposed upon all other executive branch agencies.

Net Position

In funds other than governmental, net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. The net investment in the capital assets portion of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions, enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The government-wide Statement of Net Position reported restricted net position of \$4.2 billion.

Net position associated with the Unemployment Insurance Fund is classified as restricted. The majority of the restricted net position for other purposes business-type activities amounting to \$120.2 million is made up of \$86.0 million from MUS Group Insurance Fund and \$13.1 million from MUS Workers Compensation Fund. Certain investments of the Municipal Finance Programs Fund are also classified as restricted net position for other purposes as business-type activities and on the Statement of Fund Net Position for proprietary funds because applicable bond indenture agreements limit their use.

T. Property and Income Taxes

Real property taxes are normally levied in October and are usually payable in two installments on November 30 and May 31. These taxes attach as an enforceable lien immediately if not paid when due.

Personal property tax levies are set each August, and notices are normally mailed the following March or April. Half of mobile home taxes are due in 30 days and the remaining half on September 30. Taxes on all other types of personal property are to be paid in full 30 days after receipt of the notice. Property tax payments are recognized as deferred inflows of resources if received prior to levy or availability.

Personal property taxes attach as an enforceable lien immediately if not paid when due. Each of Montana's 56 counties collect property taxes. The counties then remit the State's portion to the State Treasury. The majority of these taxes help fund public school systems and higher education.

U. Other Taxes

On the Statement of Activities, the revenue category "Other Taxes" consists of the following taxes (in thousands):

| | Gei | neral Fund | S | State Special Revenue | G | Other Governmental Funds | Bus | siness-Type Funds | Total |
|----------------------------------------------------|-----|------------|----|--------------------------|----|--------------------------------|-----|----------------------|---------|
| Accommodations | \$ | 45,139 | \$ | 63,214 | \$ | 11,889 | \$ | 34 \$ | 120,276 |
| Agriculture | | _ | | 8,102 | | _ | | _ | 8,102 |
| Cannabis tax (medical/recreational) ⁽¹⁾ | | _ | | 24,706 | | _ | | _ | 24,706 |
| Car rental | | 6,934 | | 2,311 | | _ | | _ | 9,245 |
| Cigarette/tobacco | | 33,593 | | 42,139 | | 1,614 | | _ | 77,346 |
| Contractors gross receipts | | 2,837 | | _ | | _ | | _ | 2,837 |
| Energy tax | | 7,315 | | _ | | _ | | _ | 7,315 |
| Fire protection | | _ | | 4,281 | | _ | | _ | 4,281 |
| Insurance premium | | 97,898 | | 53,600 | | _ | | _ | 151,498 |
| Light vehicle registration | | _ | | 6,524 | | _ | | _ | 6,524 |
| Liquor tax | | 5,774 | | 2,352 | | _ | | 40,030 | 48,156 |
| Livestock | | _ | | 5,048 | | _ | | _ | 5,048 |
| Other taxes | | 153 | | 1,199 | | _ | | _ | 1,352 |
| Public service commission | | _ | | 4,223 | | _ | | _ | 4,223 |
| Railroad car companies | | 3,628 | | _ | | _ | | _ | 3,628 |
| Telephone license | | 8,778 | | _ | | _ | | _ | 8,778 |
| Video gaming | | 77,881 | | 6 | | _ | | _ | 77,887 |
| Total other taxes | \$ | 289,930 | \$ | 217,705 | \$ | 13,503 | \$ | 40,064 | 561,202 |

⁽¹⁾ Fiscal year 2022 was the first year for recreational cannabis sales. In fiscal year 2021 medical cannabis was included with cigarette/tobacco etc.

V. Tax Abatement

In the Montana Board of Investment's (BOI) Commercial Loan Program, within the Separately Managed Account, the infrastructure loan program is funded by an \$80.0 million allocation. Eligible local governments request a loan for constructing or purchasing infrastructure to be used by a basic sector business. The basic sector business will pay a user fee to the local government that is pledged to BOI for the loan repayment. BOI reviews each loan, and only upon verification that the entities meet the loan requirements is the loan approved by BOI. The local government entity must pass a resolution authorizing the acceptance of the commitment agreement. BOI indemnifies the local government regarding repayment of the loan.

To be eligible for the program, the basic sector business must create at least 15 full-time basic sector jobs. The maximum loan size is \$16.7 thousand multiplied by the number of full-time jobs created with a minimum loan size of \$250.0 thousand. The maximum loan term is 25 years. There is also up to a 2.5% interest rate reduction for job creation. The reduction will be reflected in the user fee rate charged to the basic sector business upon BOI review and approval. The basic sector business must create the required jobs within four years of the agreement. If the basic sector business does not create the required jobs within the four-year period, then the basic sector business must pay down the loan balance of the local government entity until the loan balance matches the eligible amount per the jobs created. BOI may increase the interest rate commensurate with the number of jobs eliminated if the borrower eliminates qualifying jobs. The basic sector business must annually provide payroll documentation to BOI.

Pursuant to statute, a business that is created or expanded as the result of an Infrastructure Loan is entitled to a credit against either their State individual income taxes or corporate income taxes for the portion of the fees attributable to the use of the infrastructure. The total amount of tax credit claimed may

not exceed the amount of the loan. The credit may be carried forward for seven years or carried back for three years.

During the fiscal year ended June 30, 2022, basic sector business entities made total user fee payments of \$4.0 million, representing \$3.5 million of principal and \$0.5 million in interest. During the fiscal year ended June 30, 2022, a total of \$5.1 million was claimed as a credit against the State individual and corporation tax liability. The following table details the fiscal year 2022 credit claimed by tax type and the tax year it was applied against (in thousands):

| Infrastructure Credit Claimed | | | | | | | | | |
|-------------------------------|----|-----------------|------------------|-------|----|-------|--|--|--|
| | | ax Year 2021 | Tax Year 2020 | | | Total | | | |
| Corporate income tax | \$ | _ | \$ | 399 | \$ | 399 | | | |
| Individual income tax | | 66 | | 4,654 | | 4,720 | | | |
| Total amount claimed | \$ | 66 | \$ | 5,053 | \$ | 5,119 | | | |

W. Irrevocable Split Interest Agreements

Irrevocable split-interest agreements are used by donors to provide resources to two or more beneficiaries, including governments. These agreements can be created through trusts or other legally enforceable agreements with characteristics that are equivalent to irrevocable split-interest agreements. The University of Montana campuses have three irrevocable split interest agreements during the fiscal year ended June 30, 2022. Further detail related to these agreements is provided in Note 3.

NOTE 2. OTHER ACCOUNTING CHANGES

A. New Accounting Guidance Implemented

For the year ended June 30, 2022, the State of Montana implemented the provisions of GASB Statement No. 87, *Leases* (GASB 87). This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

For the year ended June 30, 2022, the State of Montana implemented the provisions of GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period* (GASB 89). GASB 89. This Statement requires that interest costs incurred before the end of a construction period be recognized as an expense or an expenditure in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus or the current financial measurement focus, respectively.

For the year ended June 30, 2022, the State of Montana early implemented provisions of GASB Statement No. 99, *Omnibus 2022* (GASB 99) related to GASB 87. This statement addresses practice issues that have been identified during implementation and application of certain GASB Statements. The practice issues addressed by this statement include classification and reporting of financial guarantees and derivative instruments, extension of the use of LIBOR, accounting for the distribution of benefits as part of the Supplemental Nutrition Assistance Program (SNAP), disclosures of non-monetary transactions, pledges of future revenues when resources are not received by the pledging government, clarification of provisions in GASB Statements No. 34 and 87, and terminology updates related to GASB Statements No. 53 and 63. The early implementation of GASB 99 in conjunction with GASB 87 is for purposes related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives.

B. Other Accounting Changes

In April 2019, the State of Montana enacted the Montana Reinsurance Association Act (Act) establishing Montana Reinsurance Association (MRA) as a nonprofit, legal entity. MRA is classified as a discretely presented component unit of the State of Montana. MRA reports on a calendar year basis. MRA's financial results are included in the State's Annual Comprehensive Financial Report beginning fiscal year 2022 because of the significance of MRA's financial relationship with the State. As a result of the change in reporting entity, a prior period adjustment of \$32.9 million was made to restate the beginning net position of MRA on both the Statement of Activities and the Condensed Statement of Activities. Further detail related to MRA and the financial impact of this change are provided in Note 1 and Note 18.

C. Adjustments to Beginning Net Position

Prior to the implementation of GASB 87, capital leases were recorded with as liabilities and tangible capital assets. For the implementation of GASB 87 these balances were reversed as adjustments to beginning net position and the lease agreements were then recorded in accordance with the State's GASB 87 policies. The cumulative effect of these adjustments for the Statement of Activities was an increase to beginning net position of \$542.1 thousand for Governmental Activities and \$10.6 thousand for Business-Type Activities. The cumulative effect of these adjustments for the Proprietary Funds Statement of Revenues, Expenses, and Changes in Fund Net Position was an increase to beginning net position of \$10.6 thousand for Enterprise Funds and \$65.8 thousand for Internal Service Funds. Other adjustments for either Governmental Activities or Business-Type Activities relating to corrections of errors from prior periods.

NOTE 3. CASH/CASH EQUIVALENTS AND INVESTMENTS

This note details the following asset classifications (in thousands):

Cash/cash equivalents \$ 8,394,793 Equity in pooled investments \$ 16,089,695 Investments \$ 3,586,624

Carrying amounts for the bank balance for cash deposits and fair values for the State's cash equivalents and investments are presented in Tables 1 through 4.

A. General

Outside of statutory requirements, the State does not maintain a statewide risk policy for cash/cash equivalents or investments held outside of the Montana Board of Investments (BOI). The investment risk policy for State cash/cash equivalents and investments managed by BOI, have been detailed below.

BOI was created by the Legislature to manage the Unified Investment Program (UIP) established by the State Constitution. The UIP is comprised of involuntary participating state funds, including pensions, trusts, insurance, operating funds, and by statute voluntarily participating local government funds. BOI manages the UIP pursuant to the "Prudent Expert Principle" mandated by State law, which requires an investment manager to:

- 1. discharge the duties with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a prudent person acting in a like capacity with the same resources and familiar with like matters exercises in the conduct of an enterprise of a like character with like aims;
- 2. diversify the holdings of each fund within the UIP to minimize the risk of loss and to maximize the rate of return unless, under the circumstances, it is clearly prudent not to do so; and
- discharge the duties solely in the interest of and for the benefit of the funds forming the UIP.

BOI is not registered with the U.S. Securities and Exchange Commission as an investment company. BOI's investment program is governed by Investment Policy Statements (IPS) approved by BOI.

State agencies and local government entities may participate in one or more pools. By investing in pools, participants are provided broad diversification. State agencies may also have direct fixed income, equity, or loan investments. These investments are combined and reported as Separately Managed Accounts (SMA). Currently, only the nine retirement funds that participate in the Consolidated Asset Pension Pool (CAPP), the Defined Contribution Disability Plan, and the Montana State Fund (MSF) may invest in public corporate capital stock. Neither State law nor the State Constitution place restrictions on retirement fund investments. BOI approves a separate IPS for each pool and SMA participant, which provides BOI staff with a broad strategic framework under which the investments are managed. The IPS also reflects BOI approved asset allocation ranges.

By statute, local government entities can voluntarily invest in the Short Term Investment Pool (STIP). By statute, with a qualifying event, local government entities may also voluntarily invest in the Trust Funds Investment Pool (TFIP).

Separately issued investment pool financial statements may be obtained by contacting:

Montana Board of Investments 2401 Colonial Drive, 3rd Floor PO Box 200126 Helena, MT 59620-0126

BOI's separately issued UIP financial statements include the activity for MSF within SMA on a June 30, 2022, basis. MSF, a discretely presented component of the State, by statute, prepares separately issued financial statements on a calendar year-end basis. Due to the difference in reporting periods, there will be

a variance between the note disclosures and the financial statements for cash/cash equivalents and investments.

(a) Cash and cash equivalents consist of funds deposited by individual funds in the State Treasurer's pooled cash account, cash deposits in checking accounts, cash invested in STIP, cash held by trustees, undeposited cash held by individual state agencies, and investments categorized as cash equivalents.

Cash deposited with the State Treasurer's pooled cash account is invested by BOI in short-term securities and other investments. Because these funds are immediately available to the individual funds, their investment in the pooled cash account is reported as a cash equivalent. BOI also manages STIP, which provides individual State agencies and local governments an opportunity to invest excess cash in a pool that is managed to preserve principal while providing 24-hour liquidity. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the STIP are reported as a cash equivalent.

(b) Investment securities are reported by investment portfolio and type in Table 2 – Cash Equivalents, Table 3 – Equity in Pooled Investments, and Table 4 – Investments. Unrealized gains and losses are included as a component of investment income. Unrealized gains and losses are computed based on changes in the fair value of investments held from the beginning of the year, but unsold at the fiscal year-end. The net change in fair value of investments also consists of the realized gains or losses. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date.

Investments reported at fair value are on a trade date basis. Quoted market prices, when available, have been used to value investments. The fair values for securities that have no quoted market price represent estimated fair value. Alternative investment securities are valued using the most recent estimates of fair value from the investment managers. Fair value measurements are reviewed monthly, and third-party valuations are reviewed for reasonableness and compliance with approved price source authorization policy. BOI categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles as follows:

Level 1 – Quoted prices for identical assets or liabilities in active markets.

Level 2 – Prices are determined using inputs, other than quoted prices included within Level 1, that are observable for an asset or liability, either directly or indirectly. These inputs can include quoted prices for similar assets or liabilities in active or inactive markets, or market-corroborated inputs.

Level 3 – Prices are determined using unobservable inputs, which generally results in BOI using the best information available and may include BOI's own data.

(c) Security Lending - BOI is authorized by law to lend its securities and has contracted with the custodial bank to lend BOI's securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. On any day, including June 30th, the markets may move in a positive or negative direction resulting in under or over collateralization. The custodial bank compensates for market movement by recalculating on the following business day to meet the collateralization requirements. BOI and the custodial bank split the earnings 85% and 15%, respectively, on securities lending activities. BOI retains all rights and risks of ownership during the loan period. The custodial bank indemnifies BOI's credit risk exposure to the borrowers. The custodial bank does not have the ability to sell collateral securities unless the borrower defaults.

During fiscal year 2022, the custodial bank loaned BOI's public securities and received as collateral the following instruments:

- Cash (U.S. and foreign currency)
- Securities issued or guaranteed by the United States government or its agencies or instrumentalities
- Canadian provincial debt
- All other sovereign debt
- Convertible bonds

- U.S. and non-U.S. equities (which shall include (i) equity securities in the form of exchange-traded funds ("ETFs") and, for the avoidance of doubt, shall include, but not be limited to, ETFs of the custodial bank or other custodial bank affiliates and (ii) American Depositary Receipts and Global Depositary Receipts)
- Covered bonds
- Preferred securities
- Certificates of Deposit
- Money market instruments
- Asset-backed securities
- Asset-backed commercial paper
- Commercial paper
- Collateralized mortgage obligations
- Mortgage-backed securities
- Supranationals
- Irrevocable bank letters of credit issued by a person other than the borrower or an affiliate of the borrower may be accepted as collateral, if the custodial bank has determined that it is appropriate to accept such letters of credit as collateral under the securities lending programs it administers
- Assets permissible under Rule 15c3-3 under the Exchange Act of 1934; and
- Such other collateral as the parties may agree to in writing from time to time

BOI has an established schedule with the custodial bank that identifies the minimum credit rating and margin requirements for each instrument:

| Collateral Type | Minimum Credit Rating | Margin Requirement |
|------------------------------------------------------------------------------------------------|--------------------------|-----------------------|
| US Treasuries, including Treasury Inflation Priced Securities | | 102% |
| US Federal Agency Debt, including agency mortgage-backed securities | | 102% |
| Municipal Bonds | A-/A3 | 105% |
| Canadian Provincial and Australian Semi-Regional Debt | A-/A3 | 105% |
| Asset-Backed Securities | AA-/Aa3 | 110%-115% |
| Collateralized Mortgage-Backed Securities | AA-/Aa3 | 110%-115% |
| Commercial Mortgage-Backed Securities | AA-/Aa3 | 110%-115% |
| Supranational Debt | AAA/Aaa | 102% |
| Sovereign Debt | AA-/Aa3 | 102% |
| Sovereign Debt | A-/A3 | 105% |
| Commercial Paper, Certificates of Deposit, Banker's Acceptances and Time Deposits | A1/P1 | 105% |
| Corporate Debt | AA-/Aa3 | 102%-115% |
| Corporate Debt | BBB-/Baa3 | 102%-115% |
| Convertible Bonds (convertible on call against loans of underlying stock, only) Matched/Hedged | No Floor | 105% |
| Convertible Bonds (U.S. issuers only) Outright | No Floor | 110%-115% |
| Equities (generally traded on well-established exchanges) | | 108%-110% |

BOI imposed no restrictions on the amount of securities available to lend during fiscal year 2022. However, STIP assets are currently not available for securities lending. There were no failures by any borrowers to return loaned securities or pay distributions thereon during the period that resulted in a declaration and notice of default of the borrower. There were no losses during fiscal year 2022 resulting from a borrower default. As of June 30, 2022, no securities were recalled and not yet returned.

The cash collateral received for each loan was invested, together with the cash collateral of other qualified plan lenders, in an investment fund, the Navigator Securities Lending Government Money Market (Navigator) portfolio.

BOI and the borrowers maintain the right to terminate all securities lending transactions on notice. Because the securities lending transactions were terminable at will, their duration did not generally match

the duration of the investments made with the cash collateral received from the borrower. The Navigator portfolio had an average duration of 1 day and the average weighted final maturity of 31 days.

(d) Investment Pools and Separately Managed Accounts (SMA) are described in the following paragraphs.

Consolidated Asset Pension Pool (CAPP)

The CAPP IPS contains prescribed asset allocation ranges among the allowable asset classes and is subject to change as BOI adopts modifications. BOI annually affirms or revises the asset allocation ranges for the retirement plans. The CAPP IPS also contains investment objectives and guidelines for each underlying asset class, with a purpose of providing diversified exposure within the asset class in a prudent and cost-effective manner.

Due to a longer-term focus, CAPP's asset classes differ from other classes that are allowable for other programs. CAPP's underlying asset classes are as follows:

- Domestic Equities
- International Equities
- Private Investments
- Real Assets
- Real Estate
- Core Fixed Income
- Non-Core Fixed Income
- Cash

The CAPP IPS is the only IPS that allows for investments that can be held in non-U.S. securities in a foreign currency. Per the CAPP IPS, the Core Fixed Income Asset Class and Non-Core Fixed Income Asset Class sections have maximum restrictions that can be held. Currency exposures may be hedged, in a defensive manner, at the discretion of the active managers to preserve the U.S. dollar value of investments made.

Trust Funds Investment Pool (TFIP)

The TFIP IPS provides for a 10% portfolio limit for non-core fixed income securities. TFIP invests primarily in investment grade, U.S. dollar denominated fixed income securities. The portfolio has high yield and core real estate exposure.

Short Term Investment Pool (STIP)

The STIP IPS limits the concentration of credit risk exposure by limiting portfolio investment types to 3.0% in any issuer except for U.S. Treasury and U.S. Agency securities as well as any repurchase agreements with a financial institution.

STIP invests primarily in short-term, high quality, fixed income securities with a maximum maturity of 397 days or less. Variable securities shall have a maximum maturity of 2 years. STIP shall maintain a dollar-weighted average portfolio maturity of 120 days or less. STIP is managed to preserve principal while providing 24-hour liquidity for state agency and local government participants.

BOI maintains a reserve account that may be used to offset losses within the STIP portfolio. The STIP reserve for the year ending June 30, 2022, is detailed as follows:

57.094

| (in thousands) | |
|------------------------------------------------------|--------------|
| Beginning STIP Reserve | \$ 54,212 |
| Additions | |
| Investment Earnings: | |
| Net increase (decrease) on fair value of investments | 117 |
| Interest income | 18 |
| Transfer of daily STIP income | 2,340 |
| Recoveries from write-offs | 407 |

STIP Reserve Activity

Separately Managed Accounts (SMA)

Total investment earnings Total STIP Reserve activity Ending STIP Reserve

SMA invests primarily in investment grade, U.S. dollar denominated, fixed income securities and custodial bank interest bearing demand deposit account. However, one participant portfolio has exposure to core real estate and high yield fixed income. The SMA portfolio also includes Veteran's Home Loan Mortgages (VHLM) and loans funded by the Coal Severance Tax Trust Fund, as authorized by statute.

(e) Investment Risk Disclosures are described in the following paragraphs, with more detail provided in later sections.

Custodial Credit Risk (Cash and Cash Equivalents and Investments Held at Custodial Bank)

Custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, BOI will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Per policy, BOI's custodial bank must be rated at a minimum at the 6th highest investment grade rating by at least two Nationally Recognized Statistical Rating Organizations (NRSROs) on an annual basis.

As of June 30, 2022, all the public securities as well as securities held by the separate public equity account managers were registered in the nominee name for BOI and held in the possession of BOI's custodial bank. The equity index funds, securities held at the State's depository bank, real estate, mortgage, and loan investments were purchased and recorded in BOI's name. Commingled fund investments are registered in the name of BOI. Therefore, BOI is not subject to custodial credit risk.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the magnitude of any single investment per issuer name. Investments explicitly guaranteed by the U.S. government are excluded from the concentration of credit risk requirement. Concentration of credit risk is addressed within all IPS as set by BOI.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. Except for U.S. Government securities, the pools and SMA fixed income instruments have credit risk as measured by NRSRO ratings. Credit risk is contemplated for each individual portfolio in the IPS. Credit risk is managed by constraining portfolio purchases around investment grade NRSRO ratings as appropriate. The U.S. Government guarantees its securities directly or indirectly. Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk and do not require disclosure of credit risk.

As of June 30, 2022, the CAPP's cash equivalents position held at its custodial bank, \$136.0 million was held in unrated money market funds.

As a matter of STIP investment policy, BOI can only purchase securities from a pre-approved "Approved Issuer" list. By STIP policy, permitted money market investments include only SEC registered 2a-7

Institutional Money Market Funds that are considered "U.S. Treasury" or "U.S. Government" money market mutual funds according to the SEC regulations or short-term investment vehicle available through the custodial bank. As of June 30, 2022, all the STIP money market investments were in U.S. Governmental money markets and \$153.0 million was held on deposit in a short-term investment vehicle available through the custodial bank.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. BOI uses effective duration as a measure of interest rate risk for all fixed income portfolios. CAPP, TFIP, and SMA investments at fair value are categorized to disclose credit and interest rate risk for fixed income securities. Credit risk is disclosed using the weighted credit quality rating by investment type. Interest rate risk is disclosed using the weighted effective duration. NRSRO provides the credit ratings. According to the STIP investment policy, "The STIP portfolio will minimize interest rate risk by:

- 1. structuring the investment portfolio so securities mature to meet cash requirements for ongoing operations thereby normally avoiding the need to sell securities on the open market prior to maturity:
- maintaining a dollar-weighted average portfolio maturity (WAM) of 120 days or less (for this purpose, the date to the next coupon reset date will be used for all floating or variable rate securities); and
- 3. STIP will maintain a reserve account."

CAPP, TFIP, STIP, and SMA may hold fixed and variable rate securities. Interest payments on variable securities are based on an underlying reference rate, for example, Secured Overnight Financing Rate (SOFR).

STIP investments at fair value are categorized to disclose credit risk and weighted average maturity (WAM) as of June 30, 2022. Credit risk reflects the weighted security quality rating by investment type as of the June 30 report date. Although the STIP investments have been rated by investment security type, STIP, as an external investment pool, has not been rated. STIP has \$68.7 million of investments reported at cost that are not rated. STIP interest rate risk is determined using the WAM method. The WAM measure expresses investment time horizons (the time when investments are due or reset and payable in days, months, or years) weighted to reflect the dollar size of the individual investments within an investment type. Inclusive of cash and cash equivalents, the WAM averages 68 days for the portfolio. Based on their short weighted average maturity and the relative immaterial difference from their cost to fair value as of June 30, 2022, BOI determined the cash equivalents have little discernible interest rate risk.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. BOI's foreign currency exposure by denomination and investment type are reported, in U.S. dollars, at fair value and is limited to CAPP.

Other Policy Considerations

For other risk, BOI approves both the IPS and benchmark used for each portfolio. Per the CAPP IPS, the Core Fixed average duration will be maintained in a range within 20% of the benchmark duration. The Core Fixed Income PAC and Non-Core Fixed Income PAC average duration will be maintained in a range within 25% of the index duration. Per the TFIP IPS, the average duration will be maintained in a range within 20% of the benchmark duration. Interest rate risk for SMA is contemplated in each individual IPS and is managed by limiting the maturity of individual securities and/or matching liabilities to maturities per estimated cash flows.

Fair Value of Derivative Instruments

Within CAPP, the UIP invests in, currency forward contracts, credit default swaps, interest rate swaps, index futures (long and short duration), rights and warrants which are classified as investment derivative instruments. The investment derivative instruments decreased in fair value for the fiscal year ended June

30, 2022, by \$1.5 million. The derivative instruments had a fair value of \$(143.0) thousand as of June 30, 2022. The notional amount of the contracts was \$70.4 million.

Investment Derivative Instruments as of June 30, 2022 (in thousands)

| Security Investment Type | Classification | Fair Inclu Inve | nges in Value uded in stment come | Fair Value | Notional Amount |

| Warrants | Investment | | (34) | 22 | 19 |
| Totals | | \$ | (1,495) | \$ (143) | \$ 70,357 |

Counterparty Credit Risk - Derivative Instruments

Counterparty credit risk is the risk that the counterparty will not fulfill its obligations. The maximum amount of loss to BOI in case of default of all counterparties as of June 30, 2022 was \$742.0 thousand. The following table reflects BOI's applicable counterparty credit ratings and risk concentrations.

Risk Concentrations - Credit Default Swaps as of June 30, 2022

| | Percentage of | | | Moody's |
|-----------------------------|---------------|------------|--------------|---------|
| Counterparty Name | Net Exposure | S&P Rating | Fitch Rating | Rating |
| HSBC Bank USA | 58% | A+ | AA- | Aa3 |
| UBS ICE | 20% | A+ | AA- | Aa3 |
| Barclays Bank PLC Wholesale | 10% | Α | A+ | A1 |
| BNP Paribas SA | 7% | A+ | A+ | Aa3 |
| UBS LCH | 4% | A+ | AA- | Aa3 |
| Citibank N.A. | 1% | A+ | A+ | Aa3 |

B. Cash/Cash Equivalents

(1) Cash Deposits – The State requires collateralization based on the average daily bank balance in the depository bank holding the main state bank account. For other depository banks, state statutes require collateralization at 50.0% of the bank balance. The cash deposits amount includes both primary government and component unit deposits.

Table 1 – Cash Deposit Amounts (in thousands)

| | Carrying Amount |
|-------------------------------------|------------------------|
| Cash held by State/State's agent | \$ 49,777 |
| Uninsured and uncollateralized cash | 4,638 |
| Undeposited cash | 636 |
| Cash in U.S. Treasury | 473,707 |
| Cash in MSU component units | 10,404 |
| Cash in UM component units | 15,988 |
| Less: outstanding warrants | (76,001) |
| | \$ 479,149 |

(2) Cash Equivalents – consists of cash in the State Treasury invested by individual funds in the Short-term Investment Pool (STIP), the State Treasurer's pooled cash account, and in identifiable securities and investments considered to be cash equivalents. Cash equivalents, generally, are short-term, highly liquid investments with original maturities of three months or less that are measured at cost. Cash equivalents may be under the control of BOI or other agencies, as allowed by law.

Table 2 - Cash Equivalents (in thousands)

| | Fair Value |
|--------------------------------------------|-----------------|
| Treasuries (1) | \$ 520,928 |
| Asset backed commercial paper (2) | 69,929 |

C. Equity in Pooled Investments

These securities consist of investments held by BOI in pooled investment funds. The Consolidated Asset Pension Pool (CAPP) and Trust Funds Investment Pool (TFIP) were created to allow qualifying funds to participate in diversified investment pools. Purchases are subject to the statutorily mandated "Prudent Expert Principle" (see Table 3 – Equity in Pooled Investments).

Table 3 – Equity in Pooled Investments (in thousands)

| | F | air Value ⁽¹⁾ |
|----------------------------------------------|----|--------------------------|
| CAPP: | | |
| Consolidated asset pension pool | \$ | 13,346,867 |
| TFIP: | | |

| Total equity in pooled investments | \$ | 16,089,695 |

⁽¹⁾ Includes cash/cash equivalents and investments.

As of June 30, 2022, the fair value of the underlying securities on loan was \$655.7 million. Collateral provided for the securities on loan totaled \$688.5 million, consisting of \$181.4 million in cash and \$507.2 million in securities.

As of June 30, 2022, local governments invested \$12.3 million in TFIP.

State of Montana investments are categorized below to disclose credit and interest rate risk as of June 30, 2022, as required for applicable pools.

Credit Quality Rating and Effective Duration as of June 30, 2022 Fair Value (in thousands)

State of Montana investments are measured at fair value and categorized within the fair value hierarchy established by GASB Statement No. 72 – Fair Value Measurement and Application, as defined below.

Fixed income and equity investments classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Fixed income investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

⁽²⁾ TFIP becomes permitted investments for the State Treasurer's Fund.

Residential Mortgages classified in Level 3 of the fair value hierarchy are present value adjusted.

Direct real estate classified in Level 3 of the fair value hierarchy are based on the latest appraised value. In years with no updated appraisal the Montana Department of Revenue calculated growth rate is used to determine the adjusted value. The direct real estate was last appraised in fiscal year 2020.

Investments measured at cost are included to account for all investments within each pool and SMA. These assets represent cash equivalents, INTERCAP Bonds, and Montana Mortgages and Loans.

Each of the investment pools and SMA has the following fair value measurements as of June 30, 2022:

| Total investments measured at the NAV | \$ | 5,085,079 | \$ | 2,441,638 | • | | |

STIP and \$1.6 billion of SMA are included, and also reported in Tables 2 and 4, respectively.

<u>Private Investments</u> – This type includes investments in limited partnerships. Typically, the types of partnership strategies included in this portfolio: venture capital, growth equity, buyouts, special situations, mezzanine, and distressed debt. These investments are considered long-term. Redemptions are restricted over the life of the partnership. During the life of the partnerships, distributions are received as underlying partnership investments are realized. It is expected that the underlying assets of the funds will be liquidated over 10 years. It is probable all the investments in this type will be sold at an amount different from the NAV per share (or its equivalent) of the BOI's ownership interest in partners' capital.

<u>Core Real Estate</u> – This type includes funds that invest primarily in core real estate, which makes equity investments in operating and substantially leased institutional quality real estate in traditional property types (apartments, office, retail, industrial, and hotel) via commingled funds. The primary investment objectives of these core real estate funds are to invest in real estate that will generate income from predictable sources of revenue and not to realize gains on the underlying assets. This investment type receives distributions of generated income and occasionally through the liquidation of the underlying assets of the fund. The fair values of the investments in this category have been determined using the NAV per share (or its equivalent) of the BOI's ownership interest in the partners' capital. Redemption of these investments is restricted based on the availability of cash flow arising from investment transactions, sales, and other fund operations occurring in the ordinary course of business. Therefore, requested redemptions from a fund will be redeemed as funds become available.

Non-Core Real Estate — This type includes private partnership funds that primarily invest in value added and opportunistic real estate funds. These funds assume more risk than the core real estate funds to achieve a greater return on investment. Returns are driven both by current income and by expected capital appreciation. This investment type receives distributions of generated income and occasionally through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the funds will be liquidated over 7 to 10 years. The fair values of the investments in this category have been determined using the NAV per share (or its equivalent) of the BOI's ownership interest in the fund.

<u>Real Assets</u> – This type includes private partnership funds that primarily invest in timber, energy, broad natural resource funds, and infrastructure. This investment type receives distributions of generated income and occasionally through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the funds will be liquidated over 10 to 20 years. The fair values of the investments in this category have been determined using the NAV per share (or its equivalent) of the BOI's ownership interest in the partners' capital.

Real Estate High Income Fund – This type consists of predominantly of real estate related instruments with an emphasis in U.S. corporate credits, whether in the form of bonds or loans that are rated below investment grade. These assets carry a higher risk of default than investment grade securities and accordingly provide a higher level of income or yield commensurate with that risk. The fair values of the investments of this type have been determined using the NAV per share (or its equivalent) of the investments.

As of June 30, 2022, the exchange date, BOI's foreign currency exposure by denomination and investment type are reported, in U.S. dollars, at fair value and is limited to CAPP. The following table excludes the foreign investments denominated in U.S. dollars for the American Depository Receipts (ADRs), sovereign debt, and commingled index funds.

Foreign Currency Exposure by Country

Investment Type in U.S. Dollar Equivalent

(in thousands)

Investments in alternative financial assets are usually made via limited partnership agreements that involve many limited partners and a general partner who is responsible for all investment decisions. The limited partners make an original commitment, after which capital is called as needed by the general partner to make investments. These agreements will usually last for a minimum of 10 years. The following table shows the BOI's remaining commitments as of June 30, 2022 to active alternative investment funds with approximately \$2.4 billion related to CAPP and \$88.0 million related to TFIP.

Commitments to Fund Managers (in thousands)

| Pension Asset Class | Co | Original ommitment | Commitment Remaining | | | | |
|---------------------|----|--------------------|-------------------------|-----------|--|--|--|
| Private Investments | \$ | 3,831,878 | \$ | 1,223,193 | | | |

| Total | \$ | 7,785,417 | \$ | 2,441,638 | | | |

D. Investments

BOI was created by the State Legislature to manage the Unified Investment Program established by the State Constitution. Long-term investments are administered by the following agencies, as allowed by state law, Section 17-6-201, MCA:

Long-term Investments

| Department | Percent Administered |
|-----------------------------------------------------------|-------------------------|
| Board of Investments | 45.58 % |
| Universities | 21.26 |
| MPERA (Montana Public Employee Retirement Administration) | 25.79 |
| College Savings Plan | 4.91 |
| Montana Board of Housing | 1.55 |
| Other (1) | 0.91 |
| Total | 100.00 % |

Other consists of the Commissioner of Higher Education, the Department of Administration, the Department of Revenue, and State Auditor.

BOI must employ the "Prudent Expert Rule" in managing the State's investment portfolio. Investments are presented at fair value. Investment fair values for publicly traded securities are determined primarily by reference to market prices supplied to BOI's custodial bank or trustee. State investments are categorized within the fair value hierarchy established by GASB Statement No. 72.

The PERS Defined Contribution Retirement Plan (DCRP) and the Deferred Compensation Plan's Montana Fixed Fund is a stable value investment option administered and monitored by the Public Employees' Retirement Board (PERB) with input from the Employee Investment Advisory Committee and the investment consultant. PERB has established an investment policy for the Montana Fixed Fund to identify objectives, investment guidelines, and outline the responsibility of the outside vendors. This investment policy includes stable value manager Pacific Investment Management Company LLC (PIMCO), custodial bank State Street Bank and Trust Company (State Street), and third-party synthetic Guaranteed Interest Contract (GIC) providers, Transamerica Life Insurance Company (Transamerica), Prudential Insurance Company of America (Prudential), and Voya Retirement Insurance and Annuity Company (Voya). All money invested in the Montana Fixed Fund investment option of the PERS-DCRP and Deferred Compensation Plan is held in a Pooled Trust. The third party recordkeeper, Empower Retirement™, tracks and reports the daily trading and valuations of all investment options, including the assets held by the individual mutual fund companies.

- (1) The credit quality rating and duration are included in the above sections for the rated investments.
- (2) For more detail, refer to component unit separately issued financial statements.
- (3) The total for Montana Mortgages and Loans does not include Coal Severance Tax loans, which was included in SMA financial statements. This amount of \$7.4 million is considered advances to other funds/component units and amounts due from component units in the Coal Tax Severance column of the governmental fund financial statements.

As of June 30, 2022, the fair value of the investments on loan was \$126.8 million. Collateral provided for the investments on loan totaled \$130.1 million consisting of \$11.2 million in cash and \$118.9 million in securities.

\$1.6 billion of SMA is included and also reported in the Investments Measured at Fair Value and NAV table.

NOTE 4. DISAGGREGATION OF ACCOUNTS RECEIVABLE, ACCOUNTS PAYABLE, DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

Accounts receivable, long-term loans/notes/leases receivable, accounts payable, deferred outflows of resources, and deferred inflows of resources on the Statement of Net Position as of June 30, 2022, consisted of the following (in thousands):

A. Accounts Receivables

| Land | \$ 800 | \$ _ | \$ _ | \$ 800 |
| Construction work in progress | 1,303 | 3,480 | (953) | 3,830 |
| Other | 3,213 | 358 | (145) | 3,426 |
| Total capital assets not being depreciated | 5,316 | 3,838 | (1,098) | 8,056 |
| Capital assets being depreciated: | | | | |
| Infrastructure | 1,175 | _ | _ | 1,175 |
| Land improvements | 3,830 | _ | _ | 3,830 |
| Buildings/improvements | 16,379 | 14 | _ | 16,393 |
| Equipment | 9,846 | 349 | (235) | 9,960 |
| Right to use lease buildings (2) | 4,067 | _ | _ | 4,067 |
| Total capital assets being depreciated | 35,297 | 363 | (235) | 35,425 |
| Less accumulated depreciation and amortization for: | | | | |
| Infrastructure | (783) | (19) | _ | (802) |
| Land improvements | (2,362) | (149) | _ | (2,511) |
| Buildings/improvements | (7,700) | (583) | _ | (8,283) |
| Equipment | (7,756) | (337) | 210 | (7,883) |
| Right to use lease buildings | | (404) | _ | (404) |
| Total accumulated depreciation and amortization | (18,601) | (1,492) | 210 | (19,883) |
| Total capital assets being depreciated, net | 16,696 | (1,129) | (25) | 15,542 |
| Intangible assets | 3,432 | _ | (1,664) | 1,768 |
| Business-type activities capital assets, net | \$ 25,444 | \$ 2,709 | \$ (2,787) | \$ 25,366 |

The increases and decreases noted above include adjustments related to prior periods and corrections of errors. The beginning balance has been restated for implementation of GASB Statement No. 87.

Total right to use lease capital assets (in thousands):

| | Right to Use Lease Capital Assets | Right to Use Lease Accumulated Amortization | Right to Use Lease Capital Assets, Net |
|--------------------------|-----------------------------------------|------------------------------------------------------|----------------------------------------------|
| Governmental activities | \$ 164,434 | \$ (21,276) | \$ 143,158 |
| Business-type activities | 4,067 | (404) | 3,663 |
| Total | \$ 168,501 | \$ (21,680) | \$ 146,821 |

Depreciation expense for capital assets and amortization expense for right to use lease assets were charged to governmental functions as follows (in thousands):

| | Dep | reciation (1) | L | Right to Use Lease Asset Amortization | Total |
|--------------------------------------------------------------------------------------|-----|---------------|----|---------------------------------------------|---------------|
| General government | \$ | 9,691 | \$ | 3,310 | \$ 13,001 |
| Public safety | | 9,565 | | 5,120 | 14,685 |
| Transportation, including depreciation of the highway system maintained by the State | | 217,313 | | _ | 217,313 |
| Health and human services | | 4,043 | | 8,780 | 12,823 |
| Education | | 177 | | 435 | 612 |
| Natural resources, including depreciation of the state's dams | | 11,425 | | 2,633 | 14,058 |
| Depreciation on capital assets held by the internal service funds | | 14,128 | | 998 | 15,126 |
| Total – Governmental Activities | \$ | 266,342 | \$ | 21,276 | \$ 287,618 |

Depreciation expenses noted above include adjustments related to prior periods and correction of errors.

Depreciation expense for capital assets and amortization expense for right to use lease assets were charged to business-type activities as follows (in thousands):

| | Depre | eciation (1) | Right to Lease A Amortiz | Asset | Total |
|----------------------------------|-------|--------------|--------------------------------|-------|-------------|
| Liquor Stores | \$ | 92 | \$ | 30 | \$ 122 |
| State Lottery | | 36 | | 207 | 243 |
| Prison Funds | | 386 | | _ | 386 |
| West Yellowstone Airport | | 515 | | _ | 515 |
| Other Enterprise Funds | | 59 | | 167 | 226 |
| Total – Business-type Activities | \$ | 1,088 | \$ | 404 | \$ 1,492 |

⁽¹⁾ Depreciation expenses noted above include adjustments related to prior periods and correction of errors.

According to GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries, a capital asset is considered impaired when its service utility has declined, enactment or approval of laws or regulations, or other changes in environmental factors, technological changes or evidence of obsolescence, changes in the manner or duration of use of a capital asset. In fiscal year 2022, the Department of Transportation replaced a portion of the highway system due to these factors, resulting in a \$124.4 million impairment loss, which is included in the Transportation functional expense line on the Statement of Activities.

NOTE 6. RETIREMENT PLANS

A. General

The funding policies for each plan provide for periodic employee, employer, and State nonemployer contributions at rates specified by state law. An actuary determines the actuarial implications of the funding requirement in an annual actuarial valuation. The actuarial method used to determine the implications of the statutory funding level is the Entry Age Actuarial Cost Method, with both normal cost and amortization of the unfunded actuarial liability determined as a level percentage of payroll expense. Benefits are established by state law and can only be amended by the Legislature.

Montana State Fund (MSF), a discretely presented component unit of the State, by statute, prepares separately issued financial statements on a calendar year-end basis. Due to the difference in the reporting period, there will be a variance between the note disclosures and the financial statements for some pension-related items.

Public Employees' Retirement Board

The Public Employees' Retirement Board (PERB) oversees eight defined benefit plans: Public Employees' Retirement System-Defined Benefit Retirement Plan (PERS-DBRP); Judges' Retirement System (JRS); Highway Patrol Officers' Retirement System (HPORS); Sheriffs' Retirement System (SRS); Game Wardens' and Peace Officers' Retirement System (GWPORS); Municipal Police Officers' Retirement System (MPORS); Firefighters' Unified Retirement System (FURS); and Volunteer Firefighters' Compensation Act (VFCA). The PERB also oversees one defined contribution plan: Public Employees' Retirement System-Defined Contribution Retirement Plan (PERS-DCRP), and the education funds related to the pension plans. All benefit plans, defined benefit and defined contribution, are administered by the Montana Public Employees' Retirement Administration (MPERA). Separately issued financial statements and actuarial reports can be obtained at 100 North Park, Suite 200, PO Box 200131, Helena, MT 59620-0131. The financial statements and the latest actuarial valuation may also be obtained here: http://mpera.mt.gov/. The financial statements for the PERS-DBRP include activity for the defined benefit plan and the associated education fund. The PERS-DCRP financial statements include activity for the defined contribution plan and the associated education fund.

The PERB is an independent, seven-member board, appointed by the Governor. The members are assigned five-year, staggered terms. The PERB consists of two members at large, two active defined benefit public employees, one active defined contribution public employee, one member experienced in investments, and one retired public employee. The PERB approves the annual operating budget, developed by MPERA management, before the beginning of the fiscal year. As governed by statute, the PERB's defined benefit administrative expenses may not exceed 1.5% of the total defined benefit plan retirement benefits paid. In addition, the PERB decides legislative policy and priorities, hires the executive director, establishes the policies and procedures that govern operations at MPERA, and hears and rules on appeal matters of disabilities, retirees, and members. PERB members do not receive compensation for their service to the MPERA but are reimbursed for necessary expenses incurred while serving.

All defined benefit pension plans provide retirement, disability, and death benefits to the plan members and their beneficiaries. The PERS-DCRP Disability OPEB Plan provides a defined benefit for disabled members of the PERS-DCRP. Beneficiaries do not receive disability benefits but may attain retirement benefits from the PERS-DCRP. A summary of the plan eligibility and benefits are found in the Summary of Benefits sections throughout Note 6.

Teachers' Retirement System

The Teachers' Retirement System (TRS) is a defined benefit plan administered by the Teachers Retirement Board (TRB). The plan prepares a publicly issued annual comprehensive financial report that includes financial statements and required supplementary information for TRS. Separately issued financial statements, actuarial valuations, and experience studies can be obtained at 100 N Park Avenue, Suite 110, PO Box 200139, Helena, MT 59620-0139, or can be found online at https://trs.mt.gov/.

The TRB consists of six members, all of whom are appointed by the Governor. Three TRB members must be teaching professionals who, when appointed, are active members of TRS; at least one of them must be an active classroom teacher. One TRB member must be a retired teacher who was a member of TRS at the time of retirement. Two TRB members are appointed from the public at large. TRB members serve staggered, five-year terms. Three TRB members constitute a quorum.

A summary of the number of participating employer and nonemployer contributing entities as of June 30, 2022, follows:

| Classification of Participant | GWPORS | PERS- DBRP | PERS- DCRP | SRS | MPORS | FURS | VFCA | TRS |
|---------------------------------|--------|---------------|---------------|-----|-------|------|------|-----|
| Employer | 7 | 553 | 344 | 57 | 36 | 27 | 225 | 362 |
| Nonemployer contributing entity | | 1 | _ | _ | 1 | 1 | 1 | 1 |
| Total Participants | 7 | 554 | 344 | 57 | 37 | 28 | 226 | 363 |

There are 630 State employees who are eligible to participate in defined benefit pension plans, other than the plans listed above.

B. Summary of Significant Accounting Policies

The MPERA prepares its financial statements using fund accounting principles and the accrual basis of accounting. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements. Plan member contributions, employer contributions, and related receivables are recognized as revenues in the accounting period in which they are earned and become measurable, pursuant to formal commitments and statutory requirements. Benefit payments and refunds/distributions are recognized in the accounting period in which they are due and payable in accordance with the terms of each plan. Administrative and other expenses, and the associated liabilities, are recognized in the period the liability is incurred. Administrative expenses are financed through investment earnings on the pension trust fund for the defined benefit plans. Interfund receivables and payables exist at year-end for defined benefit administrative expenses that are accounted for within PERS-DBRP and allocated to the other defined benefit plans at year-end. Costs specifically related to the computer system upgrades are charged directly to the individual plans. The MPERA adheres to all applicable Governmental Accounting Standards Board (GASB) statements.

The TRS prepares its financial statements using the accrual basis of accounting. For the purposes of measuring the net pension liability, deferred inflows of resources, and deferred outflows of resources related to pensions, pension expense, information about the fiduciary net position of the TRS, and additions to/deductions from TRS's fiduciary net position, the items have been determined on the same accrual basis as they are reported by the TRS. For this purpose, plan contributions are recognized as of employer payroll paid dates. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The TRS adheres to all applicable GASB statements.

The pension trust fund financial statements presented in this report are prepared using the accrual basis of accounting in the same manner as that described for the pension plan administrators above.

C. Summary of All Public Employee Retirement Plans

A summary of classes of members in JRS, HPORS, GWPORS, PERS-DBRP, SRS, MPORS, FURS, VFCA, TRS, and PERS-DCRP, covered by benefit terms at June 30, 2022, follows:

| Type of Plan for Reporting Purposes | Single | e-Employe Benefi | r Defined t | | Multi- Employer Defined Contribution | | | | | |
|------------------------------------------------------------------------|--------|---------------------|----------------|------------------------------|-----------------------------------------------|-------|-------|--------|--------|-----------|
| Plan Designation | JRS | HPORS (1) | GWPORS | PERS- DBRP ⁽²⁾ | SRS | MPORS | FURS | VFCA | TRS | PERS-DCRP |
| Classification of Member Active | 59 | 252 | 977 | 28,508 | 1,481 | 841 | 749 | 2,233 | 19,975 | 3,386 |
| Inactive entitled to, but not yet receiving, benefits or a refund: | _ | _ | _ | _ | _ | _ | _ | _ | _ | _ |
| Vested | 2 | 19 | 170 | 4,790 | 211 | 123 | 51 | 836 | 2,015 | 997 |
| Non-vested | 2 | 38 | 589 | 23,110 | 914 | 212 | 93 | 8,397 | 5,656 | 1,283 |
| Inactive members and beneficiaries currently receiving benefits: | _ | _ | _ | _ | _ | _ | _ | _ | _ | _ |
| Service retirements ⁽³⁾ | 69 | 345 | 430 | 24,481 | 786 | 880 | 674 | 1,517 | 15,203 | 152 |
| Disability retirements | _ | 3 | 3 | 102 | 31 | 25 | 13 | 1 | 183 | 10 |
| Survivor benefits ⁽⁴⁾ | 5 | 9 | 12 | 545 | 23 | 28 | 17 | 6 | 1,983 | 3 |
| Total membership | 137 | 666 | 2,181 | 81,536 | 3,446 | 2,109 | 1,597 | 12,990 | 45,015 | 5,831 |

⁽¹⁾ Includes Deferred Retirement Option Plan (DROP) in the Active count.

The following table represents the aggregate proportional share of the pension amounts for all defined benefit plans from the perspective of the State as the employer and/or nonemployer contributing entity for primary government, discretely presented component units, and fiduciary component units reported as of June 30, 2022, based on the actuarial valuation as of June 30, 2020 (amounts presented in thousands):

Aggregate Pension Amounts - All Defined Benefit Plans

| | Primary Government | | | | | | | Diagrafalı | | | | | |
|---------------------------------------------------------------------|----------------------|----------|----|---------------------------------------------------|----|--------------------------------|----|---------------------------------------------------|----|---------------------------------|----|-----------|--|
| | State as Employer | | | State as Nonemployer Contributing Entity | | Total Primary Government | | Discretely Presented Component Units (1) | | Fiduciary Component Units | | TOTAL | |
| Net Pension Liabilities | \$ | 914,227 | \$ | 1,012,358 | \$ | 1,926,585 | \$ | 160,424 | \$ | 1,417 | \$ | 2,088,426 | |
| (Net Pension Assets) | | (59,202) | | _ | | (59,202) | | _ | | _ | | (59,202) | |
| Pension Deferred Outflows of Resources | | 366,393 | | 300,829 | | 667,222 | | 71,033 | | 442 | | 738,697 | |
| Pension Deferred Inflows of Resources | | 542,727 | | 425,159 | | 967,886 | | 68,309 | | 584 | | 1,036,779 | |
| Pension Expense or Nonemployer Contributing Entity Grant Expense | | 87,976 | | 138,541 | | 226,517 | | 22,180 | | 140 | | 248,837 | |

⁽¹⁾ MSF pension deferred outflows of resources difference of \$915.6 thousand is due to MSF reporting on a calendar year-end basis on financial statements with a 6-month subsequent contribution while a 12-month subsequent contribution is disclosed in Note 6.

The inactive non-vested count includes dormant accounts that were previously not counted.

⁽³⁾ Includes "Alternative Payees" and "Death After Retirement" benefit payments. As of Fiscal Year 2019, the TRS plan stopped reporting separate benefit recipient categories.

⁽⁴⁾ Includes "Death Before Retirement" benefit payments.

⁽⁵⁾ The VFCA Inactive Non-Vested count is being included in the membership count. Prior to Fiscal Year 2022 the count was not included in the actuarial funding valuation.

D. Defined Benefit Retirement Plans

The information below includes all defined benefit retirement plans administered by MPERA and TRS.

(1) Plan Descriptions and Funding Policies

<u>Judges' Retirement System</u> – The JRS, administered by the MPERA, is a single-employer defined benefit plan established in 1967 and governed by Title 19, chapters 2 & 5, MCA (Montana Code Annotated). This plan provides retirement benefits for all Montana judges of the district courts, justices of the Supreme Court, the Chief Water Judge, and the Associate Water Judge. Benefits are established by state law and can only be amended by the Legislature. The JRS provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and compensation. Member rights are vested after five years of service.

Summary of Benefits

Member's current salary¹ or highest average compensation (HAC)²

¹Hired prior to July 1, 1997, and non-Guaranteed Annual Benefit Adjustment (GABA) – monthly compensation at time of retirement;

²Hired on or after July 1, 1997, or electing GABA – HAC during any consecutive 36 months; ²Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's HAC.

Eligibility for benefit

Age 60, 5 years of membership service;

Any age with 5 years of membership service – involuntary termination, actuarially reduced.

Vesting

5 years of membership service.

Monthly benefit formula

3.33% of current salary¹ (non-GABA) or HAC² (GABA) per year of service credit for the first 15 years of service credit, plus 1.785% per year for each year after 15 years.

Guaranteed Annual Benefit Adjustment (GABA)

Hired on or after July 1, 1997, or those electing GABA – after the member has completed 12 full months of retirement, the member's benefit increases by a maximum of 3.0% each January, inclusive of all other adjustments to the member's benefit.

Minimum benefit adjustment (non-GABA)

If hired prior to July 1, 1997, and member did not elect GABA – current salary of an active member in same position is used in the calculation of the monthly benefit each time the Legislature increases salaries for active judges.

Contributions to the Plan

Rates are specified by state law for periodic employee and employer contributions. The Legislature has the authority to establish and amend contribution rates to the plan.

Member contributions to the system – Contributions are deducted from each member's salary and remitted by the participating employer. An individual account is established for each member's contributions and interest allocations until a retirement or refund request is processed. Plan members are required to contribute 7.0% of the member's monthly compensation.

Employer contributions to the system – During the 2021 Legislative Session, Senate Bill 175 was passed suspending the employer contributions beginning the first full pay period occurring in July 2021 through the last full pay period occurring in June 2023. Beginning July

1, 2023, employer contributions will then resume at a reduced rate of 14.00% down from the current statutory rate of 25.81%. If the funded ratio of the JRS drops below 120%, the employer contribution rate will return to 25.81%. This impacts measurement date June 30, 2022, for employer reporting date June 30, 2023.

<u>Highway Patrol Officers' Retirement System</u> – The HPORS, administered by the MPERA, is a single-employer defined benefit plan established on July 1, 1945, and governed by Title 19, chapters 2 & 6, MCA. This plan provides retirement benefits to all members of the Montana Highway Patrol, including supervisory personnel. Benefits are established by state law and can only be amended by the Legislature. The HPORS provides retirement, disability, and death benefits to plan members and their statutory beneficiaries. Benefits are based on eligibility, years of service, and highest average compensation. Member rights for death and disability are vested immediately. All other member rights are vested after 5 or 10 years of service.

Section 19-6-709, MCA provides eligible members retired prior to July 1, 1991, or their survivors, an annual supplemental lump-sum payment distributed each September. This lump-sum payment is funded by a statutory appropriation requested by the PERB from the General Fund. Factors impacting eligibility include the number of years the recipient has received a service retirement or disability benefit, the recipient's age, and whether the recipient is employed in a position covered by a retirement system under Title 19, MCA.

Deferred Retirement Option Plan (DROP)

Beginning October 1, 2015, eligible members of HPORS can participate in the DROP by filing a one-time irrevocable election with the PERB. The DROP is governed by Title 19, Chapter 6, Part 10, MCA. A member must have completed at least twenty years of membership service to be eligible. They may elect to participate in the DROP for a minimum of one month and a maximum of 60 months and may only participate in the DROP once. A participant remains a member of the HPORS, but will not receive membership service or service credit in the system for the duration of the member's DROP period. During participation in the DROP, all mandatory employer contributions continue to the retirement system; mandatory employee contributions are deposited to the member's DROP account. A monthly benefit is calculated based on salary and years of service to date as of the beginning of the DROP period. The monthly benefit is paid into the member's DROP account until the end of the DROP period. At the end of the DROP period, the participant may receive the balance of the DROP account in a lump-sum payment or in a direct rollover to another eligible plan, as allowed by the Internal Revenue Service (IRS). If the participant continues employment after the DROP period ends, they will again accrue membership service and service credit. The DROP account cannot be distributed until employment is formally terminated. As of June 30, 2022, the balance held by MPERA for HPORS DROP participants was approximately \$6.2 million.

Summary of Benefits

Member's highest average compensation (HAC)

Hired prior to July 1, 2013 – HAC during any consecutive 36 months;

Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's HAC.

Eligibility for benefit

20 years of membership service, regardless of age.

Early Retirement

Hired prior to July 1, 2013 – 5 years of membership service, actuarially reduced from age 60.

Hired on or after July 1, 2013 – 10 years of membership service, actuarially reduced from age 60.

Second Retirement (applies to retirement system members who return on or after July 1, 2017, to active service covered by the system from which they retired):

- a. If the member works more than 480 hours in a calendar year and accumulates less than 5 years of service credit before terminating again, the member:
 - is not awarded service credit for the period of reemployment;
 - is refunded the accumulated contributions associated with the period of reemployment;
 - starting the first month following termination of service receives the same retirement benefit previously paid to the member; and
 - does not accrue post-retirement benefit adjustments during the term of reemployment but receives a GABA in January immediately following the second retirement.
- b. If the member works more than 480 hours in a calendar year and accumulates at least 5 years of service credit before terminating again, the member:
 - is awarded service credit for the period of reemployment;
 - starting the first month following termination of service, receives:
 - the same retirement benefit previously paid to the member; and
 - a second retirement benefit for the period of reemployment calculated based on the laws in effect as of the member's rehire date; and
 - does not accrue post-retirement benefit adjustments during the term of reemployment but receives a GABA:
 - on the initial retirement benefit starting January immediately following second retirement; and
 - on the second retirement benefit starting in January after receiving that benefit for at least 12 months
- c. A member who returns to covered service is not eligible for a disability benefit.

Vesting

Hired prior to July 1, 2013 – 5 years of membership service.

Hired on or after July 1, 2013 – 10 years of membership service.

Monthly benefit formula

Retire prior to July 1, 2013 – 2.5% of HAC per year of service credit.

Retire on or after July 1, 2013 – 2.6% of HAC per year of service credit.

Guaranteed Annual Benefit Adjustment (GABA)

Hired on or after July 1, 1997, or those electing GABA – after the member has completed 12 full months of retirement, the member's benefit increases by a maximum of 3.0% each January, inclusive of all other adjustments to the member's benefit.

Hired on or after July 1, 2013 – after the member has completed 36 full months of retirement, the member's benefit increase by a maximum of 1.5% each January, inclusive of all other adjustments to the member's benefit.

Minimum Monthly Benefit (non-GABA)

If hired prior to July 1, 1997, and member did not elect GABA – the minimum monthly benefit is equal to 2% of the service credit multiplied by the current base compensation of a probationary highway patrol officer. Any annual increase is limited to 5.0% over the current benefit and may not exceed 60% of the current base salary of a probationary officer.

Contributions to the Plan

Rates are specified by state law for periodic employee and employer contributions. The Legislature has the authority to establish and amend contribution rates to the plan.

Member contributions to the system – Contributions are deducted from each member's salary and remitted by participating employer.

Hired prior to July 1, 1997, and not electing GABA – Plan members are required to contribute 13.00%.

Hired after June 30, 1997, and electing GABA – Plan members are required to contribute 13.05%.

Employee contributions must be paid on working retirees who return to covered employment for 480 or more hours in a calendar year.

Employer contributions to the system – As the employer, the State is required to contribute 38.33% of a member's compensation. The first 28.15% is payable from the same sources used to pay a member's compensation. The remaining amount, equal to 10.18%, is payable from the General Fund through a statutory appropriation. Employer contributions and state contributions (if any) must be paid on all working retirees.

<u>Game Wardens' & Peace Officers' Retirement System</u> – The GWPORS, administered by the MPERA, is a multi-employer, cost-sharing defined benefit plan established in 1963, and governed by Title 19, chapters 2 & 8, MCA. This plan provides retirement benefits to all persons employed as a game warden, warden supervisory personnel, or state peace officer. Benefits are established by state law and can only be amended by the Legislature. The GWPORS provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and highest average compensation.

The State of Montana and its discretely presented component units are the only employers who participate in the GWPORS. Therefore, while the plan is considered to be a multi-employer, cost-sharing defined benefit plan for actuarial valuation purposes, in accordance with GASB 68, the plan is treated as if it were a single-employer defined benefit pension plan type for financial reporting.

Summary of Benefits

Member's highest average compensation (HAC)

Hired prior to July 1, 2011 – highest average compensation during any consecutive 36 months;

Hired on or after July 1, 2011 – highest average compensation during any consecutive 60 months:

Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's HAC.

Eligibility for benefit

Service Retirement

Age 50, 20 years of membership service.

Early Retirement (reduced benefit)

Age 55 with 5 years of membership service.

Vestina

5 years of membership service.

Monthly benefit formula

2.5% of HAC per year of service credit.

Guaranteed Annual Benefit Adjustment (GABA)

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, inclusive of all other adjustments to the member's benefit:

- 3.0% for members hired prior to July 1, 2007
- 1.5% for members hired on or after July 1, 2007

Contributions to the Plan

Rates are specified by state law for periodic employee and employer contributions. The Legislature has the authority to establish and amend contribution rates to the plan.

Member contributions to the system – Contributions are deducted from each member's salary and remitted by participating employers. Plan members are required to contribute 10.56% of member's compensation. Employee contributions must be paid on working retirees who return to covered employment for 480 or more hours in a calendar year.

Employer contributions to the system – State agency and university employers are required to contribute 9.0% of a member's compensation. Employer contributions and state contributions (if any) must be paid on all working retirees.

<u>Public Employees' Retirement System - Defined Benefit Retirement Plan</u> – The PERS-DBRP, administered by the MPERA, is a multiple-employer, cost-sharing plan established July 1, 1945, and governed by Title 19, Chapters 2 & 3, MCA. This plan covers employees of the State and local governments, and certain employees of the Montana University System and school districts.

All new members are initially members of the PERS-DBRP and have a 12-month window during which they may choose to remain in the PERS-DBRP or join the Public Employees' Retirement System-Defined Contribution Retirement Plan (PERS-DCRP) by filing an irrevocable election. Members may not be participants of both the defined contribution and defined benefit retirement plans. All new members from the universities also have a third option to join the university system's Montana University System-Retirement Program (MUS-RP).

The PERS-DBRP provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are established by state law and can only be amended by the Legislature. Benefits are based on eligibility, years of service, and highest average compensation.

Summary of Benefits

Member's highest average compensation (HAC)

Hired prior to July 1, 2011 - HAC during any consecutive 36 months;

Hired on or after July 1, 2011 – HAC during any consecutive 60 months;

Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's HAC.

Eligibility for benefit

Service retirement:

Hired prior to July 1, 2011 -

Age 60, 5 years of membership service;

Age 65, regardless of membership service; or

Any age, 30 years of membership service.

Hired on or after July 1, 2011 -

Age 65, 5 years of membership service;

Age 70, regardless of membership service.

Early retirement, actuarially reduced:

Hired prior to July 1, 2011 -

Age 50, 5 years of membership service; or

Any age, 25 years of membership service.

Hired on or after July 1, 2011 – Age 55, 5 years of membership service.

Second retirement (all require retuning to PERS-covered employment or PERS service):

Retire before January 1, 2016, and accumulate less than 2 years' additional service credit or retire on or after January 1, 2016, and accumulate less than 5 years' additional service credit:

- A refund of member's contributions from second employment plus regular interest (0.77%);
- No service credit for second employment;
- · Start the same benefit amount the month following termination; and
- GABA starts again in the January immediately following second retirement

Retire before January 1, 2016, and accumulate at least 2 years of additional service credit:

- A recalculated retirement benefit based on laws in effect at second retirement; and
- GABA starts the January after receiving recalculated benefit for 12 months

Retire on or after January 1, 2016, and accumulate 5 or more years of additional service credit:

- The same retirement benefit as prior to their return to service;
- A second retirement benefit for second period of service based on laws in effect at second retirement;
- GABA starts on both benefits in the January after receiving the original and new benefit for 12 months

Vesting

5 years of membership service

Monthly benefit formula

Members hired prior to July 1, 2011 -

Less than 25 years of membership service: 1.785% of HAC per year of service credit; 25 years of membership service or more: 2% of HAC per year of service credit.

Members hired on or after July 1, 2011 -

Less than 10 years of membership service: 1.5% of HAC per year of service credit; 10 years or more, but less than 30 years of membership service: 1.785% of HAC per year of service credit;

30 years or more of membership service: 2% of HAC per year of service credit.

Guaranteed Annual Benefit Adjustment (GABA) – After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, inclusive of other adjustments to the member's benefit:

- 3.0% for members hired prior to July 1, 2007
- 1.5% for members hired between July 1, 2007 and June 30, 2013
- Members hired on or after July 1, 2013
 - 1.5% for each year PERS is funded at or above 90%;
 - 1.5% is reduced by 0.1% for each 2% PERS is funded below 90%; and,
 - 0% whenever the amortization period for PERS is 40 years or more.

Contributions to the Plan

Rates are specified by state law for periodic employee, employer, and nonemployer entity contributions. The Legislature has the authority to establish and amend contribution rates to the plan.

Member contributions to the system: Contributions are deducted from each member's salary and remitted by participating Employers. Plan members are required to contribute 7.90% of member's compensation. The 7.90% member contribution rate is temporary and

will be decreased to 6.9% on January 1 following actuary valuation results that show the amortization period has dropped below 25 years and would remain below 25 years following the reduction of both the additional Employer and additional member contribution rates.

Employer contributions to the system

State and University System employers are required to contribute 8.97% of member compensation.

Local government entities are required to contribution 8.87% of member compensation. School district employers contributed 8.60% of member compensation.

Per the 2013 Legislative Session's House Bill 454, section 4, effective July 1, 2013, PERS employer contributions temporarily increased 1%. Beginning July 1, 2014, employer contributions will increase an additional 0.1% a year over 10 years, through 2024. The Employer additional contributions, including the 0.27% added in 2007 and 2009, terminates on January 1 following actuary valuation results that show the amortization period of the PERS-DBRP has dropped below 25 years and would remain below 25 years following the reductions of both the additional employer and member contributions rates. As of January 1, 2022, the additional contributions will not be terminated.

Effective July 1, 2013, employers are required to make contributions on working retirees' compensation. Member contributions for working retirees are not required.

The portion of employer contributions allocated to the Plan Choice Rate (PCR) are included in the employer's reporting. The PCR was paid off effective March 2016 and the contributions previously directed to the PCR are now directed to member accounts.

Non-Employer Entity Contributions

Special Funding

The State contributes 0.1% of member compensation on behalf of local government entities.

The State contributes 0.37% of member compensation on behalf of school district entities.

The State contributes a statutory appropriation from the General Fund. Funding provided for the year ended June 30, 2021, totaled \$34.3 million.

<u>Sheriffs' Retirement System</u> – The SRS, administered by the MPERA, is a multiple-employer, cost-sharing defined benefit plan established July 1, 1974, and governed by Title 19, chapters 2 & 7, MCA. This plan provides retirement benefits to all Department of Justice criminal and gambling investigators hired after July 1, 1993, all detention officers hired after July 1, 2005, and to all Montana sheriffs. Benefits are established by state law and can only be amended by the Legislature. The SRS provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and highest average compensation.

Summary of Benefits

Member's highest average compensation (HAC)

Hired prior to July 1, 2011 – highest average compensation during any consecutive 36 months;

Hired on or after July 1, 2011 – highest average compensation during any consecutive 60 months

Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's HAC.

Eligibility for benefit

Service Retirement: 20 years of membership service, regardless of age.

Early Retirement: Age 50, 5 years of membership service, actuarially reduced.

Second Retirement (applies to retirement system members re-employed in a SRS position on or after July 1, 2017):

- a. If the member works more than 480 hours in a calendar year and accumulates less than 5 years of service credit before terminating again, the member:
 - is not awarded service credit for the period of reemployment;
 - is refunded the accumulated contributions associated with the period of reemployment;
 - starting the first month following termination of service receives the same retirement benefit previously paid to the member; and
 - does not accrue post-retirement benefit adjustments during the term of reemployment but receives a GABA in January immediately following the second retirement.
- b. If the member works more than 480 hours in a calendar year and accumulates at least 5 years of service credit before terminating again, the member:
 - is awarded service credit for the period of reemployment;
 - starting the first month following termination of service receives:
 - the same retirement benefit previously paid to the member; and
 - a second retirement benefit for the period of reemployment calculated based on the laws in effect as of the member's rehire date; and
 - does not accrue post-retirement benefit adjustments during the term of reemployment but receives a GABA:
 - on the initial retirement benefit starting in January immediately following second retirement; and
 - on the second retirement benefit starting in January after receiving that benefit for at least 12 months
- c. A member who returns to covered service is not eligible for a disability benefit.

Vesting

5 years of membership service

Monthly benefit formula

2.5% of HAC per year of service

Guaranteed Annual Benefit Adjustment (GABA)

After the member has completed 12 full months of retirement, the member's benefit increases by the applicable percentage (provided below) each January, inclusive of all other adjustments to the member's benefit.

- 3.0% for members hired prior to July 1, 2007
- 1.5% for members hired on or after July 1, 2007

Contributions to the Plan

Rates are specified by state law for periodic employee and employer contributions and are a percentage of the member's compensation. The Legislature has the authority to establish and amend contribution rates to the plan.

Member contributions to the system – Contributions are deducted from each member's salary and remitted by participating employers. Plan members are required to contribute 10.495% of member's compensation. Member contributions must be paid on working retirees who return to covered employment for 480 or more hours in a calendar year.

Employer contributions to the system – The employers are required to contribute 13.115% of member compensation. Employer contributions are required to be paid on working retiree compensation.

Municipal Police Officers' Retirement System – The MPORS, administered by the MPERA, is a multiple-employer, cost-sharing defined benefit plan that was established in 1974 and is governed by Title 19, chapters 2 & 9, MCA. This plan covers all municipal police officers employed by first- and second-class cities and other cities that adopt the plan. Benefits are established by state law and can only be amended by the Legislature. The MPORS provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and final average compensation.

Deferred Retirement Option Plan (DROP)

Beginning July 2002, eligible members of the MPORS can participate in the DROP by filing a one-time irrevocable election with the PERB. The DROP is governed by Title 19, Chapter 9, Part 10, MCA. A member must have completed at least twenty years of membership service to be eligible. They may elect to participate in the DROP for a minimum of one month and a maximum of 60 months and may only participate in the DROP once. A participant remains a member of the MPORS, but will not receive membership service or service credit in the system for the duration of the member's DROP period. During participation in the DROP, all mandatory contributions continue to the retirement system. A monthly benefit is calculated based on salary and years of service to the date of the beginning of the DROP period. The monthly benefit is paid into the member's DROP account until the end of the DROP period. At the end of the DROP period, the participant may receive the balance of the DROP account in a lump-sum payment or a direct rollover to another eligible plan, as allowed by the IRS. If the participant continues employment after the DROP period ends, they will again accrue membership service and service credit. The DROP account cannot be distributed until employment is formally terminated. As of June 30, 2022, the balance held by MPERA for MPORS DROP participants was approximately \$9.7 million.

The State is not an employer participant in the MPORS plan. However, because the PERB is a fiduciary component unit of the State, this ACFR presents certain information to help ensure compliance with GASB 67. In addition, the State provides nonemployer entity contributions classified as special funding in accordance with GASB 68. Disclosures made in this financial report for MPORS are meant to reflect the aforementioned relationships.

Summary of Benefits

Member's final average compensation (FAC)

Hired prior to July 1, 1977 – average monthly compensation of final year of service;

Hired on or after July 1, 1977 – final average compensation (FAC) for last consecutive 36 months.

Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's FAC.

Eligibility for benefit

Service Retirement: Age 50, with 5 years of membership service, or 20 years of membership service, regardless of age.

Second Retirement: Age 50, reemployed in a MPORS position

Vesting

Death and disability rights are vested immediately. 5 years of membership service.

Monthly benefit formula

2.5% of FAC per year of service credit.

Second retirement benefit formula for members re-employed in a MPORS position after July 1, 2017:

- (1) If the member works more than 480 hours in a calendar year and accumulates less than 5 years of service credit before terminating again, the member:
- a. Is not awarded service credit for the period of reemployment;
- b. Is refunded the accumulated contributions associated with the period of reemployment;
- c. Starting the first month following termination of service receives the same retirement benefit previously paid to the member; and
- d. Does not accrue post-retirement benefit adjustments during the term of reemployment but receives a Guaranteed Annual Benefit Adjustment (GABA) in January immediately following second retirement.
- (2) If the member works more than 480 hours in a calendar year and accumulates at least 5 years of service credit before terminating again, the member:
- a. Is awarded service credit for the period of reemployment;
- b. Starting the first month following termination of service receives:
 - The same retirement benefit previously paid to the member, and
 - ii. A second retirement benefit for the period of reemployment calculated based on the laws in effect as of the member's rehire date; and
- c. Does not accrue post-retirement benefit adjustments during the term of reemployment but receives a GABA:
 - i. On the initial retirement benefit in January immediately following second retirement, and
 - ii. On the second retirement benefit starting in January after receiving that benefit for at least 12 months.
- (3) A member who returns to covered service is not eligible for a disability benefit.

Guaranteed Annual Benefit Adjustment (GABA)

Hired on or after July 1, 1997, or those electing GABA – after the member has completed 12 full months of retirement, the member's benefit increases by a maximum of 3% each January, inclusive of all other adjustments to the member's benefit.

Minimum benefit adjustment (non-GABA) If hired before July 1, 1997, and member did not elect GABA – the monthly retirement, disability, or survivor's benefit may not be less than 50% of the compensation of a newly confirmed officer of the employer where the member was last employed.

Contributions to the Plan

Rates are specified by state law for periodic employee, employer, and nonemployer entity contributions. The Legislature has the authority to establish and amend contribution rates to the plan.

Member contributions – Contribution rates are dependent upon the date of hire as a police officer. Contributions are deducted from each member's salary and remitted by the participating Employer. For fiscal year 2022:

- If hired prior to July 1, 1975, member contributions as a percentage of salary are 5.80%
- If hired after June 30, 1975, and prior to July 1, 1979, member contributions as a percentage of salary are 7.00%;
- If hired after June 30, 1979, and prior to July 1, 1997, member contributions as a percentage of salary are 8.50%; and,
- If hired on or after July 1, 1997, and for members electing GABA, member contributions as a percentage of salary are 9.00%.
- Employee contributions must be paid on working retirees who return to covered employment for 480 or more hours in a calendar year.

Employer Contributions – Employers are required to contribute 14.41% of a member's compensation. Employer contributions and state contributions (if any) must be paid on all working retirees.

Nonemployer Entity Contributions – The State contributes 29.37% of a member's compensation from the General Fund. These amounts are considered a special funding situation in accordance with GASB 68.

<u>Firefighters' Unified Retirement System</u> – The FURS, administered by the MPERA, is a multiple-employer, cost-sharing defined benefit plan established in 1981, and governed by Title 19, chapters 2 & 13, MCA. This system provides retirement benefits to firefighters employed by first- and second-class cities, other cities and rural fire district departments that adopt the plan, and to firefighters hired by the Montana Air National Guard on or after October 1, 2001. Benefits are established by state law and can only be amended by the Legislature. The FURS provides retirement, disability, and death benefits to plan members and their beneficiaries. Benefits are based on eligibility, years of service, and compensation.

Summary of Benefits

Member's compensation

Hired prior to July 1, 1981, and not electing GABA – highest monthly compensation (HMC); Hired after June 30, 1981, and those electing GABA – highest average compensation (HAC) during any consecutive 36 months.

Hired on or after July 1, 2013 – 110% annual cap on compensation considered as a part of a member's highest average compensation.

Part-time firefighter – 15% of regular compensation of a newly confirmed full-time firefighter.

Eligibility for benefit

Service retirement: 20 years of membership service, regardless of age.

Early Retirement: Age 50, 5 years of membership service.

Vesting

Death and disability rights are vested immediately

5 years of membership service.

Monthly benefit formula

Members hired prior to July 1, 1981, and not electing GABA are entitled to the greater of: 2.5% of HMC per year of service; or

- if less than 20 years of service 2% of HMC for each year of service;
- if more than 20 years of service 50% of the member's HMC plus 2% of the member's HMC for each year of service over 20 years.

Members hired on or after July 1, 1981, and those electing GABA: 2.5% of HAC per year of membership service.

Guaranteed Annual Benefit Adjustment (GABA)

Hired on or after July 1, 1997, or those electing GABA – after the member has completed 12 full months of retirement, the member's benefit increases by a maximum of 3% each January, inclusive of all other adjustments to the member's benefit.

Minimum Benefit Adjustment (non-GABA)

If hired before July 1, 1997, and the member did not elect GABA, the monthly retirement, disability, or survivor's benefit may not be less than 50% of the compensation of a newly confirmed active firefighter of the employer that last employed the member.

Contributions to the Plan

Rates are specified by state law for periodic employee, employer, and nonemployer entity contributions. The Legislature has the authority to establish and amend contribution rates to the plan.

Member contributions to the system – Contributions are deducted from each member's salary and remitted by the participating employer. For members:

Hired prior to July 1, 1997, and not electing GABA, member contributions as a percentage of salary are 9.50%;

Hired on or after July 1, 1997, and electing GABA, member contributions as a percentage of salary are 10.70%.

Member contributions must be paid on working retirees who return to covered employment for 480 or more hours in a calendar year.

Employer contributions to the system – Employers are required to contribute 14.36% of member's compensation. Employer contributions and state contributions (if any) must be paid on all working retirees.

Nonemployer entity contributions to the system – The State contributes 32.61% of a member's compensation from the General Fund.

Volunteer Firefighters' Compensation Act – The VFCA, administered by the MPERA, is a multiple-employer, cost-sharing defined benefit plan that was established in 1965, and governed by Title 19, chapter 17, MCA. All members are unpaid volunteers and the State is the only contributor to the plan. Benefits are established by state law and can only be amended by the Legislature. The VFCA provides pension, disability, and survivorship benefits for all eligible volunteer firefighters who are members of qualified volunteer fire companies in unincorporated areas, towns or villages, and includes volunteer fire departments, fire districts, and fire service areas under the laws of the State. Benefits are based on eligibility and years of service. Member rights are vested after ten years of credited service. The VFCA also provides limited benefits for death or injuries incurred in the line of duty. A member who chooses to retire and draw a pension benefit may return to service with a volunteer fire department without loss of benefits. However, a returning retired member may not be considered an active member accruing credit for service.

Summary of Benefits

Eligibility for benefit

Age 55, 20 years of credited service;

Age 60, 10 years of credited service.

Effective July 1, 2011, members who retire on or after July 1, 2011, and have greater than 30 years of credited service will receive \$7.50 per month for each additional year of credited service over 30 years if the pension trust fund is actuarially sound, amortizing any unfunded liabilities in 20 years or less. This determination will be made annually and a member's benefit will be capped at \$250 a month (30 years of credited service) if the amortization period grows to greater than 20 years.

Vesting

10 years of credited service.

Monthly benefit formula (effective January 1, 2016)

\$8.75 per year of credited service up to 20 years;

\$7.50 per year of credited service after 20 years

Contributions to the Plan

The State, as a nonemployer contributing entity, is the only contributor to the VFCA. Contributions are 5% of fire insurance premium taxes collected on certain fire risks. This requires the plan to be treated as a special funding situation in accordance with GASB 68. The State Auditor makes annual payments from

the General Fund to the VFCA fund. Rates are specified by state law for contributions to the VFCA plan. The State legislature has the authority to establish and amend contribution rates to the plan.

<u>Teachers' Retirement System</u> – The TRS is administered by the Teachers' Retirement Board (TRB), which is the governing body of a mandatory multiple-employer cost-sharing defined benefit pension plan that provides retirement services to persons in Montana employed as teachers or professional staff of any public elementary or secondary school, community college, or unit of the university system. The TRS, as an employer, does not participate in the plan and acts only as the administrator of the plan.

The TRB is the governing body of the TRS, and the TRS's staff administer the TRS in conformity with the laws set forth in Title 19, chapter 20, MCA, and administrative rules set forth in Title 2, chapter 44 of the Administrative Rules of Montana.

Summary of Benefits

Through June 30, 2013, all members enrolled in TRS participated in a single-tiered plan ("Tier One"). Employees with a minimum of 25 years of service or who have reached age 60 with 5 years of service are eligible to receive an annual retirement benefit equal to creditable service years divided by 60 times the average final compensation. Final compensation is the average of the highest three consecutive years of earned compensation. Benefits fully vest after 5 years of creditable service. Vested employees may retire at or after age 50 and receive reduced retirement benefits. Benefits are established by state law and can only be amended by the Legislature.

Beginning July 1, 2013, new members in TRS participate in a second benefit tier ("Tier Two"), which differs from Tier One as follows:

- Tier Two uses a 5-year average final compensation (AFC) (as opposed to 3-year AFC in Tier One)
- Tier Two provides for unreduced service retirement benefits at age 60 with 5 years of creditable service or at age 55 with at least 30 years of creditable service (rather than at age 60 with 5 years of service or at any age with creditable service in 25 years in Tier One)
- Tier Two provides for early retirement benefits with 5 years of creditable service at age 55 (rather than age 50 in Tier One)
- Tier Two has one percent higher normal employee contribution rate (though a temporary 1% supplemental employee contribution rate is also currently in place for Tier One members), and
- Tier Two provides for an enhanced benefit calculation—1.85% of the AFC multiplied by the years of creditable service—for members retiring with at least 30 years of creditable service and at least 60 years of age (rather than 1.6667 x AFC x years of creditable service)

A guaranteed annual benefit adjustment (GABA) is payable on January 1 of each calendar year for each retiree who has received at least 36 monthly retirement benefit payments prior to that date. The GABA is applicable to both Tier One and Tier Two members. The GABA for Tier One members is 1.5% of the benefit payable as of January 1. For Tier Two members, the GABA each year may vary from 0.5% to 1.5% based on the retirement system's funding status and the period required to amortize any unfunded accrued actuarial liability as determined in the prior actuarial valuation.

Contributions to the System

All active employees in the TRS, regardless of employer type, are required to provide a contribution equal to 8.15% of their compensation.

All State and University employers are required to contribute 11.65% of compensation provided to an active, non-reemployed member. All school districts and other employers are required to contribute 9.27% of an active, non-reemployed, member's compensation to the System.

Section 19-20-605, MCA, requires each employer to contribute 9.85% of total compensation paid to all reemployed TRS retirees employed in a TRS reportable position. Pursuant to Section 19-20-609, MCA,

this amount shall increase by 1.00% for fiscal year 2014 and increase by 0.10% each fiscal year through 2024 until the total employer contribution is equal to 11.85% of reemployed retiree compensation.

The TRS receives a portion of the total required statutory contributions directly from the State for all employers. The employers are considered to be in a special funding situation, and the State is treated as a nonemployer contributing entity in the TRS. The System receives 0.11% of earned compensation from the General Fund for all TRS members. The TRS also receives 2.38% of earned compensation from the General Fund for TRS members employed at school districts, community colleges, educational cooperatives, and counties in Montana. Finally, the State is also required to contribute \$25.0 million in perpetuity payable July 1 of each year. The Legislature has the authority to establish and amend contribution rates to the plan.

(2) Actuarial Assumptions

For all plans administered by MPERA, the total pension liability used to calculate the net pension liability/ (asset) for each plan was determined by an actuarial valuation date indicated in the table below using the following actuarial assumptions, applied to all periods included in the measurement, with update procedures used to roll forward the total pension liability to June 30, 2021. For the TRS plan, the total pension liability used to calculate the net pension liability as of June 30, 2021, is based on the results of an actuarial valuation as of July 1, 2021. Therefore, no update procedures were used for TRS to roll forward the total pension liability to the measurement date. The significant assumptions and other inputs used to measure the total pension liability were the following:

| Plan | JRS | HPORS | GWPORS | PERS- DBRP | SRS | MPORS | FURS | VFCA | TRS |

Mortality among contributing members, service retired members, and beneficiaries are based on RP-2000 **Healthy Combined** Mortality Table projected to 2022 adjusted for partial credibility setback for two years. The tables include margins for mortality improvements which Mortality assumptions among contributing members, terminated vested members, service retired members, and is expected to occur beneficiaries are based on RP-2000 Combined Employee and Annuitant Mortality Tables projected to 2020 using in the future. Mortality Scale BB, set back one year for males. Mortality among Mortality assumptions among disabled retirees are based on RP-2000 Combined Employee and Annuitant Mortality disabled members Tables are based on RP-2000 Disabled Mortality Table for Males, set back three years, with mortality improvements projected by Scale BB to 2022, and RP-2000 Disabled Mortality Table for Females, set forward two years, with mortality improvements projected by Scale BB to 2022.

Changes in actuarial assumptions and methods: For JRS, PERS-DBRP, SRS, MPORS, FURS, VFCA, and TRS the discount rate was lowered from 7.34% to 7.06%. For HPORS, the discount rate was increased from 4.43% to 7.06%. For GWPORS, the discount rate was increased from 5.65% to 7.06%. For JRS, HPORS, GWPORS, PERS-DBRP, SRS, MPORS, FURS, VFCA, and TRS the investment rate of return was lowered from 7.34% to 7.06%. For JRS, HPORS, GWPORS, PERS-DBRP, SRS, MPORS, FURS, VFCA, and TRS the inflation rate remained at 2.40%.

Changes in benefit terms: There have been no changes in benefit terms since the previous measurement date, for JRS, HPORS, GWPORS, PERS-DBRP, SRS, MPORS, FURS, VFCA, and TRS.

Changes in proportionate share: Because the State is the single employer for JRS and HPORS, there were no changes in proportion of the net pension assets for JRS plan and the net pension liability for HPORS plan. Between the measurement date of the net pension liability (asset) and the State's reporting date, the investment rates of return of JRS and HPORS were lower than the investment rates of return assumption. Therefore, the State's net pension assets for JRS are expected to decrease and the State's net pension liability for HPORS are expected to increase.

Changes in proportionate share: Between the measurement date of the collective net pension liability and the State's reporting date, the investment rate of return of GWPORS was lower than the investment rate of return assumption. Therefore, the State's proportionate share of the collective net pension liability as the State's primary government employer, and the State's discretely presented component units are expected to change. The State still reports 100.0% GWPORS plan, and the total plan net pension liability are expected to increase.

Changes in proportionate share: Between the measurement date of the collective net pension liability and the State's reporting date, the investment rates of return of PERS-DBRP, SRS, MPORS, FURS, and TRS plans were lower than the investment rates of return assumption. Therefore, the State's proportionate

share amounts of the collective net pension liability as the State's employer and non-employer contributing entity in applicable plans are expected to increase.

Changes in proportionate share: Because the State is the only contributing entity, there were no changes in proportion of the net pension liability for VFCA plan. The State reports 100.0% VFCA plan. Between the measurement date of the collective net pension liability and the non-employer's reporting date, the investment rate of return of VFCA was lower than the investment rate of return assumption. Therefore, the State's non-employer proportionate share of the collective net pension liability is expected to increase.

(3) Discount Rate

The discount rate used to measure the total pension liability was 7.06% for JRS, HPORS, GWPORS, and SRS. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members and employers will be made based on the PERB's funding policy, which establishes the contractually required rates under MCA. Based on those assumptions, each pension plan's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2106 for JRS, 2129 for HPORS, 2124 for GWPORS, and 2124 for SRS. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. A municipal bond rate was not incorporated in the discount rate for JRS, SRS, HPORS and GWPORS.

The discount rate used to measure the total pension liability for PERS-DBRP, MPORS, and FURS was 7.06%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and nonemployer contributing entity will be made based on the PERB's funding policy, which establishes the contractually required rates under MCA. Based on those assumptions, each pension plan's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2126 for PERS-DBRP, 2134 for MPORS, and 2133 for FURS. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. A municipal bond rate was not incorporated in the discount rate.

The discount rate used for VFCA to measure the total pension liability was 7.06%. The projection of cash flows used to determine the discount rate assumed that contributions from the nonemployer contributing entity will be made based on the PERB's funding policy, which establishes the contractually required rates under MCA. Based on those assumptions, the VFCA's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2121. A municipal bond rate was not incorporated in the discount rate.

The discount rate used to measure the total pension liability for TRS was 7.06%. The projection of cash flows used to determine the discount rate assumed that contributions from participating plan members, employers, and nonemployer contributing entity will be made based on the TRB's funding policy, which establishes the contractually required rates under MCA. Based on those assumptions, the TRS's fiduciary net position was projected to be adequate to make all the projected future benefit payments of current plan members through the year 2124. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. A municipal bond rate was not incorporated in the discount rate.

(4) Target Allocations

The long-term expected return on pension plan assets is reviewed as part of the regular experience study prepared for the JRS, HPORS, GWPORS, PERS-DBRP, SRS, MPORS, FURS, and VFCA plans administered by MPERA. The most recent analysis of each plan, performed for the six-year period ended June 30, 2016, is outlined in a report dated May 2017, and can be located on the MPERA website. The assumed long-term expected return on pension plan assets is reviewed as part of the regular experience studies prepared for the TRS. The most recent analysis, performed for the period covering fiscal years 2013 through 2017, is outlined in a report dated May 3, 2018. The long-term expected rate of return on pension plan investments was determined by considering information from various sources, including historical rates of return, rate of return assumptions adopted by similar public pension systems, and by using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The average long term capital market assumptions published in the Survey of Capital Market Assumptions 2021 Edition by Horizon Actuarial Service, LLC, yield a median real return of 4.66%. Assumed inflation is based on the intermediate inflation assumption of 2.40% in the 2021 OASDI Trustees Report used by the Chief Actuary for Social Security to produce 75 year cost projections. Combining these two results yields a nominal return of 7.06%. All the plans administered by MPERA and TRS have the same target allocation and long-term expected real rate of return. The target allocation and best estimates of the arithmetic real rates of return for each major asset class as of June 30, 2021, are summarized in the table below:

| Asset Class | Target Asset Allocation | Long-term Expected Real Rate of Return |
|-----------------------|----------------------------|-------------------------------------------|
| Domestic Equity | 30.00% | 5.90% |
| International Equity | 17.00% | 7.14% |
| Private Investments | 15.00% | 9.13% |
| Real Assets | 5.00% | 4.03% |
| Real Estate | 9.00% | 5.41% |
| Core Fixed Income | 15.00% | 1.14% |
| Non-Core Fixed Income | 6.00% | 3.02% |
| Cash | 3.00% | -0.33% |
| Total | 100.00% | |

(5) Change in Net Pension Liability (Asset)

A schedule of changes in the net pension liability (asset) is presented for each of the single-employer defined benefit plans (amounts expressed in thousands). The date in the schedules is a measurement date, which is one year earlier than the financial reporting date.

| | | | JRS | |
|---------------------------------------------------|----|--------------------------|--------------------------------|---------------------|

⁽¹⁾ The Changes in Net Pension Liability table is only provided at the system level. The ending balances and the components of the changes are derived from the primary government's proportionate share of the total plan balances and the discretely presented component unit's proportionate share of the total plan balances. Due to the change in proportionate share in each year, the other changes line item includes the difference between the proportionate share of the balances and the preliminary calculated balances.

(6) Sensitivity Analysis

In accordance with GASB 68 regarding the disclosure of the sensitivity of the net pension liability/(asset) to changes in the discount rate, the table below presents the net pension liability/(asset), of the plans administered by MPERA and TRS, calculated using the discount rate of 7.06% for all plans; as well as what the net pension liability/(asset) would be if it were calculated using a discount rate that is 1.00% lower (6.06% for for all plans) or 1.00% higher (8.06% for all plans) than the current rate.

(7) Net Pension Liability (Asset), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

In accordance with GASB 68, the employer is required to recognize and report certain amounts associated with its participation in the JRS, HPORS, and GWPORS, the plans the State participates in as a single-employer. GASB 68 became effective June 30, 2015, and includes requirements for participant to record and report its net pension liability (NPL) or net pension asset (NPA), pension expense, deferred inflows of resources, and deferred outflows of resources associated with pensions. In accordance with GASB 68, employers and the nonemployer contributing entities are required to recognize and report certain amounts associated with their participation in the PERS-DBRP, SRS, MPORS, FURS, VFCA, and TRS. GASB 68 became effective June 30, 2015, and includes requirements for participants to record and report their proportionate share of the collective net pension liability, pension expense, deferred inflows of resources, and deferred outflows of resources associated with pensions. The proportionate shares were determined based on contributions made to the plan by employers and the nonemployer contributing entity in a special funding situation, when a plan has the nonemployer contributing entity, during the measurement period July 1, 2020, through June 30, 2021, relative to the total contributions received from all participating employers and the nonemployer contributing entity. Due to the existence of the special funding situation in the PERS-DBRP, FURS, MPORS, VFCA, and TRS, the State is required to report a proportionate share of the collective net pension liability that is associated with the non-State employers in these plans, respectively.

Net Pension Liability (Asset): The following presents the state's net pension liability as of June 30, 2022 (amounts presented in thousands):

| Plan | as of Measurement Date | (/ | let Pension Liability Asset) as of 6/30/2020 | Net Pension Liability (Asset) as of 6/30/2021 | Percent of NPL/NPA as of 6/30/2020 | Percent of NPL/NPA as of 6/30/2021 | Change in Percent of NPL/NPA |

Pension Expense

The State recognized the following pension expenses for the State as the primary government employer, the State's discretely presented component units, and the State's fiduciary component units, and pension grant expenses for the State as nonemployer contributing entity, for the year ended June 30, 2022 (amounts presented in thousands):

| | | Primary Go | overnment | | | | | | |
|---------------|----------------------|------------|---------------------------------------------------|----|-----------------------------------------------|----|---------------------------------|-------|---------|
| Plan | State as Employer | | State as Nonemployer Contributing Entity | | Discretely Presented Component Units | | Fiduciary Component Units | Total | |
| JRS | \$ | (4,215) | \$ — | \$ | _ | \$ | _ | \$ | (4,215) |
| HPORS | | 11,154 | _ | | _ | | _ | | 11,154 |
| GWPORS | | 5,537 | _ | | 120 | | _ | | 5,657 |
| PERS-DBRP (1) | | 73,366 | 68,080 | | 9,456 | | 140 | | 151,042 |
| SRS | | (44) | _ | | _ | | _ | | (44) |
| MPORS (2) | | _ | 20,142 | | _ | | _ | | 20,142 |
| FURS (3) | | 435 | 11,699 | | _ | | _ | | 12,134 |
| VFCA (4) | | _ | 798 | | _ | | _ | | 798 |
| TRS (5) | | 1,743 | 37,822 | | 12,604 | | _ | | 52,169 |

⁽¹⁾ Of the total pension expense for the State as a nonemployer contributing entity, \$1.1 million is the grant expense for special funding support provided by the General Fund to local government and school district participants, \$34.6 million is the grant expense for special funding support provided by the General Fund as a statutory appropriation for all participating employers; \$32.3 million is the pension expense that is actuarially allocated to the State as a nonemployer contributing entity.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of the fiscal year ended June 30, 2022, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (amounts presented in thousands):

| JRS | red Outflows Resources | ferred Inflows f Resources |
|----------------------------------------------------------------------------------|-------------------------------|-----------------------------------|

The amounts reported in the tables above as deferred outflows of resources related to pensions resulting from the contributions made subsequent to the June 30, 2021, measurement date will be recognized as a reduction of the net pension liability (asset) in the fiscal year ended June 30, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (amounts presented in thousands):

E. Legal Actuarial Status of Plans

The Montana Constitution, Article VIII, Section 15, and Section 19-2-409, MCA state that public retirement systems shall be funded on an actuarially sound basis. To maintain a fund on an actuarially sound basis, the rate of contributions should fund the normal cost, in addition to amortizing the unfunded liability over a period not to exceed 30 years.

A traditional funding actuarial valuation of each of the defined benefit plans is performed annually. The purpose of the traditional funding actuarial valuation is to measure funding progress and to determine the actuarial determined contribution, contribution sufficiency or deficiency, and other actuarial information necessary for monitoring funding position. The most recent actuarial valuation was performed for fiscal year ended June 30, 2022. The statutory funding rate is tested in the valuation of each public retirement plan to determine if it is sufficient to cover the normal cost rate plus an amortization payment of the unfunded actuarial liability, if any, within 30 years. As of June 30, 2022, Public Employees' Retirement System-Defined Benefit Retirement Plan (PERS-DBRP), Highway Patrol Officers' Retirement System (HPORS), Sheriffs' Retirement System (SRS), and Game Wardens' and Peace Officers' Retirement System (GWPORS) were not in compliance and did not amortize within 30 years.

F. Public Employee Defined Contribution Retirement Plans

Public Employees' Retirement System-Defined Contribution Retirement Plan – The Public Employees' Retirement System-Defined Contribution Retirement Plan (PERS-DCRP) is a multiple Employer plan established July 1, 2002, and governed by Title 19, Chapters 2 & 3, MCA. This plan is available to eligible employees of the State, Montana University System, local governments, and school districts. All new PERS members are initially members of the PERS-DBRP and have a 12-month window during which they may choose to transfer to the PERS-DCRP, or remain in the PERS-DBRP, by filing an irrevocable election. If an election is not filed, the member remains in the PERS-DBRP. Members may not be members of both the defined contribution and defined benefit retirement plans. The PERS-DCRP provides retirement, disability, and death benefits to plan members and their beneficiaries.

Member and employer contribution rates are established by state law and may be amended only by the Legislature. Employees contribute at a rate of 7.90% of their compensation. Contributions made to the plan by an employee remain 100% vested in their interest. Members who achieve 5 years of employment are vested in the plan. Should they terminate prior to this 5-year period, all employer contributions are forfeited to the plan. Amounts forfeited are held in a separate plan forfeiture account and can only be used to pay the administrative expenses, including startup costs, of the plan. Total pension expense for the State as a PERS-DCRP employer for the year ended June 30, 2022, is \$10.3 million and, contribution forfeitures were \$994.6 thousand.

Local government entities contribute 8.87% of member compensation. School district employers contributed 8.60% of member compensation. The State contributes 0.10% of member compensation on behalf of local government entities and 0.37% of member compensation on behalf of school district entities. Each State agency and University employer contributed 8.97% of member compensation.

The total contribution rate of 8.97%, referenced in the preceding paragraph, is allocated as follows: 8.63% to the member's retirement account; 0.04% to the defined contribution education fund; and 0.30% to the defined contribution Other Post Employment Benefit (OPEB) disability plan.

The PERS-DCRP also administers an OPEB disability plan. Refer to PERB's annual financial report for additional information related to this portion of the plan.

G. Montana University System Retirement Program

Montana University System-Retirement Program (MUS-RP) – This system was established in January 1988 and is underwritten by the Teachers Insurance and Annuity Association (TIAA). Effective July 1, 1993, MUS-RP was made the mandatory retirement plan for new faculty and administrative staff with

contracts under the authority of the Board of Regents, previously referred to as the Optional Retirement Program (ORP). The MUS-RP is a defined contribution retirement plan governed by Title 19, Chapter 21, MCA. Combined contributions to the faculty and professional staff plan cannot exceed 13% of the participant's compensation per Section 19-21-203, MCA. Combined contributions to the classified staff plan are 16.97% less 0.04% for education programming paid to Montana Public Employee Retirement Administration (MPERA) per Section 19-3-316, MCA and Section 19-3-315, MCA. The employer contribution to the MUS-RP for classified staff increases 0.10% annually in July per statute.

The benefits at retirement depend upon the amount of contributions, amount of investment gains and losses, and investment allocations by the participant. Individuals are immediately vested for both employee and employer contributions. The Montana University System records employee/employer contributions, and remits monies to TIAA. Total contributions made to the plan by the employer were \$18.6 million, and the total employee contributions were \$21.5 million for the fiscal year ended June 30, 2022.

H. 457(b)-Deferred Compensation Plan

The 457(b)-Deferred Compensation Plan (457(b) Plan) is an Other Employee Benefit Plan established in 1974. The Deferred Compensation Plan is governed by Title 19, Chapter 50, MCA, in accordance with Internal Revenue Code (IRC) Section 457. The plan is available to all employees of the State, Montana University System, and contracting political subdivisions. The State and 70 non-state entity employers participate in the 457(b)-Plan.

Assets of the Deferred Compensation Plan are required to be held in trusts, custodial accounts, or insurance company contracts for the exclusive benefit of participants and their beneficiaries. Empower RetirementTM is the record keeper for the plan. Participants elect to defer a portion of their salary, within IRC limits. The deferred salary is not available to employees until separation from service, retirement, death, or upon an unforeseeable emergency while still employed, provided IRS-specified criteria are met.

I. Method Used to Value Investments

The Montana Board of Investments (BOI) manages the investments, as authorized by state law, for the defined benefit retirement plans in two investment pools, the Consolidated Asset Pension Pool (CAPP) and the Short-Term Investment Pool (STIP). CAPP is an internal investment pool and STIP is an external investment pool. Each retirement plan's ownership in the pools is based on the funds contributed. Individual investments in the pools are not specifically identified to the respective retirement plan. Investments are reported at either fair value or cost, depending on the underlying investment type. Fixed income and equity investments classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Fixed income investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Mortgages are present value adjusted. Investment valuation not classified within the fair value measurement levels are reported at Net Asset Value. Further detail related to investments is provided in Note 3.

J. Long-term Contracts for Contributions

Per Section 19-2-706, MCA, the Montana Legislature enacted a provision of the Employee Protection Act (EPA) allowing state and university system employees who are eligible for a service retirement and whose positions have been eliminated, to have their employer pay a portion of the total cost of purchasing up to three years of "1-for-5" additional service. In fiscal year 2022, 276 employees participated in the program.

The Employer has up to ten years to complete payment for the service purchases and is charged the actuarially required rate of return as established by MPERA on the unpaid balance. Total contributions received (including interest) during fiscal year 2022 totaled \$149.3 thousand. The outstanding balance at June 30, 2022, totaled \$5.9 thousand.

K. Litigation

Consolidated PERB v. Lewis and Clark County and Montana Association of Counties (MACo), Lewis and Clark County, and Cascade County v. PERB and MPERA. On May 1, 2020, PERB filed a Complaint for Declaratory Relief in the First Judicial District of Montana against Lewis and Clark County. This complaint asked the Court to rule that the Montana Constitution, Article VIII, Section 15, vests PERB with the authority to: 1) actuarially determine the amount of the unfunded pension liabilities attributable to a component unit of Lewis and Clark County that has terminated its participation in a PERB administered defined benefit plan; and 2) compel the payment of the unfunded pension liabilities upon this component unit's termination. On June 1, 2020, PERB filed its First Amended Complaint amending its original pleading to add a claim for breach of contract against Lewis and Clark County.

On May 1, 2020, MACo filed a Complaint for Declaratory Judgment, Injunctive Relief, and a Writ of Prohibition against PERB and MPERA in the First Judicial District Court of Lewis and Clark County related to the same underlying issue that caused MPERA to initiate its action against Lewis and Clark County. This Complaint asked the Court to rule that: 1) the Montana Constitution, Article VIII, Section 15, does not vest PERB with the authority to determine and collect unfunded pension liabilities owed to the PERS-DBRP trust as a result of partial withdrawals of employees or reductions in force; 2) the 1947 Contract between PERB and Lewis and Clark County and Cascade County, as well as other similar agreements between PERB and all other Montana counties, does not vest PERB with the authority to determine and collect unfunded pension liabilities owed to the PERS-DBRP trust as a result of partial withdrawals of employees or reductions in force; 3) MACo is entitled to a preliminary and permanent injunction enjoining PERB from assessing withdrawal penalties against Montana counties; and 4) MACo is entitled to a Writ of Prohibition arresting PERB from assessing withdrawal penalties against Montana counties. On May 15, 2020, MACo filed a First Amended Complaint and added the additional parties of Lewis and Clark County and Cascade County to this action as plaintiffs as well as additional claims for breach of express and implied contract.

On May 13, 2020, Lewis and Clark County filed a motion to dismiss PERB's Complaint and followed that on June 18, 2020, with a motion to dismiss PERB's First Amended Complaint. Likewise, on June 25, 2020, PERB filed a motion to dismiss, or in alternative, a motion for partial summary judgement, several of the counts in the MACo suit. Both cases were subsequently consolidated into a single action by the Court on February 22, 2021.

On February 1, 2022, the Court ruled on respective motions of the parties. In the only real narrowing of the case, the Court cited statue that the State cannot be held liable under theories of implied contract to dismiss the counties' claim against PERB for breach of the covenant of good faith and fair dealing. The parties filed their respective answers on February 25, 2022, and the case now awaits further action.

In the opinion of management and legal counsel, the disposition of unfunded actuarial accrued liabilities owed to PERS-DBRP in the consolidated Lewis and Clark County and MACo case, will have a material adverse effect on the PERS-DBRP's financial position as a whole should the Court rule against MPERA and PERB. An estimate of the potential liability for the consolidated Lewis and Clark County and MACo case cannot presently be made.

NOTE 7. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

A. General Information Non-trust Plans

The State of Montana (State) and the Montana University System (MUS) provide optional postemployment healthcare benefits in accordance with Section 2-18-704, MCA to the following employees and dependents who elect to continue coverage and pay administratively established contributions: (1) employees and dependents who retire under applicable retirement provisions and (2) surviving dependents of deceased employees. Medical, dental, and vision benefits are available through this plan. The State and MUS offer OPEB plans that are not administered through trusts; as such, there are no plan assets accumulated to offset the total OPEB liability.

In accordance with Section 2-18-704, MCA, the State provides post-retirement health insurance benefits to eligible employees who receive retirement benefits from the Public Employees' Retirement System (PERS) or various other State retirement systems, and elect to start medical coverage within 60 days of leaving employment. Retirement eligibility criteria differ by state retirement plan. Further detail on state retirement plans is provided in Note 6. MUS provides post-retirement health insurance benefits to eligible employees who receive retirement benefits from their plan, or an annuity under the MUS-RP, and have been employed by MUS for at least five years, are age 50, or have worked 25 years with MUS. They must elect to start medical coverage within 60 days of leaving employment. Spouses, unmarried dependent children, and surviving spouses are also eligible for both plans.

Montana State Fund, a discretely presented component of the State and participant in the State OPEB plan, by statute, prepares separately issued financial statements on a calendar year-end basis. Due to the difference in reporting period, there will be a variance between the note disclosures and the financial statements for OPEB related information.

B. Plan Descriptions

Both healthcare OPEB plans for the State and MUS are reported as single-employer plans. In addition to the primary government, the participating employers under the State OPEB plan are Facility Finance Authority, Montana Board of Housing, Public Employees' Retirement System, Montana State Fund, and Teachers' Retirement System. The participating employers under the MUS OPEB plan are Office of Commissioner of Higher Education (OCHE), Montana State University - Billings (MSU-Billings), Montana State University - Bozeman (MSU-Bozeman), Great Falls College MSU, Montana State University - Northern (MSU-Northern), Montana Technological University, Helena College UM, University of Montana - Missoula (UM-Missoula), and University of Montana - Western (UM-Western). Participating employers under MUS, but excluded from the total OPEB liability due to not qualifying as component units, are Dawson Community College (Dawson CC), Flathead Valley Community College (Flathead CC), and Miles Community College (Miles CC). Each participating employer is required to disclose additional information as required per GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions (GASB 75).

The State and MUS pay for post-employment healthcare benefits on a pay-as-you-go basis. Section 2-18-812, MCA gives authority for establishing and amending the funding policy to the Department of Administration for the State group health insurance plan. Section 20-25-1310, MCA gives authority for establishing and amending the funding policy to the Board of Regents for the MUS group health insurance plan. The healthcare OPEB plans allow retirees to participate, as a group, at a rate that does not cover all of the related costs. This results in reporting the total OPEB liability in the related financial statements and note disclosures. Reported contributions are not a result of direct funding to the plans or for associated liabilities, but are a measure of the difference in retiree payments into the plans and actual medical costs associated with those individuals paid for by the plans.

As of December 31, 2021, the State OPEB plan's administratively established retiree medical premiums vary between \$457.00 and \$2,172.00 per month, depending on the medical plan selected, family coverage, and Medicare eligibility. Administratively established dental premiums vary between \$41.10 and

\$70.00 per month and vision hardware premiums vary between \$7.64 and \$22.26 per month, depending on the coverage selected. The plan provides different coinsurance amounts and deductibles depending on whether members use participating or non-participating providers. Once retiree members become Medicare eligible, the plan automatically processes claim reimbursement as the secondary insurer, even if the member is not enrolled in Medicare. A basic life insurance plan on the life of the retiree is also included with a retiree's core benefits until the retiree reaches age 65 or is eligible for Medicare.

As of June 30, 2022, the MUS OPEB plan's administratively established retiree medical premiums vary between \$368.00 and \$2,452.00 per month. Retiree dental premiums vary between \$52.00 and \$156.00 per month, while vision premiums vary from \$10.70 to \$31.18, depending on the types and number of dependents enrolled and which medical Third Party Administrator (TPA) was selected. The plan provides different coinsurance amounts and deductibles depending on whether members use in-network or out-of-network providers. The plan automatically reduces claim reimbursement for members eligible for Medicare, even if the member is not enrolled in Medicare. The premium changes were based on actual claims experience and actuarial projections based on the experience and trends.

C. Basis of Accounting

Total OPEB liability is reported on an accrual basis on the proprietary and fiduciary fund financial statements, the government-wide financial statements, and the component unit financial statements. Total OPEB liability is not reported on the governmental fund financial statements, as it is considered a long-term liability. Plan member contributions are recognized in the period in which the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Both OPEB plans state, that an employee enrolled in the OPEB plan, who (a) at least meets the early retirement criteria defined by Montana Public Employees' Retirement Administration (MPERA); and (b) makes arrangements with their respective benefit office, within 60 days of the date active employee coverage ends, to continue post-retirement coverage, may continue with the OPEB plan on a self-pay basis, retroactive back to the date active employee coverage was lost, and adhere to these provisions. Therefore, each plan does not include terminated employees who have accumulated benefits but are not yet receiving them. There have been no significant changes in the number covered or the type of coverage as of June 30, 2022.

The number of State Plan participants as of December 31, 2020 projected to December 31, 2021, follows:

| | | State Plan Participants | | | | | | | | | | | | |
|--------------------------------------------------------|----------------------|-------------------------------------------------|-----------------------------------------------|-------------------------------------------------------|-----------------------------------------|-------------------------------------------------|--------|--|--|--|--|--|--|--|
| Enrollment | State ⁽¹⁾ | Facility Finance Authority ⁽²⁾ | Montana Board of Housing ⁽²⁾ | Public Employee Retirement Board ⁽³⁾ | Montana State Fund ⁽²⁾ | Teachers Retirement System ⁽³⁾ | Total | | | | | | | |
| Active employees Retired employees, spouses, and | 12,210 | 3 | 36 | 51 | 285 | 21 | 12,606 | | | | | | | |
| surviving spouses | 2,178 | 2 | 3 | 1 | 17 | 4 | 2,205 | | | | | | | |
| Total | 14,388 | 5 | 39 | 52 | 302 | 25 | 14,811 | | | | | | | |

The number of MUS Plan participants as of December 31, 2020 projected to December 31, 2021, follows:

D. Schedule of Changes in Total OPEB Liability

The following table presents the other items related to and changes in the total OPEB liability:

Annual OPEB Cost & Changes in Total OPEB liability (in thousands)

| | | | ate Plan | | MUS Plan | | | | | | | | |
|----------------------------------------|----------------------------------------------------------------------------------|----------|----------|-------------------------------------------------------------------------|----------|--------------------|--------------------------------------------------|-------|----|----------------------------------------------------------|----|-------------------|--|
| | Con Ur Fid Primary Con Government Un Total OPEB C Liability Li | | | Discrete Omponent Unit and Giduciary Omponent Init Total OPEB Liability | Т | otal State Plan | Primary Government Total OPEB Liability | | | Discrete Component Unit Total OPEB Liability | | Total MUS Plan | |
| Balances at 6/30/2021 | \$ | 143,281 | \$ | 4,234 | \$ | 147,515 | \$ | 561 | \$ | 56,750 | \$ | 57,311 | |
| Changes for the year: | | | | | | | | | | | | | |
| Service cost | | 8,458 | | 268 | | 8,726 | | 29 | | 3,655 | | 3,684 | |
| Interest | | 3,412 | | 101 | | 3,513 | | 13 | | 1,374 | | 1,387 | |
| Changes of assumptions or other inputs | | (37,582) | | (1,128) | | (38,710) | | (158) | | (17,125) | | (17,283) | |
| Benefit payments | | 2,518 | | 74 | | 2,592 | | 20 | | 2,456 | | 2,476 | |
| Net changes | | (23,194) | | (685) | | (23,879) | | (96) | | (9,640) | | (9,736) | |
| Balances at 6/30/2022 (1) | \$ | 120,087 | \$ | 3,549 | \$ | 123,636 | \$ | 465 | \$ | 47,110 | \$ | 47,575 | |

State, fiduciary component units, and discretely presented component units proportion of the collective total OPEB liability as of the measurement date for fiscal years 2021 and 2022 for the State Plan was 100% both years and for the MUS Plan is 95.18% and 95.18%, respectively.

E. Actuarial Methods and Assumptions

The total OPEB liability (TOL) measured under GASB 75 is based upon service cost and more standardized reporting assumptions than prior GASB Statements. As a pay-as-you-go public entity, GASB 75 requires a 20-year current municipal bond discount rate to establish an Actuarially Determined Contribution (ADC). The GASB 75 valuation is further required to show both historical and projected future net changes in TOL, as well as sensitivity to changes in key underlying assumptions. Actuarially determined amounts are subject to continual revisions, meaning actual results are compared with past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost-sharing between the employer and plan members in the future.

The schedule of changes in the State's and MUS's TOL and related ratios, presented as required supplementary information following the notes to the financial statements is designed to present multi-year trend information about whether the actuarial value of plan TOL is increasing or decreasing over time relative to the actuarial liabilities for benefits. The schedule of changes in the State's and MUS's TOL and related ratios are based on the substantive plan (the plan as understood by the employer and the plan members). This includes the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The State's OPEB Plan TOL on December 31, 2020, rolled forward to March 31, 2022, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Other Postemployment Benefits State Single Employer Plan

| | Retiree/Surviving Spouse | Spouse | | | | |
|------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|---------------------|--|--|--|--|
| Contributions (weighted average): Before Medicare eligibility After Medicare eligibility | \$ 15,072 5,484 | \$ 6,908 4,820 | | | | |
| Actuarial valuation date | December 31, 2020 | | | | | |
| Experience study period Actuarial measurement date (1) | January 1, 2018 through March 31, 2022 | n December 31, 2020 | | | | |
| Actuarial cost method | Entry age normal funding method | | | | | |
| Amortization method | Level percent of payroll | , open basis | | | | |
| Asset valuation method | Not applicable since no assets meet the definition of plan assets under GASB 75 | | | | | |
| Actuarial assumptions: | | | | | | |
| Discount rate | 3.31% | | | | | |
| Projected payroll increases | 2.50% | | | | | |
| Participation: | | | | | | |
| Future retirees | 40.00% | | | | | |
| Future eligible spouses | 70.00% | | | | | |
| Marital status at retirement | 70.00% | | | | | |

⁽¹⁾ Updated procedures were used to roll forward the total OPEB liability to the measurement date.

Mortality - Healthy: For TRS, healthy mortality is assumed to follow the RP-2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP-2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back four years for males, set back two years for females, with mortality improvements projected by Scale BB to 2018. For all other groups, healthy mortality is assumed to follow the RP-2000 Combined Mortality Table with improvements projected by Scale BB to 2020, set back one year for males.

Mortality - Disabled: For TRS, disabled mortality is assumed to follow the RP-2000 Disabled Mortality Table, set forward one year for males and set forward five years for females, with mortality improvements projected by Scale BB to 2018. For all other groups, disabled mortality is assumed to follow the RP-2000 Combined Mortality Table with no projections.

Changes in actuarial assumptions and methods since last measurement date: The discount rate increased from 2.23% to 3.31%.

Changes in benefit terms since last measurement date: None

Additional information as of the latest actuarial valuation for MUS OPEB plan follows:

Other Postemployment Benefits MUS Single Employer Plan

| | Retiree/Surviving Spouse | Spouse | | | |
|-----------------------------------------------------------|--------------------------------------------------|----------------------------------|--|--|--|
| Contributions (in thousands): Before Medicare eligibility | \$ 11,772 | \$ 9,637 | | | |
| After Medicare eligibility | 4,416 | 5,205 | | | |
| Actuarial valuation date | December 31, 2020 | | | | |
| Actuarial measurement date (1) | March 31, 2022 | | | | |
| Experience study period | January 1, 2018, through | December 31, 2020 | | | |
| Actuarial cost method | | | | | |

| Asset valuation method | Not applicable since no a plan assets under GASB | assets meet the definition of 75 | | | |
| Actuarial assumptions: | | | | | |
| Discount rate | 3.31% | | | | |
| Projected payroll increases Participation: | 2.50% | | | | |
| Future retirees | 40.00% | | | | |
| Future eligible spouses | 70.00% | | | | |
| Marital status at retirement | 70.00% | | | | |

Updated procedures were used to roll forward the total OPEB liability to the measurement date.

Mortality - Healthy: For TRS and MUS-RP, healthy mortality is assumed to follow the RP-2000 Healthy Annuitant Mortality Table for ages 50 and above and the RP-2000 Combined Healthy Annuitant Mortality Table for ages below 50, set back four years for males, set back two years for females, with mortality improvements projected by Scale BB to 2018. For all other groups, healthy mortality is assumed to follow the RP-2000 Combined Mortality Table with improvements projected by Scale BB to 2020, set back one year for males.

Mortality - Disabled: For TRS and MUS-RP, disabled mortality is assumed to follow the RP-2000 Disabled Mortality Table, set forward one year for males and set forward five years for females, with mortality improvements projected by Scale BB to 2018. For all other groups, disabled mortality is assumed to follow the RP-2000 Combined Mortality Table with no projections.

Changes in actuarial assumptions and methods since last measurement date: The discount rate increased from 2.23% to 3.31%.

Changes in benefit terms since last measurement date: None

Sensitivity of the TOL to changes in the discount rate

The following presents the TOL of the State and MUS OPEB plans, as well as what they would be if calculated using a discount rate that is 1-percentage-point lower (2.31 percent) or 1-percentage-point higher (4.31 percent) than the current discount rate:

| | | St | ate | OPEB plan (in thousand | ds) | | | | | |
|--------------------------------------------------------|------|------------------------------|-----------------------|------------------------|-----|---------|--|--|--|--|
| | 1.0% | 6 Decrease (2.31%) | 1.0% Increase (4.31%) | | | | | | | |
| Primary Government | \$ | 148,605 | \$ | 120,087 | \$ | 98,400 | | | | |
| Discrete Component Units and Fiduciary Component Units | | 4,432 | | 3,549 | | 2,873 | | | | |
| Total OPEB liability | \$ | 153,037 | \$ | 123,636 | \$ | 101,273 | | | | |
| | | MUS OPEB plan (in thousands) | | | | | | | | |
| | 1.0% | % Decrease (2.31%) | | 1.0% Increase (4.31%) | | | | | | |
| Primary Government | \$ | 607 | \$ | 465 | \$ | 362 | | | | |
| Discrete Component Units | | 61,296 | | 47,110 | | 36,688 | | | | |
| Total OPEB liability | \$ | 61,903 | \$ | 47,575 | \$ | 37,050 | | | | |

Sensitivity of the TOL to changes in the healthcare cost trend rates

The following presents the TOL of the State and MUS OPEB plans, as well as what they would be if calculated using healthcare cost trend rates that are 1-percentage-point lower (5.0 percent) or 1-percentage-point higher (7.0 percent) than the current healthcare cost trend rates:

| | State Plan (in thousands) | | | | | | | | |
|-------------------------------------------------------|---------------------------|-------------------------|----------------------------------------------|----|----------------------|--|--|--|--|
| | 1.0% Decrease (5.0%) | | Current Healthcare Cost Trend Rate (6.0%) | | 1.0% Increase (7.0%) | | | | |
| Primary Government | \$ 94,886 | \$ | 120,087 | \$ | 154,895 | | | | |
| Discrete Component Unit and Fiduciary Component Units | 2,760 | | 3,549 | | 4,633 | | | | |
| Total OPEB liability | \$ 97,646 | \$ | 123,636 | \$ | 159,528 | | | | |
| | | MUS Plan (in thousands) | | | | | | | |
| | 1.0% Decrease (5.0%) | | 1.0% Increase (7.0%) | | | | | | |
| Primary Government | \$ 361 | \$ | 465 | \$ | 612 | | | | |
| Discrete Component Unit | 36,544 | | 47,110 | | 61,919 | | | | |
| Total OPEB liability | \$ 36,905 | \$ | 47,575 | \$ | 62,531 | | | | |

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEBFor the year ended June 30, 2022, the State OPEB plan's OPEB expense is \$15.5 million and the MUS OPEB plan's OPEB expense is \$4.5 million.

At June 30, 2022, the State OPEB plan deferred outflows and inflows of resources are from the following sources:

| | State Plan (in thousands) | | | | | |
|-----------------------------------------------------------------------------------------------------|---------------------------|-----------------------------------|----|----------------------------------|--|--|
| | | Deferred Outflows of Resources | | Deferred Inflows of Resources | | |
| Primary Government | | | | | | |
| Difference between expected and actual experience | \$ | _ | \$ | 15,365 | | |
| Changes of assumptions or other inputs | | 99,625 | | 47,596 | | |
| Amounts associated with transactions subsequent to the measurement date of the total OPEB liability | | 287 | | | | |
| Total | \$ | 99,912 | \$ | 62,961 | | |
| Discrete Component Units and Fiduciary Component Units | | | | | | |
| Difference between expected and actual experience | \$ | 361 | \$ | 148 | | |
| Changes of assumptions or other inputs | | 2,660 | | 1,386 | | |
| Amounts associated with transactions subsequent to the measurement date of the total OPEB liability | | 18 | | | | |
| Total | \$ | 3,039 | \$ | 1,534 | | |

At June 30, 2022, the MUS OPEB plan deferred outflows and inflows of resources are from the following sources:

| | MUS Plan (in thousands) | | | | | |
|---------------------------------------------------|-------------------------|------------------------------|----------------------------------|--------|--|--|
| | | red Outflows of Resources | Deferred Inflows of Resources | | | |
| Primary Government | | | | | | |
| Difference between expected and actual experience | \$ | _ | \$ | 306 | | |
| Changes of assumptions or other inputs | | 475 | | 238 | | |
| Total | \$ | 475 | \$ | 544 | | |
| Discrete Component Units | | | | | | |
| Difference between expected and actual experience | \$ | _ | \$ | 26,568 | | |
| Changes of assumptions or other inputs | | 46,594 | | 24,867 | | |
| Total | \$ | 46,594 | \$ | 51,435 | | |

Deferred outflows of resources and deferred inflows of resources related to TOL will be recognized as OPEB expense as follows:

Amount recognized in OPEB expense as an increase or (decrease) to OPEB expense

| | State Plan (in thousands) | | | | | | | | | |

F. General Information Trust Plan

General Information

Section 19-3-2141, MCA, establishes a long-term disability plan trust fund (PERS-DCRP Disability) for all State of Montana employees that participate in the Public Employee's Retirement System-Defined Contribution Retirement Plan (PERS-DCRP). All new PERS members are initially members of the Public Employee Retirement System-Defined Benefit Retirement Plan (PERS-DBRP) and have a 12-month window during which they may choose to transfer to the PERS-DCRP or remain in the PERS-DBRP by filing an irrevocable election. If an election is not filed, the member remains in the PERS-DBRP. Members may not be members of both the defined contribution and defined benefit retirement plans. Only those participants that choose the PERS-DCRP are covered by the PERS-DCRP Disability plan.

Plan Description

The PERS-DCRP Disability is a multiple-employer cost-sharing plan that covers employees of the State, local governments, and certain employees of the university system and school districts, who are not covered by a separate retirement system governed by Title 19, MCA. The PERS-DCRP Disability plan provides disability benefits to PERS-DCRP plan members who are vested in the plan and are currently ineligible for retirement.

A separate trust has been established for purposes of providing disability benefits to PERS-DCRP Disability plan members, and it is accounted for as a fiduciary fund. The assets are held in a trust capacity for the beneficiaries. The Public Employee Retirement System issues publicly available annual reports, which include financial statements and required supplemental information for the plan. Those reports may be obtained online (http://mpera.mt.gov) or by contacting the following:

Public Employees' Retirement Board 100 North Park, Suite 200 P.O. Box 200131 Helena, MT 59620-0131

G. Termination Benefits

During the year ended June 30, 2022, the State made the following termination benefit arrangements: provided for one-time lump-sum incentive payments for 29 employees, and paid administrative leave for 32 employees.

During the year ended June 30, 2022, component units of the State made the following termination benefit arrangements: continued coverage of health insurance benefits and/or one-time incentive payments for 24 employees.

During the year ended June 30, 2022, the cost of termination benefits for the fiscal year was \$274.0 thousand and \$1.7 million for the State and its component units, respectively.

NOTE 8. RISK MANAGEMENT

There are three primary government public entity risk pools and one claims-servicing pool that are reported within the enterprise funds. These pools include Hail Insurance, the Montana University System (MUS) Group Insurance Plan, the MUS Workers Compensation Program, and the Subsequent Injury claims-servicing pool. The State of Montana (Old Fund) provides risk financing as an entity other than a public entity risk pool. The liability and payment of the workers' compensation claims for incidents occurring before July 1, 1990, are reported in the government-wide financial statements within the primary government. Unpaid claims and claim adjustment expenses are estimated based on the ultimate cost of settling the claims, including the effects of inflation and other societal/economic factors. Additionally, the primary government reports its own risk management activity within two internal service funds: Employees Group Benefits Plans and Administration Insurance Plans. In all of these funds, there are no significant reductions in insurance coverage from the prior year. These funds use the accrual basis of accounting. By statute, these funds cannot invest in common stock. Investments are recorded at fair value. Premiums and discounts are amortized using the straight-line method over the life of the securities.

A. Public Entity Risk Pools

(1) Hail Insurance – Any Montana producer engaged in growing crops subject to destruction or damage by hail may participate in the Hail Insurance program. The Hail Insurance program issued 357 policies during the 2022 growing season. This fund accounts for premium assessments paid by producers for crop acreage insured, investment and interest earnings, administrative costs, and claims paid for hail damage. Depending upon the reserve fund's actuarial soundness and the damage in a season, producers may receive a premium refund. Anticipated investment income is considered in computing a premium deficiency, of which there is none.

A claim must be submitted to the State Board of Hail Insurance within 14 days of a loss occurrence. The claim must indicate whether the grain is stemming, in the boot, heading out, in the milk, in the stiff dough, ready to bind, or combine. If beans, peas, or other crops are damaged, the growth-stage must also be indicated. Inspection of a crop will occur as promptly as possible after claim receipt. The liability on all insured crops expires after October 1. The insurance only covers loss or damage to growing grain that exceeds 5.0% destruction by hail.

To reduce its exposure to large losses, the fund purchased Crop Hail Quota Share Reinsurance for the 2022 growing season, with a 70.0% share of premiums and losses allotted to the Reinsurer and a 30.0% share of each allotted to the State Hail Insurance. The fund recorded a liability of \$12.0 thousand, which is 30.0% of the estimated claims (\$39.1 thousand) plus adjustment expenses through June 30, 2022. The amount deducted from the estimated claims as of June 30, 2022, for reinsurance was \$27.4 thousand (70.0% of estimated claims). The premiums ceded to the Reinsurer through June 30, 2022, were \$1.3 million, which was 70.0% of total premiums of \$1.9 million.

Any crop insurance liability is paid to the producers within one year of occurrence; therefore, liabilities are not discounted. The fund has no excess insurance or annuity contracts.

(2) Montana University System (MUS) Group Insurance Plan – This plan is authorized by the Board of Regents and in Section 20-25-13, MCA. The plan's purpose is to provide medical, dental, prescription drug, and related group benefits coverage to employees of the Montana University System and affiliates, and their dependents, retirees, and COBRA members. The MUS Group Benefits Plan is fully self-insured, except for life insurance, long-term disability, and accidental death and dismemberment insurance. Delta Dental administers the dental plan, Blue Cross and Blue Shield of Montana administers the vision plan, and Navitus is the administrator for the prescription drug program. Blue Cross and Blue Shield of Montana is the third-party claims administrators for the self-insured managed care plan and also has a contract for utilization management. The utilization management program consists of hospital preauthorization and medical necessity review, as well as large case management. Premiums are collected from employees through payroll deductions and recorded in the MUS Group Insurance enterprise fund. The claims liability is calculated by Actuaries Northwest and estimated to be \$8.8 million as of June 30,

2022, based on prior year experience. A liability is reported in the accompanying financial statements for these estimated claims.

(3) Montana University System (MUS) Workers' Compensation Program – This plan was formed to provide self-insured workers compensation coverage for MUS employees. The MUS Board of Regents provides workers' compensation coverage under Compensation Plan Number One (Section 39-7-2101, MCA). The program is self-insured for workers' compensation claims with losses in excess of \$750.0 thousand per occurrence (\$500.0 thousand for claims occurring prior to July 1, 2013) and \$1.0 million per aircraft occurrence covered by reinsurance with a commercial carrier. Employer's liability claims are covered to a maximum of \$1.0 million above the self-insured amount of \$750.0 thousand (\$500.0 thousand for claims occurring prior to July 1, 2013). During fiscal year 2022, the program ceded \$396.3 thousand in premiums to reinsurers.

The MUS Workers' Compensation Program Committee establishes premium rates for all participating campuses based on actuarial calculations of premium need and composite premium rate. Premium rates are adjusted periodically based on inflation, claims experience, and other factors. Premiums are recorded as revenue in the MUS Workers' Compensation Program in the period for which coverage is provided. Members may be subject to supplemental assessments in the event of deficiencies. The program considers anticipated investment income in determining if a premium deficiency exists.

The fund recorded a liability of \$3.9 million for estimated claims at June 30, 2022. The liability is based on the estimated ultimate cost of settling the reported and unreported claims, claims reserve development, including the effects of inflation, and other societal and economic factors. Estimated amounts of subrogation and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims. Estimated claims liabilities are recomputed periodically based on a current review of claims information, experience with similar claims, and other factors. Adjustments to estimated claims liabilities are recorded as an increase or decrease in claims expense in the period the adjustments are made.

(4) Subsequent Injury – The purpose of the Subsequent Injury Fund (SIF) is to assist individuals with a permanent impairment that may create an obstacle to employment by limiting workers' compensation exposure for employers who hire SIF-certified individuals. The program is funded through an annual assessment for Montana self-insured employers and a surcharge on premium for private insured and Montana State Fund policyholders.

The Employment Relations Division sets the assessment and surcharge rates annually. The amount assessed is calculated by adding the amount of paid losses reimbursed by SIF from April 1 of the previous calendar year through March 31 of the current calendar year, plus administration expenses, less other income earned. Employers share in the reimbursement in two ways: (1) if self-insured, the reimbursement is based on their share of overall paid losses in the previous calendar year, (2) if insured through a private carrier or Montana State Fund, the reimbursement is based on both overall paid losses in the previous calendar year, and the amount of the employer's premium paid for their business.

The SIF program reduces the liability of the employer (if self-insured) or insurer by placing a limit of 104 weeks on the amount an employer (if self-insured), or the employer's insurer, will have to pay for medical and wage loss benefits in the event a worker who is SIF-certified becomes injured or re-injured on the job. SIF will assume liability for the claim when the 104 weeks is reached. For an insured employer, since the insurer's liability is limited to 104 weeks on the claim, this can favorably impact the employer's modification factor, which in turn could keep premiums lower than would otherwise be the case without SIF. For a self-insured employer, it provides a direct recovery of expenses paid for a workers' compensation claim. If a certified worker does become injured on the job, the worker remains entitled to all benefits due under the Workers' Compensation Act.

An estimated liability is recorded based on a projected cost analysis and total population of registered SIF participants. As of June 30, 2022, this liability amount was estimated to be \$1.8 million.

(5) Changes in Claims Liabilities for the Past Two Years – As indicated above, these funds establish liabilities for both reported and unreported insured events, including estimates of future payments of losses and related claim adjustment expenses. The following tables present changes (in thousands) in those aggregate liabilities during the past two years. All information in these tables is presented at face value and has not been discounted.

| | Hail Insurance | | | MUS G Insurance | • | | MUS Workers Compensation | | |
|----------------------------------------------------------------------------------------------------------|----------------|-------|-------|--------------------|----------|-------|-----------------------------|----------|--|

| Total unpaid claims and claim adjustment expenses at end of year | \$ | 12 \$ | 76 | \$ 8,839 \$ | 10,663 | \$ \$ | 3,860 | \$ 5,234 | |

B. Entities Other Than Pools

(1) Administration Insurance Plans – This self-insurance plan provides coverage for general liability, automobile liability, automobile physical damage, foster care liability, and State-administered foreclosure of housing units. The State self-insures the \$2.0 million deductible per occurrence for most property insurance, as well as various deductible amounts for other State property. The State also self-insures against property losses below \$2.0 million of value, with State agencies paying the first \$1.0 thousand. Commercial property insurance protects approximately \$6.5 billion of State-owned buildings and contents. The State's property insurance includes separate earthquake and flood protection coverage, with deductibles of \$2.0 million for earthquake and \$2.0 million for flood per occurrence. Premiums are collected from all state agencies, including component units, and recorded as revenue in the Administration Insurance Fund.

An annual actuarial study prepared by Willis Towers Watson Company, and issued for the accident period July 1, 2011, through June 30, 2022, is the basis for estimating the liability for unpaid claims and is supported by historical loss data. As of June 30, 2022, the estimated claims liability was \$36.2 million. Of the \$36.2 million estimated claims liability, \$17.1 million is related to a catastrophic property loss for which the insurance proceeds were received prior to the incurred expenses.

(2) Employee Group Benefits Plans – The medical and dental health plans provided by the State are fully self-insured with the State assuming the risk for claims incurred by employees of the State, elected officials, retirees, former employees covered by COBRA benefits, and their dependents. The State contracted with Allegiance as the third-party administrator for medical coverage. Delta Dental is the

administrator for dental coverage. Navitus is the administrator for the pharmacy program. Contributions are collected through payroll deductions, deductions through the Montana Public Employee Retirement Administration, the Legislative Branch, and self-payments. The contributions are recorded as revenue in the Employee Group Benefits internal service fund. As of June 30, 2022, estimates for claims liabilities, which include both incurred but not reported claims and grandfathered claims resulting from a 1998 change in period for which the benefit coverage is available, as well as other actuarially determined liabilities, were \$25.9 million as provided by Actuaries Northwest, a consulting actuarial firm. In fiscal year 2023, \$25.7 million of these claims liabilities are estimated to be paid.

(3) State of Montana (Old Fund) – State of Montana (Old Fund) covers workers' compensation claims that were incurred before July 1, 1990. Old Fund was originally a risk financing insurance entity, but upon depletion of all of its assets, is now financed by the General Fund. The participants within the pool are individuals outside of governmental entities.

An actuarial study prepared by Willis Towers Watson, as of June 30, 2022, estimated the cost of settling claims that have been reported but not settled and claims that have been incurred but not reported. At June 30, 2022, \$41.5 million of unpaid claims and claim adjustment expenses were reported at face value.

(4) Changes in Claims Liabilities for the Past Two Years – These funds establish liabilities for both reported and incurred but not reported claims. Grandfathered claims are not included as they relate to future claims not yet incurred. The following table presents changes in the balances of claims liabilities during the past two fiscal years (in thousands).

| | Administration Insurance Plans (1) | | | | Employe Benefi | • | State of Montana Old Fund | | | |
|---------------------------------------------------------------------------|---------------------------------------|----------|----|----------|-------------------|-----------------|------------------------------|------|---------|--|
| | 2022 | | | 2021 | 2022 | 2021 | 2022 | 2021 | | |
| Amount of claims liabilities at the beginning of each fiscal year | \$ | 17,146 | \$ | 17,431 | \$ 19,665 | \$ 18,982 \$ | 43,704 | \$ | 48,280 | |
| Incurred claims: Provision for insured events of the current year | | 6,585 | | 5,555 | 199,225 | 181,363 | _ | | _ | |
| Increase (decrease) in provision for insured events of prior years | | 14,040 | | 6,867 | 1,651 | (3,267) | 3,151 | | 1,769 | |
| Total incurred claims | | 20,625 | | 12,422 | 200,876 | 178,096 | 3,151 | | 1,769 | |
| Payments: Claims attributable to insured events of the current year | | (2,001) | | (1,574) | (173,504) | (161,870) | _ | | _ | |
| Claims attributable to insured events of prior years | | (16,690) | | (11,133) | (21,160) | (15,543) | (5,377) | | (6,345) | |
| Total payments | | (18,691) | | (12,707) | (194,664) | (177,413) | (5,377) | | (6,345) | |
| Total claims liability at end of each fiscal year | \$ | 19,080 | \$ | 17,146 | \$ 25,877 | \$ 19,665 \$ | 41,478 | \$ | 43,704 | |

^{(1) \$17.1} million of additional claims for the Administration Insurance Plans not included in the table above, are related to a catastrophic property loss for which the insurance proceeds were received prior to the incurred expenses.

NOTE 9. COMMITMENTS

A. Highway Construction

At June 30, 2022, the Department of Transportation had contractual commitments of approximately \$477.2 million for construction of various highway projects. Funding for these highway projects is to be provided by federal grants and matched with state special revenue funds.

B. Capital Assets and/or Other Construction

At June 30, 2022, the Department of Administration, Architecture & Engineering Division (A&E) had contractual commitments of approximately \$138.4 million for planning and construction of capital projects for the renovation, deferred maintenance, and new construction of state-owned facilities. The primary government will fund \$100.8 million of these projects with \$50.9 million in capital project funds, \$17.3 million in federal special revenue funds (including \$0.4 million in ARPA federal funds), \$4.0 million in state special revenue funds, \$9.7 million in capital project funds, and \$18.9 million in proprietary funds. The Montana University System will fund \$37.6 million in university plant funds. A&E had \$1.5 million contractual commitments for the planning and implementation of the division's new Broadband Program. The Broadband Program commitments are funded with ARPA federal funds.

At June 30, 2022, the Department of Fish, Wildlife, and Parks had contractual commitments of approximately \$5.1 million for engineering and construction of various capital projects. The majority of funding for these commitments will be provided by federal grants and state special revenue funds.

At June 30, 2022, the Department of Labor and Industry had \$2.4 million contractual commitments for Montana State AmeriCorps Programs and a \$24.1 million commitment for information technology contracts. The funding for these programs is to be provided by federal grants and state special revenue funds.

At June 30, 2022, the Office of the Secretary of State had a contractual commitment of approximately \$1.5 million for developing and implementing the ElectMT system to replace the existing statewide Voter Registration and Election Management system (MT Votes). The majority of the funding for this project is to be provided by a federal grant from the U.S. Election Assistance Commission.

At June 30, 2022, the Department of Transportation, had contractual commitments of approximately \$54.8 million for engineering and construction of various infrastructure projects and approximately \$1.8 million for buses and transit facilities for various local governments and transit authorities. The funding for both of these commitments will be provided by federal funds.

C. Loan and Mortgage Commitments

The Montana Board of Investments (BOI) makes firm commitments to fund commercial loans, residential mortgages, and Veterans' Home Loan Mortgages (VHLM) from the Coal Severance Tax Permanent Trust Fund. These commitments have expiration dates and may be extended according to BOI policies. As of June 30, 2022, BOI had committed, but not yet purchased, \$25.8 million in loans from Montana lenders. Additionally, lenders had reserved \$23.0 million for loans as of June 30, 2022. As of June 30, 2022, another \$1.0 million represented lender reservations for the VHLM residential mortgage purchases with no purchase commitments.

BOI makes reservations to fund mortgages from the State's pension funds. As of June 30, 2022, there were no mortgage reservations. All BOI residential mortgage purchases are processed by the Montana Board of Housing (MBOH). MBOH does not differentiate between a mortgage reservation and a funding commitment.

BOI makes firm commitments to fund loans from the INTERCAP loan program. The BOI's outstanding commitments to eligible Montana governments, as of June 30, 2022, totaled \$26.6 million.

D. Bond Commitments

At June 30, 2022, the outstanding tax-exempt bonds distributed by the Facility Finance Authority were issued in the amount of \$7.0 million of which \$1.4 million in principal payments are scheduled to be paid by June 30, 2023. These bonds have been issued to facilities operating treatment and prerelease centers. The Department of Corrections agrees to provide payment on behalf of the contractors for the total principal and interest due regarding these outstanding bonds. These costs are then recovered through the center's monthly billing for inmate room and board.

E. Proprietary Fund Commitments

Budgets are administratively established in the enterprise and internal service funds, excluding depreciation, compensated absences, and bad debt expense. Appropriations may be committed for goods/services that are not received as of fiscal year-end. These executory commitments are included in unrestricted net position in the accompanying financial statements as follows (in thousands):

| Enterprise Funds | Amount | | | | |
|-----------------------------------|--------|-----|--|--|--|
| Liquor Warehouse | \$ | 148 | | | |
| Other Enterprise Funds | | 2 | | | |
| Subtotal - Enterprise funds | \$ | 150 | | | |
| | | | | | |
| Internal Service Funds | | | | | |
| Building and Grounds | \$ | 79 | | | |
| Commerce Central Services | | 31 | | | |
| Labor Central Services | | 66 | | | |
| Prison Industry | | 8 | | | |
| Admin Insurance | | 3 | | | |
| Subtotal - Internal Service funds | \$ | 187 | | | |

F. Encumbrances

As of June 30, 2022, the State of Montana encumbered expenditures as presented in the table below (in thousands):

| | Federal Special Revenue Fund | | | eneral Fund | Nonmajor Governmental Funds | | | State Special Revenue Fund | Total |
|--------------|---------------------------------|--------|----|-------------|-----------------------------------|-----|------|-------------------------------|---------------|
| Encumbrances | \$ | 37,333 | \$ | 19,626 | \$ | 530 | 0 \$ | 63,922 | \$ 121,411 |

NOTE 10. LEASE/FINANCED PURCHASE PAYABLES AND LEASE RECEIVABLES

A. Lease/Financed Purchase Payables

Leases and financed purchases both consist of agreements that grant the State use of property in exchange for payments over a period of time. The primary difference is that a financed purchase agreement grants ownership of the property to the State by the end of the contract period. In contrast, a lease agreement only grants the use of the property for a specified period. A lease agreement may contain an option to purchase the property or it may be a contract that transfers ownership of the property to the State with specific types of termination options. The State's lease payables are primarily related to the use of buildings, with some contracts related to the use of land and equipment. The State's financed purchase payables are exclusively associated with equipment purchases. Information regarding the right to use assets associated with leases can be found in Note 5.

Principal and interest requirements to maturity for leases and financed purchases at June 30, 2022, were as follows (in thousands):

| | | | Goverr Activ | Business-Type Activities | | | | | | | | |
|-------------------------------|--------------------|---------|-------------------|-----------------------------|-----------------------------------|----|----------------------------------|----|--------------------|----|-------------------|--|
| Fiscal Year Ended June 30: | Lease Principal | | Lease Interest | | Financed Purchase Principal | | Financed Purchase Interest | | Lease Principal | | Lease Interest | |
| 2023 | \$ | 19,230 | \$ 2,236 | \$ | 2,682 | \$ | 255 | \$ | 359 | \$ | 58 | |
| 2024 | | 17,308 | 1,938 | | 2,641 | | 307 | | 353 | | 53 | |
| 2025 | | 15,512 | 1,667 | | 2,080 | | 238 | | 359 | | 47 | |
| 2026 | | 13,452 | 1,424 | | 1,874 | | 184 | | 372 | | 41 | |
| 2027 | | 11,952 | 1,214 | | 1,776 | | 127 | | 275 | | 35 | |
| 2028 - 2032 | | 39,331 | 3,739 | | 3,107 | | 135 | | 836 | | 131 | |
| 2033 - 2037 | | 21,995 | 1,312 | | 359 | | 9 | | 752 | | 65 | |
| 2038 - 2042 | | 5,757 | 131 | | _ | | _ | | 399 | | 8 | |
| 2043 - 2047 | | 31 | 11 | | _ | | _ | | _ | | _ | |
| 2048 - 2052 | | 41 | 8 | | _ | | _ | | _ | | _ | |
| 2053 - 2057 | | 52 | 5 | | _ | | _ | | _ | | _ | |
| 2058 - 2062 | | 24 | 1 | | | | | | | | | |
| Total | \$ | 144,685 | \$ 13,686 | \$ | 14,519 | \$ | 1,255 | \$ | 3,705 | \$ | 438 | |

B. Lease Receivables

The State's lease receivables are primarily associated with the leasing of lands granted to the State to support public schools and state institutions. For the fiscal year ended June 30, 2022, the State's total lease revenue was \$5.4 million, and the related interest revenue was \$3.2 million.

C. Lease-Leaseback Transaction

The State's lease payable and lease receivable balances exclude \$745.0 thousand related to an arrangement where the State is leasing a building that was constructed on land that is being leased from the State. GASB Statement No. 87 requires such arrangements to be accounted for as a net transaction.

D. Intra-Entity Leases of Investment Properties

The State owns buildings that are recorded as investments under GASB Statement No. 72, which are leased to component units and fiduciary component units. In those cases, the component units and fiduciary component units may record lease payables. However, the State does not record receivables for leases recorded as investments.

Total lease principal and interest requirements payable to the primary government at June 30, 2022, were as follows (in thousands):

| | Dis | scretely Pompone | Presented nt Units | Fiduciary Component Units | | | | | | | | |
|-------------------------------|-----|------------------|--------------------|------------------------------|--------------|-------------------|-----|--|--|--|--|--|
| Fiscal Year Ended June 30: | | ase icipal | Lease Interest | | ase cipal | Lease Interest | | | | | | |
| 2023 | \$ | 28 3 | \$ 1 | \$ | 367 | \$ | 118 | | | | | |
| 2024 | | 29 | _ | | 387 | | 112 | | | | | |
| 2025 | | 10 | _ | | 409 | | 105 | | | | | |
| 2026 | | _ | _ | | 431 | | 98 | | | | | |

| 2028 - 2032 | | _ | _ | | 2,651 | | 331 | | | | | |
| 2033 - 2037 | | _ | _ | | 2,373 | | 99 | | | | | |
| 2038 - 2042 | | _ | | | 238 | | 2 | | | | | |
| Total | \$ | 67 5 | \$ 1 | \$ | 7,310 | \$ | 956 | | | | | |

NOTE 11. STATE SHORT-TERM DEBT AND LONG-TERM LIABILITIES

A. General Information

The State has no constitutional limit on its power to issue obligations or incur debt other than a provision that no debt may be created to cover deficits incurred because appropriations exceeded anticipated revenues. No State debt shall be created unless authorized by a two-thirds vote of the members of each house of the Legislature or a majority of the electors voting thereon. The Board of Examiners (consisting of the Governor, Secretary of State, and Attorney General) is authorized, pursuant to various enabling acts, to issue bonds and notes of the State.

B. Short-term Debt

The Board of Examiners, upon recommendation of the Department of Administration, may issue notes in anticipation of the receipt of taxes and revenues. Notes may not be issued to refund outstanding notes.

The State issues bond anticipation notes to finance the State Revolving Fund Programs that improve and rehabilitate wastewater and drinking water systems. The following schedule summarizes the activity for the year ended June 30, 2022 (in thousands):

| Bond Anticipation Notes | Beginning Balance | Additions | Reductions | Ending Balance |
|-----------------------------|----------------------|-----------|------------|-------------------|
| Drinking Water 2019D GO BAN | 149 | _ | 149 | _ |
| Drinking Water 2020N GO BAN | 1,663 | 1,537 | 3,200 | _ |
| Drinking Water 2021A GO BAN | _ | 3,100 | 1,200 | 1,900 |
| Waste Water 2021B GO BAN | _ | 3,800 | 3,800 | _ |
| Drinking Water 2022A GO BAN | _ | 50 | _ | 50 |
| Waste Water 2022B GO BAN | _ | 50 | _ | 50 |

The State's Board of Investments (BOI) is authorized to issue Intermediate-Term Capital (INTERCAP) bonds under the Municipal Finance Consolidation Act. These bonds may not aggregate more than \$190 million, as amended by the 2007 Legislature. The INTERCAP bonds provide funds for BOI to make loans to eligible government units. The bonds are not a debt or liability of the State. The bonds are limited obligations of BOI, payable solely from:

- 1. Repayments of principal and interest on loans made by BOI to participating eligible governmental units.
- 2. Investment income under the indenture.
- 3. An irrevocable pledge by BOI.

On November 30, 2021, BOI adopted Resolution 249, which allowed for the redemption of all outstanding bonds of the INTERCAP program and the issuance of a new bond to the Board of Investments Unified Investment Program. On January 25, 2022, the new special, limited obligation bond was issued for \$68.7 million. Additional discussion related to the BOI bonds is provided in Section C of Note 11. The proceeds of the bond were placed in an escrow account for the defeasance of the current outstanding bond along with \$21.9 million of cash and cash equivalents. On March 1, 2022, the existing debt of \$90.6 million in principal and \$65 thousand in interest was defeased. The BOI enterprise fund incurred \$79 thousand of issuance costs to accomplish the transaction.

As of June 30, 2022, there was no defeased debt outstanding and there was no gain or loss on the transaction. The following schedule summarizes the activity relating to the demand bonds during the year ended June 30, 2022 (in thousands):

| | Beginning Balance | A | dditions | F | Reductions | Ending Balance |
|--------------|----------------------|----|----------|----|------------|-------------------|
| Demand bonds | \$ 90,600 | \$ | _ | \$ | 90,600 | \$ _ |

C. Long-term Debt

The full faith, credit, and taxing powers of the State are pledged for the payment of all general obligation debt. Revenue and mortgage bonds are secured by a pledge from the facilities to which they relate and by certain other revenues, fees, and assets of the State and the various colleges and universities. Primary government bonds and notes outstanding on June 30, 2022, were as follows (in thousands):

| | | | | Principal | Payments | |
|------------------------------------------------------------------|--------|-----------|---------------|-------------|--------------|---------------|
| | | Amount | Interest | Fiscal Year | In Year of | Balance |
| Governmental Activities | Series | Issued | Range (%) (1) | 2023 | Maturity (2) | June 30, 2022 |

⁽¹⁾ The interest range is over the life of the obligation.

⁽²⁾ Year of maturity refers to the fiscal year.

⁽³⁾ The CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act) Program Bonds were issued to finance the costs of the State of Montana's participation in the remedial actions under Section 104 of the CERCLA 42 United States Code Sections 9601-9657, and State of Montana costs

for maintenance of sites under CERCLA. The CERCLA Bonds are secured additionally by a pledge of monies received by the State as cost recovery payments and revenues derived from the resource indemnity and groundwater assessment tax in the event cost recovery payments are insufficient.

- (4) Bonds were issued to refund the State's General Obligation Bonds (Water Pollution Control State Revolving Fund Program), Series 2015C, maturing on and after July 15, 2021; provide matching funds to enable the State to obtain capitalization grants from the U.S. Environmental Protection Agency for water pollution control facilities or other authorized improvements, to state political subdivisions; and pay costs of issuance of the Series 2020J Bonds and the refunding.
- The U.S. Highway 93 GARVEES (Grant Anticipation Revenue Vehicles) Bonds were issued for the purpose of improving a 44.8-mile stretch of U.S. Highway 93. A pledge of certain federal aid revenues secures repayment of the bonds.
- (6) U.S. Bureau of Reclamation loan to the Department of Natural Resources & Conservation.
- (7) Northern Cheyenne Tribe loan to the Department of Natural Resources & Conservation. The loan will not accrue interest and will be repaid over 39 years. The issuance of a coal severance tax bond to the tribe secures the loan repayment.
- (8) Bonds were private sales.
- On November 30, 2021, the Board of Investments adopted Resolution 249, which allowed for the redemption of all outstanding bonds of the INTERCAP program and the issuance of a new bond to the Board of Investments Unified Investment Program. The bond may be extended annually each February, with no limit on the number of extensions. The bond interest rate for the extension period will be equal to the midpoint yield of the US Treasury Bill, with the maturity closest to 365 days plus ten basis points.

D. Debt Service Requirements

Primary government debt service requirements on June 30, 2022, were as follows (in thousands):

Governmental Activities

| Fiscal Year | scal Year General Obligation Bonds Special Revenue Bonds | | | | | | | Notes Payable | | | | | |
|----------------|----------------------------------------------------------|-----------|----|----------|----|-----------|----|---------------|----|-----------|----|----------|--|
| Ended June 30: | F | Principal | | Interest | | Principal | | Interest | | Principal | | Interest | |
| 2023 | \$ | 18,765 | \$ | 4,166 | \$ | 5,225 | \$ | 326 | \$ | 728 | \$ | 41 | |
| 2024 | | 13,541 | | 3,772 | | 1,510 | | 115 | | 732 | | 41 | |
| 2025 | | 13,300 | | 3,310 | | 1,545 | | 90 | | 403 | | 41 | |
| 2026 | | 13,640 | | 2,844 | | 1,300 | | 65 | | 408 | | 41 | |
| 2027 | | 13,820 | | 2,371 | | 1,015 | | 46 | | 413 | | 41 | |
| 2028 - 2032 | | 48,251 | | 5,017 | | 2,100 | | 47 | | 2,155 | | 204 | |
| 2033 - 2037 | | 6,760 | | 652 | | _ | | _ | | 1,834 | | 82 | |
| 2038 - 2042 | | 2,695 | | 108 | | _ | | _ | | 290 | | | |
| Total | \$ | 130,772 | \$ | 22,240 | \$ | 12,695 | \$ | 689 | \$ | 6,963 | \$ | 491 | |

Business Type Activities

INTERCAP Limited

| Fiscal Year | Obligation Bonds (1) | | | | | | | | | |
|----------------|----------------------|-------------|-------|--|--|--|--|--|--|--|
| Ended June 30: | Principa | Interest | | | | | | | | |
| 2023 | \$ | - \$ | 434 | | | | | | | |
| 2024 | | _ | 434 | | | | | | | |
| 2025 | | _ | 434 | | | | | | | |
| 2026 | | _ | 434 | | | | | | | |
| 2027 | | _ | 434 | | | | | | | |
| 2028 - 2032 | | _ | 434 | | | | | | | |
| Total | \$ | - \$ | 2,604 | | | | | | | |

The bonds are payable with a one-year extension to the Unified Investment Program (UIP). The current variable rate of the interest on the bonds is 0.632% resulting in projected debt service requirements as of June 30.

⁽²⁾ The bond redemption period can be extended.

E. Summary of Changes in Long-term Liabilities

Primary government long-term liability activities for the year ended June 30, 2022, were as follows (in thousands):

| | E | Beginning Balance | A | dditions | R | eductions | Ending Balance | Dι | mounts ue Within one Year | D | Amounts ue In More Than One Year |
|------------------------------------------------------|----|----------------------|----|----------|----|-----------|-------------------|----|---------------------------------|----|-------------------------------------------|
| Governmental activities | | | | | | | | | | | |
| Bonds/notes payable | | | | | | | | | | | |
| General obligation bonds | \$ | 127,633 | \$ | 16,035 | \$ | 12,896 | \$ 130,772 | \$ | 18,765 | \$ | 112,007 |

| Notes payable | | 6,928 | | 668 | | 633 | 6,963 | | 728 | | 6,235 |
| | | 156,491 | | 16,703 | | 22,764 | 150,430 | | 24,718 | | 125,712 |
| Unamortized premium | | 14,846 | | | | 2,059 | 12,787 | | | | 12,787 |
| Total bonds/notes payable (3) | | 171,337 | | 16,703 | | 24,823 | 163,217 | | 24,718 | | 138,499 |
| Other liabilities | | | | | | | | | | | |
| Lease payable (4) | | 158,984 | | 5,449 | | 19,748 | 144,685 | | 19,230 | | 125,455 |
| Financed purchase payable (4) | | 17,379 | | 1,436 | | 4,296 | 14,519 | | 2,682 | | 11,837 |
| Compensated absences payable (1) | | 115,355 | | 53,672 | | 60,438 | 108,589 | | 59,986 | | 48,603 |
| Estimated insurance claims (2) | | 112,942 | | 224,602 | | 234,004 | 103,540 | | 55,153 | | 48,387 |
| Pollution remediation | | 167,515 | | 720 | | 9,547 | 158,688 | | 22,612 | | 136,076 |
| Net pension liability | | 2,943,785 | | 26,313 | | 1,054,102 | 1,915,996 | | _ | | 1,915,996 |
| Total OPEB liability | | 141,394 | | _ | | 22,876 | 118,518 | | _ | | 118,518 |
| Total other liabilities | | 3,657,354 | | 312,192 | | 1,405,011 | 2,564,535 | | 159,663 | | 2,404,872 |
| Total governmental activities long-term liabilities | \$ | 3,828,691 | \$ | 328,895 | \$ | 1,429,834 | \$ 2,727,752 | \$ | 184,381 | \$ | 2,543,371 |
| Business-type activities | | | | | | | | | | | |
| Bonds Payable | \$ | _ | \$ | 68,707 | \$ | _ | \$ 68,707 | \$ | _ | \$ | 68,707 |
| Lease payable (4) | | 4,066 | | _ | | 361 | 3,705 | | 359 | | 3,346 |
| Compensated absences payable (1) | | 2,299 | | 1,089 | | 1,079 | 2,309 | | 1,069 | | 1,240 |
| Estimated insurance claims | | 17,684 | | 103,230 | | 106,419 | 14,495 | | 11,459 | | 3,036 |
| Net pension liability | | 15,290 | | _ | | 4,700 | 10,590 | | _ | | 10,590 |
| Total OPEB liability | | 2,450 | | | | 420 | 2,030 | | | | 2,030 |
| Total business-type activities long-term liabilities | \$ | 41,789 | \$ | 173,026 | \$ | 112,979 | \$ 101,836 | \$ | 12,887 | \$ | 88,949 |

The compensated absences liability attributable to the governmental activities will be liquidated by several governmental and internal service funds. The Employee Group Benefits and Administration Insurance internal service funds will liquidate the estimated insurance claims liability.

^{\$17.1} million Administration Insurance Plans included in the table above are related to a catastrophic property loss for which the insurance proceeds were received prior to the expenses incurred.

⁽³⁾ Deferred outflows, including those related to bonds payable, are reported separately on the Statement of Net Position based on GASB Statement No. 65.

The beginning balance has been restated for the implementation of GASB Statement No. 87.

F. Refunded and Early Retired Debt

Prepayments

The Department of Natural Resources and Conservation (DNRC) used current available resources to prepay special revenue bond series 2020L in the amount of \$645.0 thousand, resulting in the reduction of the outstanding balance. DNRC used current available resources to prepay special revenue bond series 2020M in the amount of \$2.1 million, resulting in a payoff.

Refundinas

On January 25, 2022, BOI issued new special, limited obligation bonds and used current financial resources to defease BOI demand bonds. Further detail is provided in Section B of Note 11.

G. No-Commitment Debt

Information is presented below for financing authorities participating in debt issues. The related debt issued does not constitute a debt, liability, obligation, or pledge of faith and credit of the State. Accordingly, these bonds and notes are not reflected in the accompanying financial statements.

Montana Board of Investments (BOI)

BOI is authorized to issue Qualified Zone Academy Bonds (QZAB) under the Municipal Finance Consolidation Act as conduit (no-commitment) debt. The revenues, and in some cases, the taxing power of the borrower, are pledged to repay the bonds. At June 30, 2022, QZAB debt outstanding aggregated \$3.5 million.

BOI is also authorized to issue Qualified School Construction Bonds (QSCB) under the Municipal Finance Consolidation Act as conduit (no-commitment) debt. The revenues of the borrower are pledged to repay the bonds. At June 30, 2022, QSCB debt outstanding aggregated \$2.6 million.

H. Estimated Pollution Remediation Obligation

Estimated pollution remediation obligations address the current or potential detrimental effects of existing pollution by participating in pollution remediation activities such as site assessments and cleanups. The estimates are derived using the expected cash flows method and technical estimates from record of decisions, consent decrees, and/or settlement agreements. There may be factors influencing the estimates that are not known at this time. Prospective recoveries from other responsible parties may reduce the State's obligation.

The State's estimated pollution remediation liability as of June 30, 2022, was \$158.7 million. Of this liability, \$3.5 million resulted in settlement agreements to restore natural resources, water supplies, and natural resource-based recreational opportunities up to the settlement amount; \$155.2 million is based on decrees or settlements for remediation activities. Other estimated liabilities have been recorded for soil and Polychlorinated Biphenyls (PCB) contamination and removal of asbestos contamination. The estimated pollution remediation liability was recorded in compliance with accounting and reporting standards and does not constitute the State's total acceptance of the liability or responsibility for these matters.

I. Non-Exchange Financial Guarantee

BOI provides loan guarantees from STIP, TFIP, and the Coal Severance Tax Fund to the Facility Finance Authority (FFA). BOI exposure to bond issues, surety bonds, and designated loans of FFA totaled \$113.5 million as of June 30, 2022. FFA is a discretely presented component unit of the State of Montana. FFA guarantee requests are submitted to BOI for review and approval. BOI's participation, either duration or any other consideration, to either purchase bonds or loans or to lend money for deposit into FFA's statutorily allowed capital reserve account is explicitly limited by statute, which requires BOI to act prudently. The guarantee requests from FFA pertain to bonds issued by FFA with a term of up to 40 years. BOI receives a credit enhancement fee at FFA bond closing based on the term of the financing, the type of bond, the rating of the borrower, and the type of reserve fund. BOI and FFA have entered into an agreement detailing repayment to BOI. The credit enhancement fee received during the fiscal year was \$385.0 thousand. BOI has not had to perform on any loan guarantee in the past.

The following schedule summarizes the activity related to the non-exchange financial guarantee during the year ended June 30, 2022 (in thousands):

| Beginning Balance | | Additions | R | Reductions | Ending Balance |
|----------------------|---------|--------------|----|------------|-------------------|
| \$ | 100,248 | \$ 18,000 | \$ | 4,675 | \$ 113,573 |

NOTE 12. INTERFUND BALANCES AND TRANSFERS

A. Balances Due From/To Other Funds

Balances due from/to other funds arise when there is a timing difference between the dates that reimbursable expenditures and interfund services provided/used are recorded in the accounting system and the dates on which payments are made. Balances also arise when there is a timing difference between the dates transfers between funds are recorded and the dates on which payments are made. Balances due from/to other funds also include the current portion of balances related to amounts loaned by the Municipal Finance Programs to other funds, under the Board of Investments' INTERCAP loan program. Balances due from/to other funds are expected to be repaid within one year from origination.

Balances due from/to other funds at June 30, 2022, consisted of the following (in thousands):

| | Due to Other Funds | | | | | | | | | | | | | | | | |
|-----------------------------|--------------------|--------------------------|----|-------------|-------|------------------------|-------------|-------|----|-----------------------------|------------------------------------------------|----|-----------------------------------|--------|--------------|-----------------------------|-------|
| | | Coal Severance Tax | | Severance S | | deral ecial enue | Gene Fun | | 5 | nternal Service Funds | Nonmajor Enterprise Funds ⁽²⁾ | | Nonmajor Governmental Funds | | | State Special Revenue | Total |
| Due from Other Funds | | | | | | | | | | | | | | | | | |
| Federal Special Revenue | \$ | _ | \$ | _ | \$ | 585 | \$ | _ | \$ | _ | \$ | _ | - \$ | 224 | \$ 809 | | |
| General Fund | | _ | | 1,708 | | _ | | | | 23,555 | | _ | - | 25,876 | 51,139 | | |
| Internal Service Funds | | _ | | 33 | ; | 368 | | | | _ | | _ | - | 3 | 404 | | |
| Municipal Finance Programs | | _ | | _ | | _ | | 1,752 | | _ | | 12 | 2 | _ | 1,764 | | |
| Nonmajor Enterprise Funds | | _ | | _ | | _ | | _ | | _ | | _ | - | 5 | 5 | | |
| Nonmajor Governmental Funds | | _ | | 4,252 | | 29 | | _ | | _ | | _ | - | 804 | 5,085 | | |
| State Special Revenue (1) | | 540 | | 225 | | 211 | | | | 375 | | 2 | 2 | | 1,353 | | |
| Total | \$ | 540 | \$ | 6,218 | \$ 1, | 193 | \$ | 1,752 | \$ | 23,930 | \$ | 14 | ļ \$ | 26,912 | \$ 60,559 | | |

Total due from other funds to the state special revenue fund on the fund financial statement is reported as \$11.3 million. The difference of \$9.9 million between the amount reported above and the amount reported in the fund financial statement relates to long-term receivables. The receivables are reported on the fund financial statement, and the long-term liabilities are reported on the government-wide statement.

B. Interfund Loans Receivable/Payable

Montana statutes include a provision for interfund loans when the expenditure of an appropriation is necessary, and the cash balance in the fund from which the appropriation was made is insufficient to pay the expenditure. Interfund loans receivable/payable are expected to be repaid within one year from the date of origination.

⁽²⁾ Total due to other funds from the nonmajor enterprise funds on the fund financial statement is reported as \$24.1 million. The difference of \$196.1 thousand between the amount reported above and the amount reported on the fund financial statement relates to loans payable. The receivables are reported on the government-wide statement, and the liabilities are reported on the fund financial statement.

Interfund loans receivable/payable at June 30, 2022, consisted of the following (in thousands):

| | Interfund Loans Payable | | | | | | | | | | | | |
|-------------------------------|--------------------------------------------------|----|-----------------|----|-----|-----------------------------------|-------|---------------------------------|-----------------------------|---------|---------------|-------|---------------|
| | Coal Federal Severance Special Tax Revenue | | Special Service | | | Nonmajor Governmental Funds | | Nonmajor Enterprise Funds | State Special Revenue | | Land Grant | Total | |
| Interfund Loans Receivable | | | | | | | | | | | | | |
| General Fund | \$ 1,931 | \$ | 98,871 | \$ | 639 | \$ | 1,616 | \$ | _ ; | \$ 11,5 | 71 | \$ — | \$ 114,628 |
| Internal Service Funds | _ | | _ | | _ | | _ | | _ | | 57 | _ | \$ 57 |
| Nonmajor Enterprise Funds | _ | | 250 | | _ | | _ | | _ | 2 | 50 | _ | 500 |
| State Special Revenue | _ | | 63,690 | | 25 | | 857 | | 20 | | _ | 9 | 64,601 |
| Total | \$ 1,931 | \$ | 162,811 | \$ | 664 | \$ | 2,473 | \$ | 20 9 | \$ 11,8 | 78 | \$ 9 | \$ 179,786 |

C. Advances To/From Other Funds

Advances to/from other funds represent the portion of interfund loans that are not expected to be repaid within one year from the date of origination. Advances to/from other funds also include the noncurrent portion of balances related to amounts loaned by the Municipal Finance Programs to other funds, under the Board of Investments' INTERCAP loan program. For more information on the INTERCAP loan program, refer to Note 11.

Advances to/from other funds at June 30, 2022, consisted of the following (in thousands):

| | | Advances from Other Funds | | | | | | | | | | |
|-----------------------------|----|-------------------------------|----|------------------------------|-----------------------------------|------|----------------------------------|-----------------------------|----------|--------|--|--|
| | | Federal Special Revenue | | Internal Service Funds | Nonmajor Governmental Funds | | Non Major Enterprise Funds | State Special Revenue | | Total | | |
| Advances to Other Funds | _ | 110101100 | | | | | | | | | | |
| General Fund | \$ | 280 | \$ | _ | \$ _ | - \$ | 2,500 | \$ | — \$ | 2,780 | | |
| Municipal Finance Programs | | _ | | 6,952 | 2,000 |) | _ | | _ | 8,952 | | |
| Nonmajor Governmental Funds | | _ | | _ | _ | - | _ | | 4,561 | 4,561 | | |
| State Special Revenue | | 47,906 | | _ | 278 | } | _ | | _ | 48,184 | | |
| Total | \$ | 48,186 | \$ | 6,952 | \$ 2,278 | \$ | 2,500 | \$ | 4,561 \$ | 64,477 | | |

Additional detail for certain advance balances at June 30, 2022, follows (in thousands):

Advances from the Municipal Finance Programs under the INTERCAP Loan Program

| under the little to a little | . 09 | | | | | | |
|------------------------------------|------|---------|--|--|--|--|--|
| Departmental Function | В | Balance | | | | | |
| Natural Resources and Conservation | \$ | 3,055 | | | | | |
| Public Safety | | 1,843 | | | | | |
| Transportation | | 4,054 | | | | | |
| Total | \$ | 8,952 | | | | | |

D. Interfund Transfers

Routine transfers between funds are recorded to (1) transfer revenues from the fund legally required to receive the revenue to the fund authorized to expend the revenue, (2) transfer resources from the General Fund and special revenue funds to debt service funds to support principal and interest payments, (3) transfer resources from enterprise funds to the General Fund to finance general government expenditures, and (4) provide operating subsidies.

Interfund transfers for the year ended June 30, 2022, consisted of the following (in thousands):

| | Transfers Out | | | | | | | | | | | | | | | | |
|-----------------------------|---------------|-------------------------|----|------------------------------|--------------------------------|----|----------------------------------|---------------|---|-------------------------|------|----|---------------------------------|----|----------------------------|----|---------|
| | Se | Coal everance Tax | 5 | ederal Special Levenue | General Fund ⁽¹⁾ | (| Internal Service Funds (2) | Land Grant | | Nonm Enterp Funds | rise | | lonmajor vernmental Funds | | State Special evenue | | Total |
| Transfers In | | | | | | | | | | | | | | | | | |
| Coal Severance Tax | \$ | _ | \$ | _ | \$ — | \$ | _ | \$ - | - | \$ | _ | \$ | 435 | \$ | _ | \$ | 435 |
| Federal Special Revenue | | _ | | _ | 986 | | _ | _ | - | | _ | | _ | | 1,722 | | 2,708 |
| General Fund (1) | | 16,561 | | 161 | _ | | 20,829 | 6 | 3 | 67 | ,174 | | _ | | 26,113 | | 130,844 |
| Internal Service Funds | | _ | | _ | 1,189 | | _ | _ | - | | _ | | _ | | 2,545 | | 3,734 |
| Land Grant | | _ | | _ | 53 | | _ | _ | - | | _ | | _ | | 14 | | 67 |
| Nonmajor Enterprise Funds | | _ | | 277 | _ | | _ | _ | - | | _ | | _ | | 107 | | 384 |
| Nonmajor Governmental Funds | | 114 | | 5,139 | 138,063 | | 160 | 1,341 | 1 | | _ | | 2,196 | | 20,995 | | 168,008 |
| State Special Revenue | | 13,073 | | 11,096 | 85,963 | | 319 | 70,108 | 3 | 11 | ,631 | | 24,059 | | _ | | 216,249 |
| Unemployment Insurance | | _ | | 9,091 | _ | | _ | _ | - | | _ | | _ | | _ | | 9,091 |
| Total | \$ | 29,748 | \$ | 25,764 | \$226,254 | \$ | 21,308 | \$71,455 | 5 | \$ 78 | ,805 | \$ | 26,690 | \$ | 51,496 | \$ | 531,520 |

⁽¹⁾ Net transfers between the General Fund and the Budget Reserve Stabilization Fund were \$4.7 million to the Budget Stabilization Reserve Fund; however, those funds are combined for reporting purposes. Therefore the transfers are not accounted for in the above table as both the transfer-ins and the respective transfer-outs have been eliminated as required for proper financial reporting.

Total transfers-out for internal service funds on the fund financial statements is reported as \$36.5 million. The difference of \$15.2 million between the amount reported above of \$21.3 million and the amount reported on the fund financial statements relates to the transfer of capital assets between a governmental fund type and the internal service fund type. When capital assets are transferred between these fund types, the transferring fund reports the net book value of the capital asset as a capital contribution.

Total transfers-out for nonmajor enterprise funds on the fund financial statements is reported as \$78.8 million. The difference of \$7.2 thousand between the amount reported above of \$78.8 million and the amount reported on the fund financial statements relates to the transfer of capital assets between a governmental fund type and the nonmajor enterprise fund type. When capital assets are transferred between these fund types, the transferring fund reports the net book value of the capital asset as a capital contribution.

NOTE 13. FUND EQUITY DEFICITS

The following funds have a deficit net position remaining at June 30, 2022, as follows (in thousands):

| Fund Type/Fund | | Deficit |
|-------------------------------------|----|----------|
| Governmental Funds | | |
| Federal Special Revenue (2) | \$ | (25,275) |
| Federal/Private Construction Grants | | (1,012) |
| Internal Service Funds (1) | | |
| | | |
| Information Tech Services | \$ | (12,475) |
| Admin Central Services | | (1,452) |
| Labor Central Services | | (6,549) |
| Commerce Central Services | | (1,120) |
| OPI Central Services | | (1,854) |
| DEQ Indirect Cost Pool | | (3,333) |
| Payroll Processing | | (1,203) |
| Investment Division | | (2,908) |
| Aircraft Operation | | (441) |
| Justice Legal Services | | (948) |
| Personnel Training | | (23) |
| Other Internal Services | | (420) |
| SABHRS Finance & Budget Bureau | | (1,247) |
| Enterprise Fund (1) | | |
| Litterprise i unu | Φ. | (0.000) |
| State Lottery | \$ | (2,380) |
| Subsequent Injury | | (85) |

⁽¹⁾ The allocation of net pension liability and total OPEB liability is a significant factor in creating these deficits. For more detail related to these liabilities, see Notes 6 and 7, respectively.

Delayed fire season federally reimbursable costs, which are currently reported as unavailable revenues within deferred inflow of resources, is a significant factor creating this deficit.

NOTE 14. MAJOR PURPOSE PRESENTATION

Special Revenue and Fund Balances Classifications by Purpose – In the governmental fund financial statements, classifications of special revenue fund revenues and fund balances are presented in the aggregate. The tables presented below further display the special revenue fund revenues and fund balances by major purpose for the year ending June 30, 2022.

| | State Special Revenue By Source (in thousands) | | | | | | | | | | | | | |
|--------------------------------------------|------------------------------------------------|---------|----|---------|--------------|---------|--------------------------------|--------|----------|--------|---------------------|---------|-------|-----------|

NOTE 15. RELATED PARTY TRANSACTIONS

The Montana School for the Deaf and Blind is associated with a foundation, which is a nonprofit organization outside of state government. The school's foundation is governed by a board of directors that annually approves a budget for the financial support to be provided to the school. This budget defines the allowable expense categories for the year. A foundation accountant is the person approving the expenses to be paid by the foundation based on its budget. The accountant submits the approved invoices to the foundation's bookkeeper, who then prepares the checks and submits them to a board member who reviews backup documentation and signs the checks.

The Department of Labor and Industry Workforce Services Division rents space in Libby, MT from Mineral Plaza, LLC, in which one of the owners is a local job service manager. The term of the lease is July 1, 2013, through June 30, 2023. The annual lease amount for fiscal year 2022 was \$21.3 thousand.

The Department of Labor and Industry Workforce Services Division rented space in Cut Bank, MT from Glacier Community Health Center, Inc., in which one of the active board members is a local job service manager. The term of the lease was July 1, 2019, through August 31, 2022. The annual lease amount for 2022 was \$35.0 thousand. This lease is not being renewed.

A relative of a member of Montana Department of Transportation's (MDT) management team is part owner of a business that holds a State term contract for supplies. A term contract is a contract in which a source for supplies is established for a specific period of time at a predetermined unit price. The term contracts are issued by the State Procurement Bureau of the Department of Administration (DOA) and state agencies are required to use the DOA issued term contracts for such supplies. MDT purchased supplies from this business in the amount of \$10.0 thousand for the fiscal year ended June 30, 2022.

A relative of a member of MDT's Management Team is part owner of a business which has been granted the right by the local airport to operate and provide related services. There is only one such operator at this airport. Given this exclusivity, MDT had transactions with this business. MDT purchased services in the amount of \$36.8 thousand for the fiscal year ended June 30, 2022.

Per Sections 85-1-617 and 85-1-624, MCA, Renewable Resource Grant and Loan Program, the Department of Natural Resources and Conservation (DNRC) is eligible to issue General Obligation (GO) bonds for the purpose of making private sale loans. DNRC has applied and received "recycled loan funds" from the State Revolving Fund (SRF) program for the non-point source private loan program. The loans are GO private sale bonds. The balances for loans in repayment for fiscal year 2022 was \$278.2 thousand. The loans have interest rates of 2.5% and are repaid over 15 years. These loans are presented as Advances to Other Funds on the balance sheets.

DNRC leases an office building in Glasgow, Montana, from a current DNRC employee. Annual lease payment for the building by DNRC is \$67.5 thousand. The lease is valid through September 30, 2025. This employee is not involved in any decision making in regards to the agency lease of the office building.

Per Administrative Rules of Montana 17.58.101, the Montana Petroleum Tank Release Compensation Board (Board) is an independent board that is attached to Department of Environmental Quality (DEQ) for administrative purposes only. Board members are required to follow Montana's code of ethics, which includes recusing oneself in matters related to a conflict of interest. DEQ is required to go through a competitive bidding process to ensure this State law is followed. Four Board members were identified as having related party transactions with DEQ. These relationships include members who are: 1) an officer of a company that had a release and is receiving funds; 2) an officer of a company that is receiving funds; 3) a contractor/owner that is receiving funds; and 4) an employee of a company that had a release and is receiving funds. Total payments to all related parties were direct payments to the contractors in the amount of \$174.7 thousand, \$40.1 thousand, \$264.4 thousand, and \$1.0 million, respectively, for the fiscal year ended June 30, 2022.

There are campus-affiliated foundations within the Montana University System (MUS) identified in the Montana Board of Regents of Higher Education Policy 901.9 – Campus-Affiliated Foundations; Montana University System Foundation. The private foundations affiliated with campuses of the MUS provide support to their respective campuses, consistent with the mission and priorities of such campuses. Transactions occur between the Commissioner of Higher Education and said foundations as reimbursements for hosting MUS constituents and other related events and gatherings. Amounts differ each year based on the number of activities and events hosted in each fiscal year. For fiscal year 2022, transactions totaled \$1.9 thousand.

The MUS Group Insurance program offers insurance coverage and collects insurance premiums from the community colleges as a related party. Through December 31, 2021, insurance coverage was offered to the campus-affiliated foundations and insurance premiums were collected. The premium revenue collected was \$5.5 million for the fiscal year ended June 30, 2022. The MUS Group Insurance program no longer provides coverage for any affiliated foundations.

All lotteries that offer multi-state games transact with the Multi-State Lottery Association (MUSL), which requires the lottery directors from each of the states to be on the MUSL board of directors. The Director of the Montana Lottery is on the MUSL board along with other directors of other states. The Director of the Montana Lottery is in a position to vote and have influence for both MUSL and the Montana Lottery who have significant transactions between each other. The Montana Lottery has prize reserves with MUSL in the amounts of \$1.1 million for the fiscal year ended June 30, 2022. The prize reserve monies are assets to the Montana Lottery and would be transferred over if the Montana Lottery were to quit any of the multi-state games. Weekly, MUSL collects each state's share of prize expenses to go towards respective jackpots. If a state has a large enough prize amount or number of winners for any particular draw, MUSL would then reimburse any state for the excess amount of prizes paid out. The Montana Lottery paid MUSL \$7.3 million for its share of prizes and received reimbursements for prizes in the amount of \$2.4 million for the fiscal year ended June 30, 2022.

NOTE 16. CONTINGENCIES

Litigation

The State is party to legal proceedings, which normally occur in government operations. In the opinion of the State's legal counsel and the Department of Administration, the likelihood the legal proceedings will have a material adverse impact on the State's financial position is remote, except where listed below.

PPL v. Montana involves ownership of sections of riverbed on the Missouri, Clark Fork, and Madison rivers. The case originated in 2003, when a group of parents of school-age children sued Petitioner PPL Montana, LLC (PPL), in Federal Court, alleging that the company must pay rent for the use of state-owned riverbeds to generate hydroelectric power. After the Federal Court dismissed the case for lack of jurisdiction, PPL filed an action in state district court seeking a declaration that the state could not charge them rent for the use of the riverbeds at issue. The State intervened in the case and counterclaimed for a declaration that PPL and its co-plaintiffs unlawfully occupied state lands and must compensate the State Land Trust on behalf of its public beneficiaries for the use of those lands. The legal test for ownership of the riverbeds is whether the rivers at issue were navigable at the time of statehood. Based upon the historical record, the District Court granted the State summary judgment on the question of navigability, and the case proceeded to trial on the issue of compensation for the use of trust lands. In June of 2008, the Court issued its ruling and ordered that PPL owed the State almost \$41.0 million for past use of the riverbeds.

PPL appealed the decision to the Montana Supreme Court. The case was briefed and argued before the Court. In March of 2010, the Montana Supreme Court issued a decision upholding the district court's finding of navigability and determination of compensation.

PPL appealed the case to the United States Supreme Court. The case was briefed and argued, and in February of 2012, the Court reversed the Montana Supreme Court's decision. The United States Supreme Court concluded that the Montana courts had applied an incorrect legal standard for determining a river's navigability. The Court clarified that navigability had to be determined on a segment-by-segment basis. The Court remanded the case for further proceedings, and the case currently is pending in the Montana First Judicial District, Lewis and Clark County, Judge Michael McMahon presiding. The cause number is CDV 2004-846. Additional detail is provided below as the case has been remanded to the United States District Court, District of Montana, Helena Division.

The most obvious impact of the Supreme Court's decision is that the State is no longer entitled to the \$41.0 million judgment. The monetary amount that the State may be entitled to depends on the navigability of the rivers, which will have to be determined under the Supreme Court's segment-by-segment approach. Going forward, the litigation will focus on applying the Supreme Court's segmentation approach to determine the navigable reaches of the Madison, Clark Fork, and Missouri Rivers. At this stage, it is difficult to predict an outcome of this litigation.

A less obvious financial impact is the bill of costs that PPL submitted to the district court following the remand. PPL requested that the district court tax the State of Montana with \$1.2 million for PPL's costs relating to the appellate proceedings. All, but approximately \$31.0 thousand, relate to premiums that PPL paid for a supersedeas bond in support of staying the \$41.0 million judgment. In May 2012, the State filed its response to PPL's bill of costs and agreed to costs for \$31.3 thousand. However, the State moved the court to deny PPL's request for costs related to the supersedeas bond. The parties stipulated to hold this issue in abeyance until the court rules on all remaining matters in the case. Counsel for the State has agreed to release the supersedeas bond. In the opinion of counsel, there are good legal arguments that support the State's position that it should not be required to pay the supersedeas bond premiums; however, legal and procedural uncertainties exist that make an adverse determination reasonably possible.

This case is now known as <u>State of Montana v. Talen Montana</u>, <u>LLC et al.</u> (Cause No. CV 16-35-H-DLC-JCL). A bench trial occurred on January 3 through January 19, 2022. No decision was made by the Judge. The parties were required to submit amended proposed findings of fact and conclusions of law.

The State of Montana submitted its proposed findings and conclusions on April 29, 2022, and an amended proposed findings and conclusions on May 13, 2022. Talen filed notice of suggestion of bankruptcy on May 10, 2022. The Court entered an automatic stay of proceedings because of the bankruptcy filing on June 23, 2022. The Court lifted the stay on September 16, 2022, and ordered Talen to respond to Montana's amended proposed findings of fact and conclusions of law by October 6, 2022, which Talen complied with on October 6, 2022. The Court has not rendered a decision on parties' proposed findings of fact and conclusions of law. The State's claims against the utilities remained unchanged throughout trial and the State still holds the opinion that no further potential liability to the State is expected relative to this action.

<u>Diaz et al. v. Blue Cross and Blue Shield of Montana et al.</u> (Diaz) was a lawsuit filed in the Montana First Judicial District Court, Lewis and Clark County, Cause No. BVD-2008-956, in October 2008, by plaintiffs Jeanette Diaz, Leah Hoffman-Bernhardt, and Rachel Laudon, individually, and on behalf of others similarly situated, naming Blue Cross and Blue Shield of Montana (BCBS), New West Health Services (New West), Montana Comprehensive Health Association, and the State of Montana (State) as defendants. The complaint alleges that the defendants have violated the made-whole laws of Montana and illegally given themselves subrogation rights.

On June 12, 2009, the Plaintiffs filed with the District Court a motion for class certification. The District Court Judge denied the Plaintiffs' motion for class certification on December 16, 2009. The Plaintiffs appealed this decision to the Montana Supreme Court. As part of the review of the underlying decision denying class certification, the Montana Supreme Court remanded the case to the District Court to determine the question of whether the made-whole laws, codified in Section 2-18-902 and Section 33-30-1102, MCA, apply to the various types of third-party administrators (TPAs) at issue in Diaz. The District Court held that these laws do not apply to TPAs. The Plaintiffs appealed this decision.

On December 21, 2011, the Supreme Court issued its decision, holding that the District Court abused its discretion in denying a class action and that BCBS and New West, as TPAs of the State's health plan, are not subject to the made-whole laws as "insurers" under Section 2-18-901 to 902, MCA, or under a third-party beneficiary theory.

On June 20, 2012, the District Court ruled on the State's summary judgment motion seeking an order from the court that the State has not violated the made-whole laws in the administration of its health plan. The court denied the State's motion, ruling that the State is an insurer for the purposes of the made-whole laws and that it must conduct a made-whole analysis before exercising and subrogation/coordination of benefits rights. The State filed with the District Court a motion requesting that the court certify its decision to the Montana Supreme Court. The District Court granted the motion, and the Montana Supreme Court, over Plaintiffs' objection, ultimately agreed in a November 27, 2012, Order to hear this issue. The Plaintiffs also appealed to the Montana Supreme Court, the District Court's definition of the class action.

On August 6, 2013, the Montana Supreme Court issued its opinion, affirming the Montana First Judicial District Court's decision defining the class action to include only those State benefit plan members who had timely filed claims for covered benefits for services that took place no earlier than eight years before the filing of the Plaintiffs' complaint, which was October 23, 2008.

On November 6, 2013, the Montana Supreme Court issued its opinion, affirming the District Court's June 20, 2012 Decision that the applicable made-whole laws apply to the State benefit plan.

On September 8, 2014, the District Court issued an order ruling on several motions that the parties had filed. The principal rulings were: (i) the Court authorized Plaintiffs to proceed with additional discovery to determine if the class definition should be altered or amended; (ii) given its order to allow additional discovery, the Court held in abeyance its decision on the State's Motion for Summary Judgment requesting that the class be limited to those who timely filed claims within the one-year filing restriction contained in the State's policy; (iii) the Court granted the Plaintiffs' motions asking the Court to require the State to conform its health plans, procedures, notices, and practices to comply with the Montana Supreme Court's rulings in this case and to pay covered medical expenses, await the resolution of claims

against liability carriers, and then conduct a made-whole determination before it can exercise subrogation or accept reimbursements from its members or providers; and (iv) the Court ordered the parties to develop a class notice to be sent to past and current plan members dated back to eight years before this suit was filed. The State and Plaintiffs' counsel developed the notice that has been sent to class members.

On April 13, 2015, the District Court issued an Order on Interest to Be Paid, requiring the State to include in the payments ultimately made to class members' interest at the rate of 10.0% per annum. For claims arising before December 24, 2009, interest would begin 30 days following the Montana Supreme Court's decision in <u>Blue Cross and Blue Shield of Montana</u>, Inc. v. Montana State Auditor. For any claims arising after December 24, 2009, interest would begin starting on the day the underlying medical expenses were incurred.

On October 5, 2015, the Plaintiffs filed with the District Court a motion directing the State to pay attorney fees arising from the class action suit. On November 9, 2015, the District Court issued an order denying Plaintiffs' motion for attorney fees.

On December 14, 2015, the District Court issued an order certifying that its orders concerning interest and attorney fees were final for purposes of an appeal to the Montana Supreme Court. On January 12, 2016, the Plaintiffs filed a Notice of Appeal with the Montana Supreme Court, appealing the interest and attorney fee orders.

Pursuant to the Montana Supreme Court's mandatory mediation process, the parties reached a settlement on attorney fee payments; however, the parties did not reach agreement on the interest issue. On October 25, 2016, the Montana Supreme Court issued its ruling on the interest issue, finding that November 14, 2009, is the date that interest commences; and, for claims arising after November 14, 2009, interest will begin starting on the day the underlying medical expenses were incurred.

On April 28, 2017, the District Court appointed a Special Master to consider and resolve issues regarding expanding the class to persons with unsubmitted claims; whether to include claims after 2009; whether the State must identify members from third party administrators other than Blue Cross/Blue Shield; whether, if at all, the State must reform its systematic practices; supervising the payment and notice process; which party or parties should pay the Special Master for her time and expenses; whether the District Court should approve a partial payment of attorney fees; setting a time frame for making claims; setting a time for ending the class action; determining payment of residual funds; and any other issues as necessary to facilitate the swift and equitable resolution of the case.

As of June 30, 2017, the State paid Plaintiffs \$1.4 million in based payments plus interest.

On June 21, 2017, the Special Master issued a report and recommended order regarding the partial payment of the Plaintiffs' counsels' attorney fees. This recommendation was based on a stipulation the State and the Plaintiffs' counsel had reached, agreeing that the State would pay counsel \$400.8 thousand for claims made by individuals that could be documented. The State has paid this amount to class counsel.

The Special Master issued a second report and recommended order expanding the class on August 8, 2018. The principal findings of this recommendation were to expand the class definition to include those individuals who did not submit claims to the State for processing; to expand the class to end June 30, 2016; and to redefine the class as (a) employees, employee dependents, retirees, and retiree dependents who participate or participated in the State of Montana's health benefit plan(s), administered or operated by the State and/or the third party administrators whose claims for covered benefits took place no earlier than eight years prior to the filing of the complaint in this action, which was October 23, 2008; (b) who were injured through the legal fault of persons who have legal obligations to compensate them for all damages sustained; and (c) who have not been made whole for their damages (or for whom the State and TPAs conducted no made-whole analysis) because the State and the third party administrators

programmatically failed to pay benefits for their covered medical costs. On October 29, 2018, the District Court Judge issued an Order Adopting the Special Master's Report Expanding the Class.

As of June 30, 2018, the State paid Plaintiffs \$1.7 million in based payments plus interest.

On April 23, 2019, the District Court Judge approved the parties' motion for a process to identify and distribute residual funds for known class members on the master list for Blue Cross Blue Shield of Montana claims. On May 2, 2019, the State issued payment of \$122.0 thousand to the Hunt Law Firm for the residual funds and interest thereon.

On May 1, 2019, the parties filed the Notice to Special Master of Agreement on Notice Procedure. Pursuant to that notice, the State distributed notices to all former and current State employees enrolled in the State health plan between January 1, 2010, through June 30, 2016. Notice was distributed through email and first-class mail. The initial distribution of notices was May 23, 2019. The deadline for a claimant to return a claim to the State was November 30, 2019.

As of June 30, 2019, the State paid Plaintiffs \$2.0 million, including the payment for residual funds and interest.

As of June 30, 2020, the State paid Plaintiffs \$2.9 million for claim payments, interest, and attorney fees for Plaintiffs' counsel.

As of February 28, 2021, the state paid Plaintiffs a cumulative \$3.0 million for claim payments, interest, and Plaintiffs' attorney fees.

On March 23, 2021, Plaintiffs filed a motion to enforce an October 29, 2018 Order to address first party medical payments coverage in casualty insurance policies (the "Med-pay Claims"). Plaintiffs contend that the Med-pay Claims should be paid. On July 23, 2021, Special Master held a hearing on Plaintiffs' motion.

As of June 30, 2022, the amount State paid Plaintiffs for claim payments, interest, and attorney fees for Plaintiffs' counsel was unchanged from February 28, 2021.

Since the case is ongoing, the State does not have sufficient information to determine the ultimate cost to the State.

Disability Rights Montana v. Gootkin and Salmonsen (Cause # CV-15-22) is a civil rights case filed by the ACLU of Montana on behalf of Plaintiff, alleging deliberate indifference in the provision of mental health care to seriously mentally ill inmates at Montana State Prison. Plaintiff sought only declaratory and injunctive relief and later amended its complaint, seeking similar relief under Section 1983 of Title 42 of the United States Code, the Civil Action for Deprivation of Rights. The District Court had dismissed the case for failure to state a claim, which order was appealed by Plaintiffs to the Ninth Circuit Court of Appeals. The Ninth Circuit Court of Appeals overturned the district court's ruling and remanded the case back to the district court in front of a new judge. As a result, the Department of Corrections (Department) has participated in on-going discovery, with the aid of outside expert witnesses and the defense of the case through outside legal counsel. The parties had previously exchanged settlement proposals without success. Because of legislation enacted during the 2019 legislative session, the Department implemented significant changes in the use of restrictive housing, especially as related to seriously mentally ill inmates. The Plaintiff seeks only prospective injunctive and declaratory relief, as well as reasonable attorneys fees, litigation expenses and costs, which could likely exceed \$1.0 million.

On April 10, 2022, the parties entered into a settlement agreement in which the Department agreed to institute a number of changes in procedures related to the housing and treatment of the seriously mentally ill inmates at Montana State Prison, to be monitored by an independent monitor. The parties were responsible for their own attorneys fees and other litigation costs. At this time, the Department is unable to specify an anticipated amount of financial obligation imposed the by the settlement.

<u>Vincent, Benner, and Hoch v. DPHHS</u> (CDV-19-0314, Eighth Judicial District Court, Cascade County) was filed on May 17, 2019, by Montana Optometric Association members seeking class certification of all licensed Montana optometrists who are participating providers in Montana Medicaid. The named plaintiffs claim the Department's Medicaid rate structure discriminates against them because they are paid less than physicians (doctors of medicine or doctors of osteopathy) for performing the same services. They cite Section 37-10-104, MCA, as the basis of the discrimination claim. They seek declaratory relief and permanent injunctive relief in their claims of discrimination, violations of MAPA, breach of contract, and implied covenant of good faith. They request damages, interests, costs, and attorney fees, which would amount to more than \$1 million. Plaintiffs' motion for class certification has been fully briefed and awaiting decision since December of 2020.

Blixseth v. Montana Department of Revenue (MDOR), (BK Case No. 11-15010) Mr. Blixseth filed a Complaint in US Bankruptcy Court, District of Nevada, on December 23, 2021, against MDOR seeking costs, attorneys fees, and proximate and punitive damages. On January 25, 2022, the Department filed a Motion to Dismiss the adversary proceeding asserting Eleventh Amendment sovereign immunity. On July 27, 2022, the Bankruptcy Court granted the Department's Motion to Dismiss as to the punitive damages. However, the Bankruptcy Court denied the Department's Motion as to costs, attorneys fees, and proximate damages. The Department filed a Notice of Appeal to the 9th Circuit Bankruptcy Appellate Panel on August 10, 2022. Mr. Blixseth filed a Motion for Summary Disposition and an opposing motion to the Department's Notice of Appeal before the 9th Circuit on December 16, 2022. On that same day, Mr. Blixseth filed a Motion for Sanctions. The Department's opening brief was due to be filed December 23, 2022. The Department filed an extension motion on the opening brief but the 9th Circuit denied the motion stating that the briefing schedule is stayed until resolution of Mr. Blixseth's Motion for Summary Disposition. On December 22, 2022, the Department file a response to Mr. Blixseth's Motion for Summary Disposition and he replied on December 28, 2022. The matter remains pending before the 9th Circuit. At this time, the litigation is still dealing with the threshold jurisdictional question and no discovery has been conducted. Without answers to the jurisdictional question and the without discovery, the "degree of probability of an unfavorable outcome and any associated loss" cannot be reasonably estimated.

Portland General Electric, et al. v. North Western Energy, et al., (U.S. District Court for the District of Montana, Billings Division, CV 21-47-SPW-KLD.) The Pacific Northwest owners of Colstrip Units 3 and 4 brought constitutional challenges to SB 265 and SB 266 (2021) and other claims against Talen Montana, LLC and Northwestern Energy. The challenge to SB 266 was filed against Attorney General Austin Knudsen under a 42 U.S.C. 1983 theory, which allows recovery of attorneys' fees if successful. On October 10, 2022, Judge Watters granted summary judgment to plaintiffs, declaring SB 266 unconstitutional as violating the Contracts Clause and the Commerce Clause of the U.S. Constitution. Final judgment was entered November 15, 2022.

The Plaintiff Pacific Northwest owners have demanded approximately \$1.2 million in attorneys' fees and costs. The state is attempting to schedule a mediation of the attorneys' fees and costs issues with Magistrate Judge Johnson for some time in February. The Attorney General will not appeal the merits of the summary judgment decision.

<u>Public Employee Retirement Board (PERB)</u> – Refer to Note 6, section K, for contingency disclosure information.

Montana State Fund – Refer to Note 18, Section O, for contingency disclosure information.

Federal Contingencies

<u>Federal Grants</u> – The State receives significant financial assistance from the Federal government in the form of grants and entitlements, including several non-cash programs (which are not included in the basic financial statements). Receipt of grants is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable Federal regulations, including the expenditure of resources for eligible purposes. Substantially all grants are subject to either the Federal Single Audit Act or financial and compliance audits by the granter agencies of the Federal government or their designees. Disallowances and sanctions as a result of these audits may become liabilities of the State. The State's

management believes ultimate disallowances and sanctions, if any, will not have a material effect on the basic financial statements.

<u>Food Distribution Program</u> – The amount reported for Food Distribution programs (Assistance Listing Number (ALN) #10.555, #10.565, #10.567, #10.569, and #93.053) represents the dollar value of food commodities distributed to eligible recipients during the year. The U.S. Department of Agriculture provides the current value of the commodities used by the State to compute the amount reported. The amount of funds received to administer the program is also included in the reported amount. The State also distributes food commodities to other states in the western region of the United States, the value of which is excluded from the reported amounts. During fiscal year 2022, the State distributed \$288.3 thousand of food commodities under ALN #10.567 to other states.

The State distributed \$10.6 million in commodities in fiscal year 2022. The value at June 30, 2022, of commodities stored at the State's warehouse, is \$6.6 million, for which the State is liable in the event of loss. The State has insurance to cover this liability.

Miscellaneous Contingencies

<u>Gain Contingencies</u> – Certain natural resource and corporate tax assessments are not reported on the State's financial statements because they are being protested administratively. As of June 30, 2022, the following assessments (by fund type) were outstanding (in thousands):

| Taxes | Ge | neral Fund | Sp | ecial Revenue |
|--------------------------|----|------------|----|---------------|
| Corporate Tax | \$ | 10,335 | \$ | _ |
| Oil & Gas Production Tax | | 177 | | 32 |
| Total | \$ | 10,512 | \$ | 32 |

The collectability of these contingencies is dependent upon the decisions of the court, other authorities, or agreed upon settlements. The corporate tax assessments include material estimates that could result in a significant reduction of the tax assessed once actual numbers are provided. Interest related to corporate tax assessments is distributed to the General Fund and is included in the assessment total above.

The oil and gas production tax noted above represents the state portion of the total protested amount of \$391.6 thousand.

<u>Loss Contingencies</u> – Certain corporations have requested refunds that are not reported on the State's financial statements as of June 30, 2022. The corporations have appealed the Department of Revenue's decision to deny or adjust the refund. As of June 30, 2022, these include \$8.6 million of General Fund corporation tax refunds. \$4.6 million of the \$8.6 million total is related to interest. It is estimated this corporation tax refunds could be significantly reduced or eliminated due to audits and appeals currently in process.

NOTE 17. SUBSEQUENT EVENTS

Investment Related Issues

Since June 30, 2022, the Board of Investments (BOI) has:

- Made additional commitments to fund loans from the INTERCAP loan program of approximately \$11.1 million.
- 2. Committed an additional \$350.0 million within Real Estate, \$250.0 million within Real Assets, and \$195.0 million within Private Investments, of which \$595.0 million is related to Consolidated Asset Pension Pool (CAPP), \$185.0 million to Trust Funds Investment Pool (TFIP), and \$15 million to Separately Managed Accounts (SMA).
- 3. Funded an additional \$12.5 million to Montana lenders from the Coal Severance Tax Permanent Fund's In-State Loan Program.
- 4. Reserved \$5.1 million for the Veterans' Home Loan Program (VHLM) residential mortgage purchases.

Other Subsequent Events

On July 25, 2022, and September 22, 2022, the Department of Natural Resources & Conversation (DNRC) prepaid debt on the Wastewater 2020J General Obligation Bond in the amount of \$4.7 million and \$985.0 thousand, respectively.

Since June 30, 2022, as a result of the Bipartisan Infrastructure Law (BIL), DNRC has been awarded \$54.8 million of additional federal grant funds.

As part of the National Opioid Settlement (Settlement), on August 16, 2022, and October 4, 2022, the Montana Attorney General partially finalized settlement agreements with certain opioid distributors and manufacturers totaling \$78.0 million. Additional negotiations are expected to finalize the Settlement, which the State has determined an additional \$57.9 million is reasonably possible to be awarded. The Settlement will be used to combat the opioid crisis, with a 15.0% allocation to the State, a 15.0% allocation to Montana local governments, and a 70.0% allocation to The Montana Opioid Abatement Trust (Trust) established by the Attorney General. The State is currently evaluating the reporting nature of the Trust entity.

On January 4, 2023, the Montana Attorney General signed a consent judgment that secured approximately \$6.3 million for the State, to resolve a multi-state investigation over marketing and sales practices with JUUL Labs, an e-cigarette manufacturer. The settlement will be paid out over a period of six to ten years.

On January 10, 2023, a proposed settlement was filed in the U.S. Bankruptcy Court requiring W.R. Grace & Co. to pay \$18.5 million to resolve the Montana Department of Environmental Quality's claims for the Libby Asbestos Superfund Site.

On February 28, 2023, the U.S. Supreme Court (Court) ruled that unclaimed MoneyGrams are similar to money orders, and are governed by the Disposition of Abandoned Money Orders and Traveler's Check Act (Federal Disposition Act or FDA). This Act requires that unclaimed MoneyGrams escheat to the state in which they were purchased. The amount Montana will receive as a result of this case is undetermined.

On March 13, 2023, Governor Gianforte signed several bills into law to provide Montanans immediate tax rebates and permanent, long-term tax relief, including \$500.0 million in permanent income tax relief, \$280.0 million in property tax relief, income tax rebates up to \$1,250, lowering the capital gains tax rates, and increasing the business equipment tax exemption from \$100.0 thousand to \$1.0 million, and to pay off \$40.0 million of the State's general obligation debt over the next two years.

NOTE 18. COMPONENT UNITS

A. Condensed Financial Statements

Below are the condensed financial statements of the component units for the State of Montana as of June 30, 2022 (in thousands):

Condensed Statement of Net Position

| | Component Units | | | | | | | | | | | |
|------------------------------------------|--------------------------------|----------------------------------|-------------------------------------------|-----------------------------------------|--------------------------------|-----------------------------|-----------------------------|--|--|--|--|--|
| | Montana Board of Housing | Facility Finance Authority | Montana Reinsurance Association (1) | Montana State Fund ⁽¹⁾ | Montana State University | University of Montana | Total Component Units | | | | | |

Montana Reinsurance Association and Montana State Fund report their financial statements on a calendar-year basis. The information provided is for the year ended December 31, 2021.

B. Cash/Cash Equivalents and Investments

Due to the integration of funds and combined financial information, component unit cash and cash equivalents, equity in pooled investments, and investments are included with the primary government in Note 3. For more detail on investments held outside of the Montana Board of Investments, refer to the entity's respective separately issued financial statements.

⁽²⁾ Transfers to both Montana State University and the University of Montana are appropriated by the State legislature to assist with higher education related costs.

⁽³⁾ Transfers to Montana Reinsurance Association is the association member assessments collected by Montana Commissioner of Securities and Insurance.

C. Capital Assets

The following table summarizes net capital assets reported by the discretely presented component units (in thousands). All component units, other than higher education units, are included under the "Other" caption for this schedule:

| | Montana State niversity | niversity of Montana | Other | Total |
|----------------------------------------------------------|-------------------------------|-------------------------|-----------------|-------------|
| Capital assets not being depreciated: | | | | |
| Land | \$ 8,203 | \$ 8,306 | \$ 1,139 \$ | 17,648 |
| Construction work in progress | 11,252 | 25,092 | _ | 36,344 |

|----------------------------------------------|-------------------------|--------------------------|----|----------|---------|
| Right to Use Lease Capital Assets | \$ 36,744 | 1,802 | \$ | 8,682 \$ | 47,228 |
| Right to Use Lease Accumulated Amortization | (4,502) | (1,073) |) | (794) \$ | (6,369) |
| Total Right to Use Lease Capital Assets, net | \$ 32,242 | 729 | \$ | 7,888 \$ | 40,859 |

D. Other Postemployment Benefits (OPEB)

Non-university component units are included in the State of Montana benefit plan, whereas the Office of the Commissioner of Higher Education (included in the primary government otherwise) is included in the Montana University System benefit plan. For these reasons, component unit OPEB information is included in Note 7.

E. Risk Management

(1) Montana State Fund or New Fund (MSF) – MSF estimates unpaid claims and claim adjustment expenses based on the ultimate cost of settling the claims, including the effects of inflation and other societal/economic factors. There are no significant reductions in insurance coverage from the prior year, nor any insurance settlements exceeding insurance coverage for the last three years for MSF. This fund uses the accrual basis of accounting. Montana State Fund investments are recorded at fair value, and the premiums and discounts are amortized using the scientific interest method over the life of the securities.

This fund provides liability coverage to employers for injured employees who are insured under the Workers Compensation and Occupational Disease Acts of Montana and workers compensation claims occurring on or after July 1, 1990. MSF is a self-supporting, competitive State fund, and functions as the guaranteed market. At December 31, 2021, approximately 23,200 employers were insured with MSF. Anticipated investment income is considered for computing a premium deficiency, and employers must pay premiums to MSF within specified time frames.

An actuarial study prepared by WTW, as of December 31, 2021, estimated the cost of settling claims that have been reported but not settled and claims that have been incurred but not reported. Due to the fact that actual claim costs depend on complex factors such as inflation and changes in the law, claim liabilities are recomputed periodically using a variety of actuarial and statistical techniques. These techniques are used to produce current estimates that reflect recent settlements, claim frequency, and other economic and societal factors.

A provision for inflation is implicit in the calculation of estimated future claim costs because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. As of December 31, 2021, \$936.0 million of unpaid claims and claim adjustment expenses were presented at face value.

Section 39-71-2311, MCA, requires MSF to set premiums, at least annually, at a level sufficient to ensure adequate funding of the insurance program during the period the rates will be in effect. It also requires MSF to establish a minimum surplus above risk-based capital requirements to support MSF against risks inherent in the business of insurance.

For the year ended December 31, 2021, MSF ceded premiums to other reinsurance companies to limit the exposure arising from large losses. These arrangements consist of excess of loss contracts that protect against individual occurrences over stipulated amounts, and an aggregate stop-loss contract which protects MSF against the potential that aggregate losses will exceed expected levels expressed as a percentage of premium. The excess of loss contract provides coverage for occurrences up to \$100.0 million; however, MSF retains the first \$10.0 million of coverage. The excess of loss protection applies to an individual occurrence with a maximum of \$10.0 million on any one life.

The aggregate stop-loss contract provides coverage based on MSF's premium levels not to exceed 20.0% of the subject net earned premium. In the event reinsurers are unable to meet their obligations, under either the excess of loss contracts or the aggregate stop loss contract, MSF would remain liable for all losses, as the reinsurance agreements do not discharge MSF from its primary liability to the policyholders.

Premium revenue was reduced by premiums paid for reinsurance coverage of \$9.5 million during the year ended December 31, 2021.

Estimated claim reserves were reduced by \$725.9 thousand as of December 31, 2021, for the amount of reinsurance estimated to be ultimately recoverable on incurred losses due to the excess of loss reinsurance contract. There were no estimated recoverables due to the aggregate stop-loss contract.

(2) Montana Reinsurance Association (MRA) – MRA estimates its liability for claims that were incurred before year-end, but for which payment will not be made until after year-end. The estimate is based on information concerning incurred but not reported claims provided by MRA members that are currently participating in the Montana individual marketplace. The MRA's Board monitors the estimates with assistance from actuarial consultants, and the necessary adjustments are reflected in current operations. Differences between actual and estimated claims are charged to operations in the year that the differences, if any, become known.

The provision for incurred losses and loss adjustments increased during the years ended December 31, 2021 and 2020. The change is primarily due to unanticipated developments during the year on losses incurred from previous years, and the corresponding change in the actuarial estimates of ultimate liabilities for incurred claims from those years.

(3) Changes in Claims Liabilities for the Past Two Years – As indicated above, the funds establish liabilities for both reported and unreported insured events, including estimates of future payments of losses and related claim adjustment expenses. The following table presents changes (in thousands) in the aggregate liabilities for Montana State Fund net of estimated reinsurance recoverable, and the liabilities for Montana Reinsurance Association. The information presented is at face value and has not been discounted.

| | Montana State | Fund | Montana Reinsurance Association | | | | |
|---------------------------------------------------------------------------------------------------|------------------|------------|------------------------------------|--------|--|--|--|
| Year Ended December 31, | 2021 | 2020 | 2021 | 2020 | | | |
| Unpaid claims and claim adjustments expenses at beginning of year | \$ 940,161 \$ | 956,594 \$ | 32,890 \$ | _ | | | |
| Incurred claims and claim adjustment expenses: Provision for insured event of the current year | 133,103 | 125,599 | 39,116 | 32,890 | | | |
| Increase (decrease) in provision for insured events of prior years | (29,843) | (27,224) | (7,681) | | | | |
| Total incurred claims and claim adjustment expenses | 103,260 | 98,375 | 31,435 | 32,890 | | | |

F. Lease Payables

Discretely presented component units reported lease payables primarily related to the use of buildings and equipment. Information regarding the right to use assets associated with leases can be found in Section C of Note 18.

Principal and interest requirements to maturity for leases at June 30, 2022, were as follows (in thousands). All component units, other than higher education units, are included under the "Other" caption for this schedule:

| Fiscal Year | | Montan Unive | | | University of Montana | | | | Otl | her | | Total | | | | | |
|----------------|----|-----------------|----|--------|--------------------------|---------------------------------------|----|---------|-------------|----------|----------|-------|--------|----|-------|--|--|

G. Lease Receivables

The Leases Receivables reported by Montana State University (MSU) and the University of Montana (UM) were associated with the leasing of building space. For the fiscal year ended June 30, 2022, MSU reported total lease revenue of \$375.2 thousand and related interest revenue of \$36.1 thousand while UM reported total lease revenue of \$293.6 thousand and related interest revenue of \$134.8 thousand.

H. Debt Service Requirements

Debt service requirements of discretely presented component units at June 30, 2022, were as follows (in thousands):

Mantana Ctata Hubranaltu

| Total discretely presented component units | ' long | g-term liabili | ties | | | | | | \$ | 212,881 | \$ | 2,028,903 |

⁽¹⁾ When applicable, this amount includes unamortized discounts and unamortized premiums.

Beginning balances are taken from component unit financial statements, which may have been adjusted from the prior year's ending balances.

⁽³⁾ Inter-entity transaction eliminations between Montana University System component units for debt shown in the component unit information can cause negative balances in component unit information.

The beginning balance has been restated for the implementation of GASB Statement No. 87.

The beginning balance has been restated due to the change in the reporting entity.

J. Refunded and Early Retired Debt

Refunded Debt

On October 19, 2021, Montana State University (MSU) issued Series G 2021 tax-exempt bonds in the amount of \$45.6 million, to refund the Series C 2016 Facilities Improvement Revenue drawn-down bonds. The refunding resulted in an economic gain of \$1.0 million.

On October 19, 2021, MSU issued Series H 2021 refunding taxable bonds in the amount of \$72.1 million, to refund the Series N 2012 bonds, the Series O 2012 bonds, and the Series A 2013 bonds. The advanced refunding resulted in an economic gain of \$0.8 million for Series N 2012, \$0.2 million for Series O 2012, and \$8.2 million for Series A 2013.

Defeased Debt Outstanding

The University of Montana has defeased certain bond issues by placing the proceeds of new bonds in an irrevocable trust. The proceeds, together with interest earned thereon, will be sufficient for future debt service payments on the refunded issues. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the University's consolidated financial statements. As of June 30, 2022, \$91.7 million of bonds outstanding were considered defeased.

K. No-Commitment Debt

Information is presented below for financing authorities participating in debt issues. The State has no obligation for this debt. Accordingly, these bonds and notes are not reflected in the accompanying financial statements.

Facility Finance Authority (FFA)

FFA is authorized to issue bonds and notes to finance projects for qualifying health care and other community-based service providers. The revenue bonds are payable solely from loan repayments to be made by eligible facilities pursuant to loan agreements, and further, from the funds created by the indentures and investment earnings thereon. The notes are payable solely from loan repayments pursuant to loan agreements. The revenue bonds and notes payable issued by FFA do not constitute a debt, liability, obligation, or pledge of faith and credit of the State of Montana, with the exception of the Montana State Hospital Project included in Note 11. At June 30, 2022, revenue bonds and notes outstanding aggregated \$1.4 billion.

The Board of Investments and FFA have entered into a capital reserve account agreement for certain bond issues. See Note 11 for more information.

Montana Board of Housing (MBOH)

MBOH is authorized to issue bonds and make mortgage loans in order to finance affordable housing for Montana residents. The bonds are special limited obligations, payable solely from pledged revenues and assets of the borrower, not general obligations of MBOH. These bonds issued by MBOH do not constitute a debt, liability, obligation, or pledge of faith and credit of the State of Montana. At June 30, 2022, bonds outstanding aggregated \$258.9 million.

L. Non-Exchange Financial Guarantee

BOI provides loan guarantees from STIP, TFIP, and the Coal Severance Tax Fund to the Facility Finance Authority (FFA). BOI exposure to bond issues, surety bonds, and designated loans of the FFA totaled \$113.6 million as of June 30, 2022. FFA is a discretely presented component unit of the State of Montana. FFA guarantee requests are submitted to BOI for review and approval. BOI's participation, either duration or any other consideration, to either purchase bonds or loans or to lend money for deposit into FFA's statutorily allowed capital reserve account is explicitly limited by statute, which requires BOI to act prudently. The guarantee requests from FFA pertain to bonds issued by FFA with a term of up to 40 years. BOI and FFA have entered into an agreement detailing repayment to BOI. BOI has not had to perform on any loan guarantee in the past.

The following schedule summarizes the activity related to the non-exchange financial guarantee during the year ended June 30, 2022 (in thousands):

| Beginning Balance | Additions | Reductions | Ending Balance |
|----------------------|-----------|------------|-------------------|
| \$ 100,248 \$ | 18,000 \$ | 4,675 \$ | 113,573 |

M. Derivative Instrument Transactions Related to Long-term Debt

Montana State University (MSU) has two interest rate swaps as of June 30, 2022. Interest rate swaps are classified as hedging derivative instruments if the instruments meet the criteria of paragraphs 27 (a) and (b) of GASB Statement No. 53 – *Accounting and Financial Reporting for Derivative Instruments* (GASB 53), or as investment derivative instruments if they do not. The following table summarizes the interest rate swaps outstanding as of June 30, 2022:

| Derivative Instrument Description | Trade Date | Effective Date | Termination Date | Terms | Counterparty |
|--------------------------------------|---------------|-------------------|---------------------|-------------------------------------------|--------------------------------------|
| 25.75 million fixed payer swap | 3/10/2005 | 7/21/2005 | 11/15/2035 | Pay 3.953%, Receive SIFMA ¹ | Deutsche Bank AG |
| 25.25 million basis swap | 12/19/2006 | 11/15/2007 | 11/15/2035 | Pay SIFMA, Receive 86.8% of 10-year SIFMA | Morgan Stanley Capital Services Inc. |

¹ Securities Industry and Financial Markets Association (SIFMA)

As of June 30, 2022, the fixed payer swap is classified as a hedging derivative instrument under GASB 53, whereas the basis swap is an investment derivative instrument because there is no identified financial risk being hedged by the basis swap that can be expressed in terms of exposure to adverse changes in cash flows or fair values. GASB 53 includes four methods for evaluating hedge effectiveness; a governmental entity may use any of the evaluation methods outlined in GASB 53 and is not limited to using the same method from period to period. The four methods described in GASB 53 are: consistent critical terms, synthetic instrument, dollar-offset, and regression analysis. In addition, GASB 53 permits a governmental entity to use other quantitative methods that are based on "established principles of financial economic theory." The fixed payer swap passes the established criteria using the regression analysis methodology.

The fair values of the interest rate swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps. To measure non-performance risk for a derivative instrument liability, credit spreads implied by the credit rating for debt issues by entities with similar credit characteristics were used. This is the best method available under current market conditions since MSU has no credit default swaps that actively trade in the marketplace. For a derivative instrument asset, the adjustment for non-performance risk of counterparties was determined by analyzing counterparty-specific credit default swaps, if available. If not available, credit default swaps in the market for entities of similar type and rating were used, along with information found in various public and private information services. This analysis is used to construct a credit curve that is applied to the discount curve on the net settlement payments of the derivative instrument.

The counterparty to the fixed payer swap had the right to terminate the swap at \$0 on December 14, 2016 (a European option) but did not exercise the option. As of the trade date, the option's value included intrinsic value and time value. The option's intrinsic value (calculated as the difference between the atmarket rate of 4.11% and the off-market rate of 3.953%) is accounted for as a loan receivable and is repaid by the off-market portion of each swap payment. On September 10, 2010, the Series J bonds were converted to index bonds. On September 4, 2018, the original Series J bonds were refunded in full with proceeds from the Series F 2018 bonds, which were issued in a "SIFMA Index Rate" mode. While in the SIFMA Index Rate, and through the Index Interest Rate Period, which spans from September 4, 2018,

through and including September 1, 2023, the interest rate is reset weekly at a rate of the SIFMA rate plus a fixed spread. The spread is based on the long-term, unenhanced rating assigned to MSU with the current spread as of June 30, 2022, was 0.45%, which remains constant through the Index Interest Rate Period. The dependent variable in the regression is the interest rates of the hedged cash flows; the independent variable is the floating rates due under the hedging derivative instrument.

The fair value of the fixed payer swap liability as of June 30, 2022, is at fair value level 2 and was based on forward SIFMA rates using the three-month Libor Zero Curve, and the BMA Swaption Volatility on the AA Rated Muni Revenue Curve. The fair value of the nonhedging derivative instrument investment is also at level 2 and was based on forward SIFMA rates using the 10-year forward BMA constant maturity swap using the three-month Libor Zero Curve, and the BMA Swaption Volatility on the counterparty's credit default swap.

The following table summarizes the reported balances as of, and the derivative instrument activity during, the year ended June 30, 2022, (in thousands):

| | | Activity Durin | g 2021 | Fair Values at June | June 30, 2021 | | |
|-----------------------------------|----------|--------------------|---------|-----------------------------------------|---------------|--|--|
| Cash flow hedges: | Notional | Classification | Amount | Classification | Amount | | |
| Cash flow hedge – | | | | | | | |
| Pay fixed interest rate swap | 16,575 | Interest expense | 17 | Loan receivable | 157 | | |
| | | Investment income | _ | Derivative instrument liability | 79 | | |
| | | Deferred outflow | (2,243) | Derivative instrument borrowing | 1,967 | | |
| Investment derivative instrument- | | | | | | | |
| Basis swap | 16,575 | Investment revenue | 80 | Investment (excluding interest accrued) | (79) | | |

The objective and terms of MSU's hedging derivative instrument outstanding as of June 30, 2022, is as follows (in thousands):

| Туре | Type Objective | | Notional amount Effective Date | | Termination Date | Cash (Paid)/ Received | | Terms | |
|------------------------------------------|-------------------------------------------------|----|--------------------------------|-----------|---------------------|--------------------------|---|-----------------------------|--|
| Pay fixed, cancelable interest rate swap | Hedge interest rate risk on Series F 2018 Bonds | \$ | 16,575 | 7/21/2005 | 11/15/2035 | \$ | _ | Pay 3.953% Receive SIFMA | |

Credit Risk

It is MSU's policy to enter into derivative instrument agreements with highly rated counterparties. As of June 30, 2022, counterparty ratings were A2 by Moody's and BBB+ by Standard and Poor's (S&P). MSU manages credit risk by requiring its counterparties to post collateral in certain events. MSU is entitled to collateral from its fixed payer swap counterparty if the interest rate swap's fair value is greater than \$5.0 million, and the counterparty is rated A+ or A by S&P, or A1 or A2 by Moody's. If the counterparty to the fixed payer swap is rated A- or below by S&P, or A3 or below by Moody's, MSU is entitled to collateral up to 100% of the swap's fair value. MSU is not required to post collateral. MSU will continue to monitor counterparty credit risk.

MSU enters into derivative instrument agreements with multiple counterparties to limit the concentration of credit risk. Currently, MSU has interest rate swaps with two different counterparties, and each counterparty accounts for approximately 50% of outstanding notional. MSU monitors counterparty credit risk on an ongoing basis.

Interest Rate Risk

Interest payments on variable rate debt will typically increase as interest rates increase. MSU believes it has significantly reduced interest rate risk by entering into a pay-fixed, receive floating interest rate swap.

As interest rates increase, net swap payments decrease so that changes in hedged variable-rate debt interest payments, attributable to SIFMA, are largely offset by the net swap payments.

Basis Risk

The variable-rate cash flows being hedged by the pay-fixed swap will increase or decrease as SIFMA rates increase or decrease. Because the hedged cash flows are SIFMA based and the floating receipts of the pay-fixed swap are SIFMA based, there is no basis risk.

Termination Risk

MSU or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. In addition, MSU's fixed payer swap counterparty has the right to terminate the derivative instrument if the credit rating of MSU's unenhanced long-term revenue bond rating is withdrawn, suspended, or reduced below BBB-, in the case of S&P, or below Baa3 in the case of Moody's. If such an event occurs, MSU could be forced to terminate the fixed payer swap in a liability position. As of June 30, 2022, MSU's unenhanced long-term revenue bond rating was Aa3 by Moody's and A+ by S&P.

Foreign Currency Risk

All hedging derivative instruments are denominated in U.S. Dollars, and therefore MSU is not exposed to foreign currency risk.

Market Access Risk

Market access risk is the risk that MSU will not be able to enter credit markets or that credit will become more costly. For example, to complete a derivative instrument's objective, an issuance of refunding bonds may be planned in the future. If at that time MSU is unable to enter credit market, expected cost savings may not be realized.

N. Related Party Transactions

Private nonprofit organizations with relations to the University of Montana (UM) include the Alumni Association, the Montana Technology Enterprise Center (MonTEC), the Montana Tech Booster Club, and the Montana Tech Alumni Association. The associations and booster club operate exclusively to encourage, promote, and support educational programs, research, scholarly pursuits, and athletics at, or in connection with, UM. For the year ended June 30, 2022, \$304.4 thousand was transferred from or expended by the Montana Tech Booster Club for scholarships, academic and institutional support, respectively. In exchange, UM provides the associations and booster club with office space, staff, and some related office expenses.

MonTEC was established as a nonprofit 501(c)3 corporation in fiscal year 2001 as a result of an agreement between UM and the Missoula Area Economic Development Foundation (MAEDF). MonTEC provides low-cost lease space and business consulting to local "start-up" companies. The corporation's board of directors is comprised of four members. Two members of the board of directors are UM employees, and two are non-UM employees. UM does not provide office space or other services to MonTEC.

Private nonprofit organizations affiliated with Montana State University (MSU) include the MSU-Bozeman Bookstore, Friends of KUSM, and Friends of KEMC. MSU-Bozeman leased certain office space from the MSU Foundation's wholly owned subsidiary, Advanced Technology Inc. (ATI). Rental and other payments to ATI totaled \$450.6 thousand for the year ended June 30, 2022. Friends of Montana Public Television provided \$1.6 million and Friends of KEMC Public Radio provided \$1.2 million in support of the University's television and radio stations for the year ended June 30, 2022.

O. Litigation Contingencies

<u>Logan Combs v. Big Sky Building Systems, Inc. et al.</u>: On February 24, 2022, Plaintiff Logan Combs filed suit in the Montana Eighteenth Judicial District Court in Gallatin County, Montana. The suit relates to a

catastrophic workplace injury Combs suffered on or about April 14, 2021. The named defendants include two Montana State Fund (MSF) policyholders: Big Sky Building Systems, Inc., and JAWC, LLC. The suit alleges that these two policyholders were contractors on the worksite and pleads two causes of action: common-law negligence and failure to provide a safe workplace under Section 50-71-201, MCA. All MSF policies include an Employer Liability ("EL") coverage component. Taken together, the EL per-accident coverage limits for the two policyholders exceed \$1.0 million. Given the nature of Mr. Combs' injuries, it is anticipated that the asserted value of his claim may exceed \$1.0 million. The complaint in this action has been served, and the matter is in the discovery phase. As of February 2023, MSF believes it has significant viable defenses to the claim and assess the probability of recovery against MSF to be reasonably possible.

P. Subsequent Events

On July 1, 2022, Montana Board of Housing (MBOH) issued a Multifamily Housing Revenue private placement conduit bond, Series 2022, in the amount of \$7.4 million for the Bridger Peaks Apartment Project.

On September 13, 2022, Oakwood Village in Havre, Montana, requested a decrease to their Coal Trust loan from \$3.6 million to \$2.1 million, and a \$1.5 million loan from the Multifamily Loan Program funds to cover the decrease in Coal Trust funds. The change was due to a property tax issue related to the Coal Trust funds loan that was unknown until close to closing. The loan was closed on November 1, 2022.

On November 17, 2022, MBOH issued a Multifamily Housing Revenue private placement conduit bond, Series 2022, in the amount of \$11.9 million, for the Comstock Apartments Project.

On December 21, 2022, MBOH issued Single Family Mortgage Bonds, Series 2022C (non-AMT), in the amount of \$40.0 million, to be used for the purpose of acquiring additional mortgage loans and down payment assistance loans for Montana residents.

On July 15, 2022, Montana Facility Finance Authority (FFA) issued a trust fund loan in the amount of \$821.9 thousand and a direct loan in the amount of \$375.0 thousand to Central Montana Medical Center for the purpose of refinancing existing loans with a higher interest rate.

On July 18, 2022, FFA approved a loan from Dividend Finance of \$3.8 million to the Headwaters Utility District/Bridger Brewing Company under the Commercial Property Assessed Capital Enhancement (C-PACE) program to provide funds for a production brewery as well as the private sewer district.

On November 29, 2022, FFA issued a direct loan of \$375.0 thousand and a trust fund loan of \$625.0 thousand to the Central Montana Medical Center. The total loan amount of \$1.0 million was issued to purchase an MRI machine.

On November 18, 2022, the Montana University System Board of Regents granted Montana State University (MSU) authority to refinance the Series F 2018 Facilities Revenue Bonds. The University's first optional date to refund the principal balance is on March 1, 2023, and are subject to mandatory tender for purchase by September 1, 2023.

On November 18, 2022, the Montana University System Board of Regents granted MSU authority to plan, program, and design a new student housing facility. Preliminary planning and design costs are authorized up to \$6.0 million.

On August 26, 2022, the MSU Alumni Foundation (Foundation) concluded the purchase of the land and facilities at 4350 Spain Bridge Road, Belgrade, Montana for \$4.7 million. MSU is renting this property from the Foundation as a practice facility for the MSU Bobcat Rodeo team and is responsible for all operating and capital costs.

On August 24, 2022, the Foundation entered into an unsecured note payable, to finance the purchase of the MSU Bobcats Rodeo Facility. The 4.25% note payable is due in quarterly installments of interest accrued, and annual principal payments of \$520.0 thousand, maturing August 24, 2027.

On September 9, 2022, Montana State Fund's Board of Directors declared a dividend of \$30.0 million that was distributed to eligible policyholders during October.

On July 20, 2022, Montana University System Board of Regents priced \$60.0 million of tax-exempt General Revenue Bonds, Series 2022. The bond issuance closed on August 16, 2022. The proceeds from the bond issuance will be used primarily to fund cost overages on construction of a new dining facility and a dormitory renovation, and to fund construction of a new 200 bed residence hall on UM's Missoula campus. As defined in the Indenture for the Series 2022 Bonds, UM has pledged all permitted revenues after certain charges for payment of operation and maintenance expenses.

Q. Commitments

As of June 30, 2022, Montana State University (MSU) had issued purchase orders committing the expenditure of approximately \$31.1 million for equipment, supplies, and services which had not yet been received.

As of June 30, 2022, the University of Montana (UM) has spent \$32.0 million of \$120.1 million in budget authorizations for capital and maintenance projects.

As of June 30, 2022, Montana Board of Housing (MBOH) has committed \$3.2 million to purchase Single Family Mortgages, consisting of \$50.0 thousand for Foreclosure Prevention, \$863.0 thousand for Disabled Affordable Accessible Homeownership, \$726.4 thousand for Lot Refinance, and \$1.5 million for Habitat for Humanity.

NOTE 19. MATERIAL VIOLATIONS OF FINANCE-RELATED LEGAL PROVISIONS

Constitutionality of Retirement Plan Funding

The Montana Constitution, Article VIII, Section 15, states that public retirement systems shall be funded on an actuarially sound basis. Public pension plans are considered actuarially sound if the unfunded accrued actuarial liability amortization period is within 30 years. As of June 30, 2022, Public Employees' Retirement System-Defined Benefit Retirement Plan (PERS-DBRP), Highway Patrol Officers' Retirement System (HPORS), Sheriffs' Retirement System (SRS), and Game Wardens' and Peace Officers' Retirement System (GWPORS) were not in compliance and did not amortize within 30 years. The unfunded liabilities in the other state retirement systems amortized in 30 years or less as of the fiscal year ended June 30, 2022.

MPERA has been working with the State Administration and Veterans' Affairs Interim Committee over the interim to provide information and recommend funding increases to all four systems.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

NOTE RSI – 1. BUDGETARY REPORTING

A. State Budget Process

The Montana Legislature meets in the odd-numbered years to prepare annual budgets for the next biennium. The Constitution requires that legislative appropriations not exceed available revenues. The Legislature uses revenue estimates in the budgetary process to establish appropriation levels. Expenditures may not legally exceed budget appropriations at the fund level. In addition, the State Constitution prohibits borrowing to cover deficits incurred because appropriations exceeded anticipated revenues. State law requires an appropriation for disbursements from the general, special revenue and capital projects funds, except for those special revenue funds from non-state and non-federal sources restricted by law or by the terms of an agreement. The level of budgetary control is established by fund type, except capital project funds, which are at project level. Budgets may be established in other funds for administrative purposes.

Agency budget requests are submitted to the Governor, and the Legislative Fiscal Division receives a copy. The Office of Budget and Program Planning (OBPP) and the Governor analyze the requests, establish priorities, and develop the requests into the executive budget request submitted to the Legislature. Joint appropriations subcommittee hearings are held, and an omnibus appropriation bill is reported in the House and subsequently sent to the Senate. The Legislature generally enacts one bill to establish the majority of appropriations for the next two fiscal years. OBPP establishes appropriations for each program by accounting entity (fund) within an agency. The Legislature enacts other appropriations, but only within the available revenue. Agencies must prepare and submit to the budget director operational plans showing the allocation of operating budgets by expenditure category (i.e., personal services, operating expenses, equipment, etc.). The budget director or other statutorily designated approving authority may authorize changes among expenditure categories and transfers between program appropriations.

Appropriations may not be increased by amendment in the General Fund. However, a department, institution, or agency of the executive branch desiring authorization to make expenditures from the General Fund during the first fiscal year of the biennium from appropriations for the second fiscal year of the biennium may apply for authorization from the Governor through the budget director. In the second year of the biennium, during the legislative session, the Legislature may authorize supplemental appropriations. The Governor, or designee, may approve budget amendments for non-general fund monies not available for consideration by the Legislature and for emergencies. In the accompanying financial schedule, original and final budget amounts are reported. There were no expenditures in excess of total authorized appropriations in the State's budgeted funds for the fiscal year.

Appropriations for debt service activities are continuing through statutory authority until the obligation is extinguished. Because these non-operating budgets primarily serve a management control purpose, and related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided. Appropriations for capital projects funds are not made on an annual basis, but are adopted on a project-length basis. Because these non-operating budgets primarily serve a management control purpose, and related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

Appropriations may be continued into the next fiscal year when authorized by the Legislature or the Governor's Office. After fiscal year-end, appropriations that are not continued are reverted. The reverted appropriations remain available for one fiscal year for expenditures that exceed the amount accrued or encumbered. Fund balances are not reserved for reverted appropriations. For fiscal year 2022, reverted governmental fund appropriations were as follows: \$14.2 million in the General Fund, \$110.2 million in the State Special Revenue Fund, and \$130.5 million in the Federal Special Revenue Fund. Agencies are allowed to carry forward 30.0% of their reverted operating appropriations into the next two fiscal years. This amount can be used for new expenditures at the request of the agency and upon approval of OBPP.

B. Budget Basis

The Legislature's legal authorization ("appropriations") to incur obligations is enacted on a basis inconsistent with Generally Accepted Accounting Principles (GAAP). The budget basis differs from GAAP

for encumbrances outstanding at fiscal year-end, compensated absences, capital assets and inventories purchased in proprietary funds, certain loans from governmental funds, and other miscellaneous non-budgeted activity.

Judges' Retirement System Notes to Required Supplementary Information For the Year Ended June 30, 2022

Method and assumptions used in calculations of contractually determined contributions: The contractually required contribution rates are determined on an annual basis for the fiscal year beginning July 1, 2020, determined as of June 30, 2020.

The following key methods and assumptions were used to determine the contractual contribution rates reported in that schedule:

Actuarial cost method Entry age normal

Amortization method Level percentage of pay, open Asset valuation method 4-year smoothed market

Wage inflation 3.50% Merit increases 0%

Total salary increases 3.50%, including inflation

Inflation 2.75%

Investment rate of return 7.65%, net of pension plan investment expense, including

inflation

Mortality (healthy) RP-2000 Combined employee and annuitant mortality table

projected to 2020 using scale BB, males set back 1 year

Mortality (disabled) RP-2000 Combined employee and annuitant mortality table

Admin expense as a % of payroll 0.11%

Notes to Required Supplementary Information For the Year Ended June 30, 2022

Method and assumptions used in calculations of contractually determined contributions: The contractually required contribution rates are determined on an annual basis for the fiscal year beginning July 1, 2020, determined as of June 30, 2020.

The following actuarial methods and assumptions were used to determine contractual contribution rates reported in that schedule:

Actuarial cost method Entry age normal

Amortization method Level percentage of payroll, open

Asset valuation method 4-year smoothed market

Wage inflation 3.50%

Merit increases 0% to 4.80%

Total salary increases 3.50% to 8.47%, including inflation

Inflation 2.75%

Investment rate of return 7.65%, includes inflation

Mortality (healthy) RP-2000 Combined employee and annuitant mortality table

projected to 2020 using scale BB, males set back 1 year

Mortality (disabled) RP-2000 Combined employee and annuitant mortality table

Admin expense as a % of payroll 0.28%

Method and assumptions used in calculations of contractually determined contributions: The contractually determined contribution rates are set forth by the Legislature and are contained within the Montana Code Annotated (MCA). The amounts used for the valuation as of the year ended June 30, 2020, are as follows:

Special Funding

The State contributes 0.1% of member compensation on behalf of local government entities per Section 19-3-319, MCA.

The State contributes 0.37% of member compensation on behalf of school district entities per Section 19-3-319, MCA.

The State contributes a statutory appropriation from General Fund per Section 19-3-320, MCA.

¹ Schedules are intended to present information for 10 years. Additional years will be displayed as they become available.

Notes to Required Supplementary Information For the Year Ended June 30, 2022

Method and assumptions used in calculations of contractually determined contributions: The contractually required contribution rates are set forth by the Legislature and are contained within the Montana Code Annotated (MCA). The amounts used for the valuation as of the year ended June 30, 2021, are as follows:

The State contributes 0.11% of the compensation of members participating per Section 19-20-604, MCA.

The State contributes 2.38% of member compensation on behalf of school district and community college entities per Section 19-20-607, MCA.

The State contributes a \$25.0 million payment from the General Fund per Section 19-20-607, MCA.

REQUIRED SUPPLEMENTARY INFORMATION

NOTE RSI – 3. OTHER POSTEMPLOYMENT BENEFITS PLAN INFORMATION (OPEB)

The State of Montana and MUS OPEB plans allow retirees to participate, as a group, at a rate that does not cover all of the related costs. This results in the reporting of the Total OPEB Liability in the related financial statements and note disclosures.

In accordance with GASB 75, the following information is presented to reflect the funding progress of the Other Postemployment Benefits Plans for the State of Montana OPEB plan.

Total OPEB Liability and Related Ratios Last 10 Fiscal Years (1) (in thousands)

| Total OPEB | | | | | | | | | |

⁽¹⁾ Schedules are intended to present information for 10 years. Additional years will be displayed as they become available.

Note to Schedule: No assets are accumulated in a trust that meets the criteria of GASB 75.

Factors that significantly affect trends in the amounts reported:

Changes in Actuarial Assumptions and Methods

June 30, 2022: Changes in assumptions for 2022 were due to an increase in the discount rate from 2.23% to 3.31%.

June 30, 2021: Changes in assumptions for 2021 were due to no retiree contribution increase and a decrease in the discount rate from 2.75% to 2.23%.

June 30, 2020: Changes in actuarial assumptions include a participation rate reduction from 55% to 40% based on recent experience study, a revision to rates per the Retirement System pension valuations as of July 1, 2019, and the interest/discount rate was based on the average of multiple March 31, 2020, municipal bond rate sources.

June 30, 2019: Changes in actuarial assumptions include interest rate based upon March 31, 2019, 20-year municipal bond index per GASB 75 requirements.

June 30, 2018: Changes in actuarial methods include adjustments to the amortization period and actuarial cost method to conform with GASB 75 requirements. Changes in actuarial assumptions include revised rates per the retirement system pension valuations as of July 1, 2017, and interest rate based upon the March 31, 2018, 20-year municipal bond index per GASB 75 requirements. Other changes include revised rates based on actual data and projected trend and updated projected healthcare trend rates to follow the Getzen model.

Changes in Benefit Terms

June 30, 2022: None

June 30, 2021: None

June 30, 2020: None

June 30, 2019: None

June 30, 2018: Medical plans moved from Cigna to Allegiance as of January 1, 2016, the State implemented reference-based pricing hospital contracts effective July 1, 2016, and pharmacy moved from URx to Navitus as of January 1, 2017. The State implemented an Employer Group Waiver Program for Medicare retirees effective January 1, 2017.

In accordance with GASB 75, the following information is presented to reflect the funding progress of the Other Postemployment Benefits Plans for MUS plan.

⁽¹⁾ Schedules are intended to present information for 10 years. Additional years will be displayed as they become available.

Note to Schedule: No assets are accumulated in a trust that meets the criteria of GASB 75.

⁽²⁾ Amount reported is for the whole MUS plan for 2018 and 2019. Community Colleges were included due to lack of ability to separate covered employee payroll for those years.

Factors that significantly affect trends in the amounts reported:

Changes in Actuarial Assumptions and Methods

June 30, 2022: Changes in assumptions for 2022 were due to an increase in the discount rate from 2.23% to 3.31%.

June 30, 2021: Changes in assumptions for 2021 were due to no retiree contribution increase and a decrease in the discount rate from 2.75% to 2.23%.

June 30, 2020: Changes in actuarial assumptions include a participation rate reduction from 55% to 40% based on recent experience study, a revision to rates per the Retirement System pension valuations as of July 1, 2019, and the interest/discount rate was based on the average of multiple March 31, 2020, municipal bond rate sources.

June 30, 2019: Changes in actuarial assumptions include interest rate based upon March 31, 2019, 20-year municipal bond index per GASB 75 requirements.

June 30, 2018: Changes in actuarial methods include adjustments to the amortization period and actuarial cost method to conform with GASB 75 requirements. Changes in actuarial assumptions include revised rates per the retirement system pension valuations as of July 1, 2017, and interest rate based upon the March 31, 2018, 20-year municipal bond index per GASB 75 requirements, lapse rates were removed to reflect a return to standard retiree contribution levels, added employees covered by the MUS-RP, changes in revised rates based on actual data and projected trend and updated projected healthcare trend rates to follow the Getzen model.

Changes of Benefit Terms

June 30, 2022: None

June 30, 2021: Carrier options reduced to one

June 30, 2020: Changes in benefit terms include increased annual deductible and out-of-pocket maximums

June 30, 2019: None

June 30, 2018: Increased deductible, increased out-of-pocket limits for Medica and RX, increased visit copays, pharmacy moved from URx to Navitus as of July 1, 2017, employer group waiver program for Medicare retirees became effective July 1, 2017, adopted combined annual visit max of 30 for multiple therapy services and massage therapy moved into rehabilitation benefit.

REQUIRED SUPPLEMENTARY INFORMATION

NOTE RSI - 4. RISK MANAGEMENT TREND INFORMATION

The following tables present risk management trend information for the Hail Insurance Fund and the MUS Group Benefits Fund. The Hail Insurance Fund pays claims within a calendar year cycle that parallels the growing season from spring planting to fall harvesting; therefore, it has no development cycle. The MUS Group Benefits Fund has a three to five-year development cycle.

The tables illustrate how the earned revenues (net of reinsurance) of the funds and their investment income compare to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the funds as of the end of the fiscal year (in thousands). Section 3 shows the funds' incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred. Section 4 shows the cumulative amounts paid as of the end of successive years for each policy year. Section 6 shows how each policy year's incurred claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known. Section 7 compares the latest re-estimated incurred claims amount to the amount originally established (Section 3) and shows whether this latest estimate of claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. This table will be revised as data for successive policy years develops.

Nonmajor Debt Service Funds

Debt service funds are used to account for the accumulation resources for the payment of general long-term obligation principal and interest. A brief description of each debt service fund follows:

Coal Tax Fund — accounts for payments on special revenue renewable resources program (Coal Severance Tax) bonds.

Long-Range Building Fund — accounts for payments on general obligation long-range building program bonds.

Water & Wastewater Development Fund — accounts for payments on the following general obligation bonds: wastewater treatment works revolving fund, renewable resource program, drinking water revolving fund, and water pollution control revolving fund.

Health Care Fund — accounts for payments on the special revenue bonds for Montana State Hospital and Montana Developmental Center.

Energy Conservation Program Fund — accounts for payments on general obligation bonds issued for State Building Energy Conservation Projects.

Environmental Reclamation Fund — accounts for payments on general obligation bonds for hard rock mining reclamation and the CERCLA program.

Highway Fund — accounts for payments on the US Highway 93 GARVEES special revenue bonds.

Trust Lands Fund — accounts for payments on taxable trust lands bonds.

Nonmajor Capital Projects Funds

Capital project funds are used to account for financial resources used for the acquisition or construction of major governmental capital assets. A brief description of each capital project fund follows:

Long-Range Building Program Fund — accounts for resources received and expended for the State's long-range building program. The long-range building program includes costs for the acquisition, construction, and improvement of major capital assets financed by general obligation bonds and interest earned on bond proceeds.

Information Technology Projects Fund — accounts for resources received and expended for information technology projects for various upgrade and replacement activities.

Federal/Private Construction Grants Fund — accounts for federal grants, private donations, and federal matching funds that are restricted to general capital asset construction.

Capital Land Grant Fund — accounts for revenues and expenditures from the Capital Land Grant. Revenues are dedicated for the purpose of constructing capital buildings or additions thereto. Revenues may be transferred to a debt service fund for the payment of principal and interest on bonds issued for capital building construction.

Nonmajor Permanent Funds

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used to support state government programs. A brief description of each permanent fund follows:

Resource Indemnity Fund — accounts for taxes paid by persons engaging in or carrying on the business of mining, extracting, or producing minerals. Only the net earnings of the trust may be appropriated until the principal reached \$100.0 million. Interest earning are expended from the State Special Revenue Fund. This fund is administered by the Department of Revenue.

Cultural Trust Fund — accounts for a portion of coal severance taxes credited to this fund by the Department of Revenue. The Montana Arts Council uses income from the trust for the protection of works of art in the State Capitol and for other cultural projects.

Noxious Weed and Invasive Species Management Fund — accounts for revenues and interest earned on fee charges for the control of noxious weeds and invasive species by the Department of Agriculture and Department of Natural Resources.

Historical Society Trust Fund — accounts for memorials, bequests, and various other contributions to the Montana Historical Society. Includes the following trusts: James H. Bradley Memorial, Thomas Teakle, Merritt-Wheeler Memorial, Historical Society Acquisitions, Sobotka Memorial, and Edger I. and Jane R. Stewart.

Tobacco Settlement Fund — accounts for the principal, and holds the interest earned by investing, of the Tobacco Settlement.

Nonmajor Enterprise Funds

Enterprise funds are used to account for operations that provide goods or services to the public on a user charge basis. A brief description of each enterprise fund follows:

Liquor Warehouse Fund — accounts for activities related to the sale and distribution of alcoholic beverages and licensing within the State. Profits and license fees are used to finance General Fund expenditures.

Hail Insurance Fund — accounts for premium assessments paid by producers for crop acreage insured, investment and interest earnings, administrative costs, and benefits paid by the Department of Agriculture. Producers engaged in the growing of crops subject to damage by hail may participate in the hail insurance program.

State Lottery Fund — accounts for the operations of Montana's lottery.

Prison Industries Fund — accounts for resources that provide training and employment for inmates. The products produced are sold to state agencies, non-profit organizations, and other customers in accordance with state policies.

MUS Group Insurance Fund — accounts for employee contributions to the Montana University System's medical/dental self-insurance plan.

MUS Workers Compensation Fund — accounts for self-insured workers compensation coverage for employees of the Montana University System.

Subsequent Injury Fund — accounts for the assessments collected from employers and benefits paid to workers who are certified as vocationally handicapped and are injured on the job.

Secretary of State Business Services Fund — accounts for the Business and Government Services activities and the Administrative Code Program of the Secretary of State's Office.

Historical Society Publications Fund — accounts for the Historical Society's sales from "Montana, The Magazine of Western History"; books; publications; and merchandise from the Historical Society store.

Surplus Property Fund — accounts for Department of Administration intragovernmental sales of state and federal surplus property to state agencies, local governments, and designated non-profit organizations.

West Yellowstone Airport Fund — accounts for operations of the airport at West Yellowstone and is administered by the Department of Transportation. User airlines are assessed rental and landing fees.

Local Government Audits Fund — accounts for the costs incurred by the Department of Administration for audits of local governments and the associated fees assessed.

Flexible Spending Administration Fund — accounts for the fees collected from the participants in the Flexible Spending Programs and the related administrative costs of the plans administered by the Department of Administration and the Office of the Commissioner of Higher Education.

HUD Section 8 Housing Fund — accounts for a program that provides rental assistance to low-income families throughout Montana.

Other Enterprise Funds — includes several small enterprise funds administered by various agencies.

Internal Service Funds

Internal Service funds are used to account for operations that provide goods or services to other agencies or programs of state government on a cost reimbursement basis. A brief description of each internal service fund follows:

FWP Equipment Fund — accounts for inter/intra-departmental sales and use of Department of Fish, Wildlife, and Parks (FWP) equipment.

Highway Equipment Fund – accounts for inter/intra-departmental sales and use of Department of Transportation equipment.

Employee Group Benefits Fund — receives employee (excluding Montana University System) withholdings and state contributions to the medical self-insurance plan.

Information Technology Services Fund – accounts for fees assessed to State agencies and private users for their use of the State's phone system, centralized data processing, and systems design services.

Administration Insurance Fund – accounts for the State's property self-insurance program, including liability, property, flood, etc.

Motor Pool Fund – accounts for the fees associated with State employees use of State vehicles for State business.

Print & Mail Services Fund – accounts for fees assessed to State agencies for duplicating, typesetting, forms design, and graphic arts services.

Buildings & Grounds Fund – accounts for rental proceeds from State agencies are used to pay maintenance, security, and landscaping costs for state-owned property.

Central Service Fund — consists of four funds, used by the Department of Administration, the Department of Labor and Industry, the Department of Commerce, and the Office of Public Instruction, for administrative services provided on a cost recovery basis to programs within the departments.

DEQ Indirect Cost Pool Fund – accounts for funds collected as indirect costs from the operating units of the Department of Environmental Quality and to fund the department's indirect cost pool operations that provide services to the department.

Payroll Processing Fund – accounts for the payments received from State agencies for the costs associated with the processing of payroll warrants. This fund also implements and maintains the State's central human resource reporting system.

Warrant Processing Fund – accounts for the payments received from State agencies for the costs associated with the processing of all warrants other than payroll.

Investment Division Fund – accounts for costs associated with operations of the Board of Investments (BOI), allocated based on the dollar volume of investments held by user State agencies.

Aircraft Operation Fund – accounts for fees charged to users of State aircraft and is used by the Department of Natural Resources and Conservation.

Justice Legal Services Fund – accounts for fees the Attorney General's Office and the Department of Justice charge other state agencies for legal assistance.

Personnel Training Fund – accounts for fees charged to State agencies in order to provide training to State employees.

Debt Collection Fund – accounts for fees charged for the collection of bad debts.

Prison Industries Fund – provides training and employment for inmates, where the products produced are primarily sold to other State agencies.

Other Internal Services Funds — includes several small internal service funds administered by various State agencies.

SABHRS Finance and Budget Bureau Fund – implements and maintains the State's central accounting and budget software reporting system that is used by State agencies.

Pension (and Other Employee Benefit) Trust Funds

These funds provide retirement, disability, death, and lump-sum payments to retirement system members. A brief description of each fund follows:

Public Employee Retirement System - Defined Benefit Retirement Plan Fund — provides retirement benefits to substantially all public employees not covered by another public system.

Public Employee Retirement System - Defined Contribution Retirement Plan - Disability Other Post Employment Benefit Funds - provides members of the defined contribution retirement system a disability benefit plan funded through employer contributions.

Judges Retirement System Fund – provides retirement benefits for all district court judges, justices of the Supreme Court, and the Chief Water Judge.

Highway Patrol Officers Retirement System Fund – provides retirement benefits for all members of the Montana Highway Patrol.

Sheriffs Retirement System Fund – provides retirement benefits for sheriffs, detention officers, and State Department of Justice investigators.

Game Wardens & Peace Officers Retirement System Fund – provides retirement benefits for all persons employed as game wardens, supervisory personnel, and State peace officers.

Municipal Police Officers' Retirement System Fund – provides retirement benefits to all municipal police officers covered by the plan.

Firefighters Unified Retirement System Fund — provides retirement benefits for firefighters employed by first and second-class cities and other cities that wish to adopt the plan, and firefighters hired by the Montana Air National Guard.

Volunteer Firefighters Compensation Act Fund – provides medical benefits and pension, disability, and death benefits for all volunteer firefighters who are members of eligible volunteer fire companies in unincorporated areas of the state.

Public Employee Retirement System - Defined Contribution Retirement Plan Fund - members of the defined contribution retirement plan decide how to invest their contributions and a portion of their employer contributions in the available investment options.

Public Employee 457 Plan Fund – all employees of the State, Montana University System, and contracting political subdivisions are eligible to participate in this plan. The 457 plan is an Other Employee Benefit Plan designed to supplement State service retirement, Social Security, and other retirement plans and savings.

Teachers Retirement System Fund — provides retirement services to all persons employed as teachers or professional staff of any public elementary or secondary school, or unit of the Montana University System.

Voluntary Employee Benefit Association Fund – provides members with individual health care expense trust accounts to pay the qualified health care expenses of members and their dependents and beneficiaries.

Private-Purpose Trust Funds

Private-purpose trust funds are used to account for assets held by the State in a trustee capacity, where both the trust principal and earnings benefit individuals, private organizations, or other governments. A brief description of each private-purpose trust fund follows:

College Savings Plan Fund – accounts for monies contributed towards a "qualified tuition program" under section 529 of the Internal Revenue Code of 1986, as amended. This plan is a voluntary college savings plan whose participants are both Montana residents and out-of-state individuals.

Inmate Trust Fund – accounts for monies held by the Department of Corrections in a trust capacity. The monies are received from inmates and disbursed on behalf of the inmates.

Plan Securities Fund – accounts for the unliquidated security bonds held on deposit from self-insured employers. These funds either revert to the employer at a later date or are cashed and assumed by the State to be used on the employee's behalf.

Regulatory Deposits Fund — accounts for deposits held by the State, pending compliance with laws and regulations. This includes, deposits from insurers, deposits from pesticide applicator and commodity dealers, and professional employer organizations or groups.

Woodville Highway Replacement Fund – accounts for money paid to the Department of Transportation by the Anaconda Company to provide the government of Butte-Silver Bow with traffic facilities. This money is held on deposit for the city/county government and is distributed to them at their request.

Other Private-Purpose Trust Fund — accounts for monies held by the State in a trustee capacity that are not included in the above private-purpose trust funds. This includes the student accounts held by the Montana School for the Deaf and Blind and the self-sufficiency trust account held by the Department of Public Health and Human Services.

Custodial Funds

Custodial funds are used to account for assets held by the State as an agent that is not in a trust or equivalent arrangement, for individuals, private organizations, and other governments. A brief description of each custodial fund follows:

Child Support Collections Fund — accounts for payments from parents under the Child Support Enforcement Program.

Criminal Offender Restitution Fund – accounts for monies held by the State that is not in a trust or equivalent arrangement. The restitution payments are received from prisoners and disbursed to their victims.

Escheated Property Fund – accounts for property that is held by the State due to the absence of legal claimants or heirs and to be distributed to these heirs when identified.

Inter-governmental Fund — accounts for resources that flow through State agencies to federal, other states, local, and tribal governments.

Custodial Accounts Fund — accounts for monies held by the State that are not in trusts or equivalent arrangements. The monies belong to individuals and other organizations that not are not included in the above custodial funds.

Notes: (1) Personal income tax revenue is reported on a fiscal year basis.

⁽²⁾ Average effective rate equals personal income tax revenue divided by personal income.

⁽³⁾ Amounts shown are for single and married filing separate returns. For all other filing status returns, double the income amounts in the columns.

Notes: Details regarding the State's debt can be found in Note 11 of the financial statements.

⁽¹⁾ Debt as a percentage of personal income equals total debt divided by total personal income from Schedule B-1. Used calendar year for personal income for fiscal year for debt percentage calculation. Numbers revised for prior years due to personal income estimate revisions.

⁽²⁾ Amount of debt per capita is calculated by dividing total debt by total population from Schedule D-1. Numbers revised for prior years due to population estimate revisions.

Source: Statewide Accounting, Budgeting, and Human Resource System

Notes: Details regarding the State's debt can be found in Note 11 of the financial statements.

⁽¹⁾ Debt as a percentage of personal income equals total debt divided by total personal income from Schedule B-1.
Used calendar year for personal income and fiscal year for debt percentage calculation.
Numbers revised for prior years due to personal income estimate revisions.

⁽²⁾ Debt per capita is calculated by dividing total debt by total population from Schedule D-1.
Numbers revised for prior years due to population estimate revisions.
